# ADMINISTRATION REPORT
## of the
## AUNDH STATE
## for the year 1299 Fasali ending 6th June 1890

134742

FROM

THE PANT PRATINIDHI

the Chief of Aundh,

TO

THE COLLECTOR AND POLITICAL AGENT,

*Satara.*

SIR,

I have the honour to submit the Annual Administration Report of the Aundh State for the year 1299 Fasali, ending 6th June 1890.

APPENDIX—I, II, III, IV, VI, VII, VIII, IX, X, XI, XII, XIII, XIV, XV, XVI. and XVII.

The usual statements as per margin accompany. The appendix V. concerning Military force has not been appended as there is no Military force entertained in the state.

## CHAPTER I.

### POLITICAL.

1. The state of Aundh has been in subsidiary alliance with the British Government and the Government of Bombay exercises Political Control over it. The State pays no tribute to the Paramount power.

2. In the month of November last, I left Kinai for Poona and had the pleasure of paying my respects to His Royal Highness the Prince Albert Victor. The interview was a pleasant one.

3 In the month of December 1889, I had also the pleasure of paying my respects to His Royal Highness the Duke of Connaught, and I am very glad to state that in this pleasant interview I was assured that my assurance of loyal devotion and sincere fidility to the Paramount power would be conveyd to Her Most Gracious Majesty the Queen Empress.

4 In the month of January last, Mr. H. E. Winter, the then Political Agent of Satara, paid a short visit to Aundh where he was pleased to see the local institutions and to suggest certain

reforms which are being considered and carried-out gradually.

5 On the 2nd of March 1890, I left Kinai on a short tour in the Thana of Kapil, in the course of which I saw the spot where the murder of Antaji Narayan Kulkarni was reported to have been committed and personally enquired into the matter. The culprits have absconded and all the necessary steps have been taken for their apprehension.

6 I feel glad to state that my son Parashuramrao got a male child in the month of November last.

7 It is, however, with feelings of regret and pain that I have to mention here the two mournful occurrences, viz the lamentable and premature death of my son-in-law Ganpatrao Bhayasaheb of Gwaliar and that of his wife Sonu Tai (my daughter) whose age was only 16. The former expired on 12th October 1889 and the latter on 6th December 1889.

## CHANGES IN THE ADMINISTRATION.

8 For the sake of administrative convenience the Revenue work of the Kundal Thana was distributed amongst the Mamlatdars of Aundh, and Kapil.

9 In the month of November last, Mr. Babaji Hari, the late State Karbhari, retired from the service on account of his old age and the duties of that post were entrusted to my second son Gangadharrao alias Tatiasaheb. He continued to hold the office up-to the end of the year under review, that is, he worked only for a period of about six months. As, however, my son had no sufficient experience of the duties of the responsible post he held, I considered it advisable to get him well trained in all the branches of the administration with the assistance of an experienced officer under the British Government. I, therefore, took measures to obtain the services of a competent officer for that purpose. No other important changes in the State officials occurred during the year under review.

# CHAPTER II.

### ADMINISTRATION OF THE LAND.

1 During the year under review the Revenue Survey Settlement was neither in progress nor was it extended to any of the villages in the state. Under orders of Government issued at my request, the survey operations of the Thana of Gunadal were, however, under-taken

by the Revenue Survey Department. The extent of the work done by the establishment employed is not yet exactly known. It is, however, reported that the measuring operations will be completed within a few months.

2 Excluding the Thana of Atpadi and the village of Kinai, to which the survey settlement has been extended, lands are generally leased on Pattas or Kowls for a certain limited period of time which in a majority of cases does not exceed 10 years. No settlement of Inams was made during the year under review.

3 The waste land taken up for cultivation during the year under review amounts to acres 34—25. The details will be seen from the subjoined table. The figures entered in the table have been roughly calculated as the survey operations in the State have not been completed as yet.

| Extent of culturable area for | | Taken up in | | Waste remaining at the end of the year | | Percentage of culturable land lying waste in | |
|---|---|---|---|---|---|---|---|
| 1889—90 | 1888—89 | 1889—90 | 1888—89 | 1889—90 | 1888—89 | 1889—90 | 1888—89 |
| 6550—3 | 7215—8 | 34—25 | 665—5 | 6515—18 | 6550—3 | 99—46 | 90—78 |

4 As regards the revenue accounts, Ramrao Tadpatre's system has been in force. The accounts are examined by the two Sarsubhedars and the Huzur Daftardar. The account system however requires some improvement which will be effected during the current year.

5 There were 9 boundary-disputes, out of which 4 were disposed of, and 5 awaited disposal at the end of the year.

6 No estates belonging to wards were under the management of the state during the year under review.

## CHAPTER III

### PROTECTION

(*a*) *Legislation*—

The following Acts and Regulations have been brought into operation in the State as far as practicable.

INDIA ACTS.

Act No. XLV of 1860—Act No. V of 1861—Act No. XX of 1864—Act No XV of 1889—Act No VII of 1870—Act No XI of 1871—Act No I of 1872—Act No IX of 1872—Act No X of 1873—Act No I of 1877—Act No III of 1877—Act No X of 1877—Act No XV of 1877—Act No I of 1878—Act No XI of 1879—Act No X of 1882—Act No XII of 1882—

BOMBAY ACTS AND REGULATIONS

Regulation II of 1827—Regulation VIII of 1827

ACT NO. VII of 1867—ACT NO VIII of 1867—ACT NO I of 1871—ACT NO III of 1874—ACT NO III of 1876—ACT NO V of 1878—ACT NO V of 1879—ACT NO XVII of 1879—ACT NO I of 1882—ACT NO IV of 1882—ACT NO VIII of 1866—

2 The Mamlatdars Courts' Act is made applicable with a condition that the decisions under the Act are liable to be appealed against. This provision was made with a view to have an effectual check upon the working of the act as without an appeal there would be a mis-understanding as to the usefulness of the act and the chances of a failure of justice would perhaps be numerous.

(*b*) *Military*—

3 There is nothing to note under this head as there is no Military force entertained in the State.

(*c*) *Police*—

4 Exclusive of the Ramoshi Rakhawaldars maintained in most of the villages in the State, the number of the paid servants under this head is only 51 during the year under review There are however 179 more men who assist in the performance of the Police duties. They are called shet-sanadis, and have got Inam-lands for services to be rendered by them and are similar to Gadkaris in their character. They are not now so useful in doing their work for which they were originally paid and an early opportunity will be taken to commute their services into a cash payment with a proportional quit-rent.

5 The proportion of the stipendiary Police together with the sanadis to the population of the State is 1 to 256 persons while that

of the stipendiary Police alone is 1 to 1155.

6 The total number of the departmental punishments was 8 as shown in the Appendix VI.

7 The Chief Constable of Kundal was dismissed in consequence of his having disregarded the repeated warnings of the superior authorities and as he was also found to be notably negligent in the performance of his duties.

8 Out of the total number of the stipendiary Police 12 persons or 23 percent were able to read and write.

9 The total number of offences of which the Police received information was 370 showing a decrease of 45 over 415 in the previous year. The total number of the arrests made by the Police in connection with the offences mentioned above was 110 as contrasted with 169 in the previous year.

10 The total number of the accused persons sent up for trial was 109 against 167 in the preceding year. The subjoined table will show their disposal.

| | |
|---|---|
| Convicted | 24 |
| Acquitted | 3 |
| Discharged | 61 |
| Released on account of the absence of the complainants | 16 |
| Released as the offences were compounded | 5 |
| Total | 109 |

11 The above figures will show that 61 persons were discharged for want of sufficient evidence. The percentage of the conviction to the arrests is 22 against 23 in the preceding year.

12 During the year under review the value of the property stolen amounts to Rs. 2741—7—6 and that of the property recovered to Rs. 391—11—0.

13 The expenditure incurred on account of the Police Department amounts to Rs. 9976—11—0 as shown below :—

| | |
|---|---|
| Stipendiary Police | 3444—11—1 |
| Shet-sanadi ( service Inamdars) | 5208— 8—5 |
| Village Rakhawaldars | 1323— 7—6 |
| Total | 9976—11—0 |

The expenditure of the previous year amounted to Rs. 10471—5—11.

14 The decrease in the expenditure is partly due to the decrease in the number of the force and partly to the pay of certain men which remained unpaid at the end of the year on account of their suspension and some other causes.

15 The work of the Police was not on the whole satisfactory and measures are being taken to improve the efficiency of the department

16 In addition to the Police force mentioned above, there is a shibandi force the total strength of which amounts to 78 men. Out of these 19 are armed footmen, 20 armed and mounted and 39 are armed followers.

17 The shibandi is maintained at a cost of Rupees 8176—10—3

18 The men belonging to shibandi assist the police and perform the guard and escort duties.

19 During the year under review, 22 accidental deaths occurred against 20 in the preceding year. The details thereof are as follows.

| | |
|---|---|
| By Snake-bite | 6 |
| By drowning | 14 |
| By fire | 2 |
| Total | 22 |

20 Provision will be made for rewarding the destruction of wild animals in the next year's budget.

(*d*) *Criminal Justice*—

21 The courts which form the subject of Criminal Justice were as shown under:—

| | | |
|---|---|---|
| 1 | The Huzur Criminal Court of the Pant Pratinidhi. | |
| 3 | First Class Magistrates' Courts. | |
| | Kabhari Magistrate | 1 |
| | Huzur Magistrate | 1 |
| | Sursubhedar Magistrate | 1 |
| 6 | Third Class Magistrates' Courts | |
| | | 10 |

22 in the month of March last, the court of the Third class Magistrate at Kundal was abolished and his work was transferred to the Magistrate of the Kapil Thanna for the sake of administrative convenience and consequently the number of the Third Class Magistrates' courts was reduced from 6 to5.

23 The total number of the offences brought to trial before the courts mentioned above amounts to 286 showing a decrease of 48 over 334 in the previous year. Out of these 283 were disposed of and 3 remained undisposed of at the close of the year.

24 The number of serious offences was very small. There was only one case of murder and one of miscarriage as in the previous year.

25 During the year under review, there was only one case of grievous hurt against 6 in the preceding year. A considerable decrease was perceptible in the cases of thefts, the total number being 21 against 35 in the previous year. The offences of robbery were 3 against 6 in the year preceding. There were 2 cases of dacoity one of which was disposed of and one remained undisposed of at the close of the year. The case disposed of came to be included under the head "Dacoity," only because 6 persons were suspected of having committed the crime, whereas only one person was arrested who was afterwards discharged for want of evidence. The value of the property alleged to have been stolen in this case was Rs. 3—8—0 only. There was only one case of mischief by fire in which the accused was convicted and sentenced.

26 The total number of the accused persons involved in the 286 cases and brought to trial amounts to 557 or 114 less than in the preceding year. The result of the disposal of their cases is as shown below :—

| | |
|---|---|
| Convicted | 182 |
| Acquitted | 227 |
| Discharged | 52 |
| Released as the offences were compounded | 64 |
| Released on account of the absence of the complainants | 23 |
| Referred to the Political Agent for trial | 6 |
| Remained pending under trial | 3 |
| | 557 |

27 The number of the accused persons in the cases which were compounded, to-gether with those who were released in consequence of the absence of the complainants amounted to 87. These when added to the three who remained under trial at the end of the year make up a total of 90.

28 Excluding the 90 accused persons mentioned in the preceding section, the percentage of the convictions to the number ( 467 ) brought up for trial comes up to 39 as compared with 35 in the preceding year.

29 The average duration of each case in the Courts of the Magistrates is 3 · 7 days as compared with 5 · 75 days in the preceding year.

30 The average duration in the Huzur Criminal Court is 9 days. The longer duration of time is due to the protracted conduct in a case of hurt at Kundal. In this case some of the witnesses residing in the British territory, were to appear and consequently its disposal was delayed.

31 The total number of the sentences of imprisonments passed on culprits was 38 against 44 in the previous year, the details of which are as follow. :—

| | |
|---|---|
| Not exceeding one month..... | 29 |
| Not exceeding two months..... | 1 |
| Not exceeding six months..... | 7 |
| Not exceeding two years ..... | 1 |
| Total..... | 38 |

32 The sentence of fine was inflicted on 144 offenders. The total amount of fines during the year under review amounted to Rupees 1101—12 as compared with Rupees 1239 in the previous year. The amount of the fines recovered is Rupees 1049—1—0 againts Rs. 1070—1—9 in the previous year.

## APPEALS

33 During the year under review the Huzur Appellate Court dealt with the 9 appeals preferred by 30 persons. 7 of these were disposed of as follows :—

| | |
|---|---|
| Sentence confirmed..... | 3 |
| Sentence altered..... | 3 |
| Remanded for further inquiry ..... | 1 |
| Total..... | 7 |

34 Two appeals remained undecided at the close of the year.

## REVISION

35 As a court of revision, the Huzur Criminal Court quashed the

convictions and sentences passed by two Subordinate Magistrates in two cases and altered the sentence passed in one case.

(*e*) *Extradition*—

36 There is nothing to mention under this head.

(*f*) *Prisons*—

37 The Jail at Aundh is called Huzur Jail. It is kept clean and is well accommodated. The long-term prisoners are confined therein. The number of the lock-ups at the Taluka stations was 6 but as the Thana of Kundal was abolished in the month of March last, it was reduced to 5. The short-term prisoners in the Thanas are mostly confined in the lock-ups thereat. The Medical officer in charge of the dispensary at Aundh visits the Huzur Jail and looks after the health of the Jail population.

38 During the year under review the number of the convicts and the under-trial prisoners admitted was 76. These together with the 12 that remained in the jail at the end of the preceding year make up a total of 88 as compared with 82 in the previous year. At the end of the year under review 11 prisoners remained in confinement.

39 The expenditure incurred on account of the jail department amounts to Rs. 1869—10—0 against Rs. 1599—2—6 in the previous year. The increase in the expenditure is attributable to the increase in the number of admissions.

(*g*) *Civil Justice*—

40 The number and designation of the Civil Courts in the State during the year under review was as shown below :—

| | |
|---|---|
| 1 | The Huzur CivilCourt of the Punt Pratinidhi. |
| 1 | The court of the Special Judge under the Agriculturists' Relief Act. |
| 6 | Courts of the 2nd class Subordinate Judges. |
| 8 | |

41 The constitution and powers of the courts remained unchanged.

42 The subjoined statement will show the number and nature of the suits filed during the year under review as contrasted with those in the previous year.

| Name of Court | Suits for immovable property | | Money suits | | Suits for other rights | |
|---|---|---|---|---|---|---|
| | 1889-90 | 1888-89 | 1889-90 | 1888-89 | 1889—90 | 1888—89 |
| 2nd class Subordinate Judge Atpadi | 11 | 9 | 73 | 80 | 4 | |
| do do do Kapil ... ... | 17 | 14 | 47 | 46 | 16 | |
| do do do Kundal ... | 5 | 11 | 13 | 28 | 1 | |
| do do do Kinai ... | 8 | 1 | 12 | 13 | 0 | |
| do do do Aundh..... | 7 | 4 | 22 | 11 | 0 | |
| do do do Gunadal ... | 0 | 0 | 3 | 3 | 0 | |
| Total..... | 48 | 39 | 170 | 181 | 21 | |

43 The value of the subject matter of the suits filed during the year under review amounts to Rs. 22618—14—9 against Rs. 25932—0—0 in the previous year.

44 The 239 suits filed during the year when added to 124 left undecided at the close of the previous year make up a total of 363 against 365 in the previous year. Out of these 255 were disposed of and 108 remained pending at the end of the year.

45 The corresponding figures in the preceding year are 241 and 124 respectively. The details will be found in appendix XIII.

46 The value of the claims involved in the suits disposed of was Rs. 27775—14—11 against Rs. 28173—14—9 in the previous year. The total amount of the value of the claims in the suits that remained pending at the close of the year was Rs. 14639—9—10 as against Rs. 19796—10—0 in the previous year.

47 The average duration of each suit is 322 days against 165 in the previous year. The greatest delay is in the court of the sub Judge of Gunadal for which his explanation is demanded. The delay in other courts also appears to be unsatisfactory and consequently all the sub-Judges are warned to be more active in the discharge of their duties.

## SUITS UNDER THE AGRICULTURISTS' RELIEF ACT

48 Among the total number of the suits mentioned before, 124 were instituted under the Agriculturists' Relief Act, as contrasted with 112 in the previous year. These when added to 65 left undisposed of at the close of the previous year, make up a total of 189. Out of these 138 involving claims of Rs. 15415—0—9 were disposed of and 51 awaited disposal at the end of the year.

49 In the previous year 120 suits were disposed of and 65 remained pending at the close of the year.

50 During the year under review there were only 5 applications for the revision of the decisions of the sub-Judges which together with the 2 that remained pending at the close of the previous year make up a total of 7.

51 The Special Judge expresses his regret to state that he found himself unable to dispose of any of the applications as some of them were lately filed, and in some, parties were not fully prepared to go on with their cases. It is reported however that all of the applications will be disposed of at the end of September 1890.

## OF APPEALS

(Turn over.)

The following statement will show the work done by the Huzur Civil (appellate) Court of the Pant Pratinidhi

| Name of Court. | Opening Balance | | Filed during | | Total | | Disposed of during | | Closing balance | | Value of appeals filed during | | How disposed of | | | | | Average duration | | | | | |

| | | | | | | | | | | | | | 1888—89 | 1888—89 | 1888—89 | 1888—89 | 1888—89 | | | | | | |
| 1 Huzur Appellate court of the Pant Pratinidhi..... .... | 14 | 17 | 35 | 21 | 49 | 38 | 30 | 24 | 19 | 14 | 73323—4—3 | 3430—2—0 | 17 | 9 | 5 | 9 | 4 | 3 | 1 | 0 | 3 | 3 | 0 | 9 | 16 | 0 | 4 | 18 |

53 The Huzur Civil Court had to dispose of 49 appeals in all out of which 35 were filed during the year under review and 14 were left undecided at the end of the preceding year.

54 The corresponding figures for the preceding year are 38, 21 and 17 respectively.

55 The total number of the appeals disposed of during the year under review is 30 against 24 in the previous year. The following table will show how they were disposed of.

| | |
|---|---|
| Confirmed | 17 |
| Reversed | 5 |
| Amended | 4 |
| Remanded for retrial | 1 |
| Compromised and otherwise disposed of | 3 |
| Total | 30 |

56 19 Appeals were left undecided at the close of the year against 14 in the previous year.

57 The average duration of each appeal is 276 days as against 138 in the previous year. The delay is partly due to the illness of the presiding Judge and partly to the fact that the parties were not, through their ignorance, found prepared to proceed with the appeals on the dates fixed for hearing.

58 The extreme step of not allowing adjournments would be hard upon the ignorant rayats of the State. Steps would, however, soon be taken to show less leniency in the direction of granting adjournments.

*Suits under the Mamlatdar's Court Act No.* III of 1876.

59 During the year under review the Mamlatdars had to dispose of 24 suits in all, out of which 3 were on the file at the commencement of the year and 21 were instituted during the year. 23 suits involving claims of Rs. 1131—10—6 were disposed of and one remained pending at the close of the year.

60 In the previous year the Mamlatdars had to dispose of 26 suits out of which 23 were disposed of.

## EXECUTION

61 The Civil Courts had to dispose of 408 applications for the execution of decrees. Out of these 107 were on the file at the beginning of the year and 301 were filed during the year. The corresponding figures for the previous year are 443, 183 and 260 respectively. The value of the subject-matter of the applications filed during the year is Rs. 45602—3—8 against Rs. 32669—9—10 in the previous year.

62 The total number of the applications disposed of during the year is 297 against 336 in the preceding year.

63 The value of the claims involved in the applications disposed of during the year amounts to Rs. 52480—9—11 as compared with Rs. 34144—7—5 in the previous year.

64 At the end of the year under review the number of the applications left undisposed of is 111 as compared with 107 in the previous year. The value of the claims in the applications left undisposed of is Rs. 20880—14—5 against Rs. 27759—4—8 in the previous year The result under this head would seem therefore to compare favourably with that of the previous year.

### *(h) Registration.*

65 The Huzur registry office is kept at Aundh The number of the sub-registry offices kept at the Taluka stations remained unchanged.

66 The sub-joined statement will show the important particulars of the documents registered during the year under review as compared with those in the preceding year.

| Description | 1889—90 | | | | | | | 1888—89 | | | | | | | Remarks |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | Number of deeds | Value of property | | | Fees realized | | | Number of deeds | Value of property | | | Fees realized | | | |
| Mortgage | 77 | 37104 | .... | .... | 234 | 4 | 3 | 72 | 21968 | 8 | .... | 175 | 8 | .... | |
| Sale-deeds | 93 | 22536 | 8 | 3 | 177 | .... | 3 | 82 | 24568 | .... | .... | 172 | 14 | 9 | |
| Wills | .... | .... | .... | .... | .... | .... | .... | 1 | .... | .... | .... | 5 | .... | .... | |
| Money-bonds | .... | .... | .... | .... | .... | .... | .... | 1 | 800 | .... | .... | 4 | 4 | .... | |
| Mis-cellaneous | 65 | 4750 | 15 | 10 | 114 | 9 | 6 | 46 | 3838 | 12 | .... | 74 | 13 | 6 | |
| Total | 235 | 64391 | 8 | 1 | 525 | 14 | .... | 202 | 51175 | 4 | .... | 432 | 8 | 3 | |
| Deduct Expenditure | .... | .... | .... | .... | .... | .... | .... | .... | .... | .... | .... | .... | .... | .... | |
| Net profit | 235 | 64391 | 8 | 1 | 525 | 14 | .... | 202 | 51175 | 4 | .... | 432 | 8 | 3 | |

67 The total number of the registrations during the year under review shows an increase of 33 over 202 in the previous year.

68 The amount of the fees realized during the year therefore exceeds that of the previous year by Rs. 93—5—9.

69 No separate expenditure is incurred on account of the Registration Department as the work not being very heavy is performed by the Revenue officers.

*(i) Municipal Administration.*

70 There is nothing to record under this head as there is no Municipality in the State.

## CHAPTER IV. PRODUCTION AND DISTRIBUTION

*(a) Agriculture, weather and crops*

1 A statement of the agricultural stock Appendix XVI h as been appended.

2 The details of the rain-fall during the year under review are as shown below :—

| Thanas | Inches | Cents |
|---|---|---|
| Atpadi | 15 | 28 |
| Kundal | 22 | 60 |
| Kapil | 35 | 21 |
| Gunadal | 13 | 89 |
| Aundh | 29 | 22 |
| Kinai | 24 | 3 |

3 On account ot the untimely rain-fall the Kharip crops were damaged but the out-turn of the Rabi crops was, on the whole, favourable.

*(b) Wages and labour; also the prices of food-grains.*

4 No regular and reliable registers have been kept concerning this head and no monthly returns are received from Thanas. Measures are now taken for keeping the required registers regularly.

5 From the information obtained at the Saddar Station however it seems that the prices of the staple food-grains rose a little and fodder continued to be dear as mentioned in the report of the previous year.

6 The rates of labour continued to be the same as in the last year.

*(c) Forests*

7 There are no forests as such in the State. There are a few Kurans, but they belong to the Revenue Department.

*(d) Trade and Manufactures—*

8 There are no factories or other work-shops in the State.

9 Several of the villages in the State are isolated and no statistics have been recorded for the Registration of imports and exports. The chief articles of export are Wheat, Cotton, Coarse-Sugar (ಗುಡ), Groundnuts, Jawari, and Bajari. The chief articles of import are piece-good, Stationery, Sugar, Grocery, Kerocine oil &c.

10 There is however no extensive traffic of these articles. The articles imported are mostly for local consumption.

*(e) Fairs—*

11 The important fairs in the State are those at Aundh and Kharsundi. They are held annually in the month of January and April respectively. The fair at Aundh is attended by about five thousand persons and that at Kharsundi by about ten thousand persons. They are held in honour of the dieties Yamai and Nath respectively. They last for about three days and persons residing at distant villages attend the fairs. At the fair of Kharsundi a large cattle-market is held and dealers in cloth and brasspots come from a distance with their articles for sale.

*(f) Public Works—*

12 The following statement will show the work done by the Public Works Department and the expenditure incurred on that account.

| Works | State Funds | | | Local Funds | | | Total | | |

13 During the year under review Rs. 1182—0—0 were spent on Public Works from State Funds. It is however a matter for regret that for want of sufficient funds, a greater allotment could not be made on this account.

## CHAPTER V.

### REVENUE AND FINANCE.

1 The following Statement will show the opening and the closing balance for the year under review as compared with the previous year.

2 The subjoined statement will show the receipts of the year under review as compared with those of the three previous years.

3 The increase in the receipts during the year under review is partly due to the debts contracted and partly to the slight increase in the Land-revenue, Sayar-revenue, realization of the out-standings and in several other minor items. The decrease in the receipts of the Local Funds is chiefly due to the fact that a smaller sum of money was borrowed during the year under review.

4 A fixed sum received from Government as compensation for salt excise duty has been entered under Land-revenue. The item however belongs more properly to the salt Department and the correct classification will be shown in the next year's report. The small in crease in the receipts under Abkari is due to the income of Bhang and Ganja which has been entered under the head "Abakari" during the year. A small increase is pereeptible under the head "Opium" during the year under review. The increase in the receipts of Stamps is due to the inclusion of the Court Fees' Stamps under this head. They were included last year in the item under law and justice. But this arrangement has been made to bring the whole stamp revenue under one head more especially as there are no separate Court Fee Stamps. There are no toll bars in the State. Transit duties are not levied at all.

5 The statement given below will show the expenditure of the year under review as contrasted with that of the three preceding years.

6 The increase in the expenditure is partly due to the remissions granted to cultivators and partly to the increase in the expenditure of the Khasgi Department, of the Paga, of the alienations and of the repayments of deposits &c.

7 A strict comparison between the figures in the statements Nos. I, II, and III, could not be correctly made as the accounts were not properly classified according to the same principle all through.

8 Now a new and improved system of accounts is being introduced and the difficulty experienced this year would soon be removed.

## CHAPTER VI.

### VITAL STATISTICS AND MEDICAL SERVICES.

1 The two charitable institutions viz :— the dispensary at Aundh and the dispensary at Atpadi—are rendering valuable service to the Public. The subjoined table will show the main particulars concerning the medical relief afforded to the patients.

| Dispensary | Number of patients treated | | Result | | | | Expenditure | Daily Average |
|---|---|---|---|---|---|---|---|---|
| | In-door | Out door | Discharged | Absented | Died | Remaining under treatment | | |
| Aundh ... | 9 | 4096 | 3554 | 498 | 26 | 18 | 880—1-3 | 40·5 |
| Atpadi ... | 1 | 3524 | 2474 | 847 | 157 | 47 | 822—3-3 | 33·3 |

2 The total number of the patients treated in the dispensary at Aundh was 4105 against 4297 in the previous year.

3 The daily average attendance was 40·5 against 45·8 in the previous year. Among the patients 2096 were British subjects and 2009 were subjects of the State. 4 Major and 140 minor operations were performed during the year. In the preceding year the corresponding figures were 4 and 180 respectively.

4 At the dispensary at Atpadi 3525 patients were treated out of whom 2474 were discharged, 847 absented 157 died and 47 remained under treatment at the close of the year.

5 The corresponding figures for the previous year are 3061, 2320, 671, 56 and 14 respectively.

6 The increase in the number of the deaths during the year under review is due to the prevalence of Cholera. The minor operations performed during the year were 151 against 102 in the previous year. The average daily attendance was 33·3 against 28 in the previous year. Among the total number of the patients 406 were British subjects and 3119 were subjects of the State

7 The agency of the two native physicions supported by the State is greatly availed of by the public.

8 The prevailing diseases were Cholera, Influenza, Fever, Worms, Dysentery, Cough &c.

9 No fatal case of Influenza is reported to have occurred. It lasted for two months (March and April) and was reported to have

prevailed almost in every village.

10 The total number of the patients attacked by Cholera was 429 out of whom 216 got cured and 213 died. The mortality in the Thana of Atapadi was very high as compared with the mortality in the other Thanas. It has been reported that a vast multitude of pilgrims going to and returning from Pandharpur mostly import the dis-ease in the State. Precautionary measures were however taken to prevent its further spread and medicines were supplied to the patients in consequence of which many sufferers were saved.

11 The medical Department was maintained at a cost of Rs. 1877—12—6 against Rs. 2149—10—9 in the previous year.

*Births and Deaths*

12 The subjoined table will show the total number of births and deaths in the State during the year under review.

| | 1889—90 | 1888—89 | Increase | Decrease |
|---|---|---|---|---|
| Births..... | 2436 | 2330 | 106 | ..... |
| Deaths..... .... | 1892 | 1462 | 430 | ..... |

13 The increase in the number of deaths during the year under review is mostly due to the prevalence of Cholera.

14 From the figures entered in the table, the birth-rate per thousand of the population is 41 and the death-rate per thousand is 32. This shows that the registration is almost accurate and correct.

15 The circular order No. 29 dated 18th August 1880 to the effect that information concerning every birth and death must be given to the Police Patel within 48 hours from the time of its occurrence is found to have worked well. The Register of births and deaths is examined by the inspector of vaccination, by the two vaccinators, by the Mamlatdar and by the other Revenue and Police authorities. The above measures have, to a great extent contributed towards ensuring accurate registration.

*Sanitation and Vacination.*—

16 Almost all the villages in the State being very small it is almost impossible under the present circumstances to make such arrangements for sanitation as are made in large towns and cities. No separate establishment has been maintained for sanitation. The work is performed by the village-officers and supervised by the Reveue Department. There is however room for much improvement and as the habits and notions of the masses will be improved the desirable improvement in this branch will gradually be made. The subject of establishing Municipalities in the villages Aundh, Kundal, and Atpadi is in contemplation.

17 The following table will show the progress of vaccination in the State during the year under review as compared with that in the previous year.

| Operation by whom performed | Number of persons vaccinated in | Number of persons vaccinated in | Result | | | |
|---|---|---|---|---|---|---|
| | | | Successful | | Unsuccessful | |
| | 1889-90 | 1888 89 | 1889-90 | 1888-89 | 1889-90 | 1888 89 |
| Govind Nilkant | 1434 | 1461 | 1196 | 1285 | 37 | 40 |
| Kashinath Ramchandra | 708 | 615 | 651 | 516 | | |
| Vaccinators of Satara, Koregaom and Khatawa Taluka | 264 | 371 | unknown | | | |
| Total | 2406 | 2447 | | | | |

18 The vaccination Department is maintained at a cost of Rs. 444—5—6 against 616—5—6 last year.

# CHAPTER VII.

## INSTRUCTION

1 There are 71 villages in all in the Jahagir territory out of which 27 are provided with schools. The school at Vihapur was abolished for paucity of students and consequently the total number of schools during the year under review is 30 or one less than in the preceding year. It has been reported that the Urdu school for the Mahomedan population opened at Aundh towards the close of the preceding year is making its progress pretty well. There are three girls' schools in the State as in the preceding year.

2 The main particulars concerning each of the schools are given in the following table :—

3 The total number of the boys under instruction amounts to 943 as contrasted with 904 in the previous year. Out of these 4 study the VI Standard, 18 study the V, 54 study the IV, 103 study the III, 149 study the II, 198 study the I standard and 417 boys are below standard.

4 There are three schools for the girls, one at Aundh, one at Kinai and one at Dighanchi as in the previous year. Including the 23 girls attending the boys' schools, the total number of the girls under instruction amounts to 94 as compared with 91 in the previous year. 17 girls study the II standard, 17 study the I standard and 60 girls are below standard.

5 Besides the schools mentioned above, there are two Vedic schools supported by the State. One of them is at Aundh and the other at Kinai. There is one private school for boys at Atapadi with 47 pupils.

6 A Scholar-ship of Rs. 15 per month has been awarded to a student studying Astronomy at Pooha.

7 The Educational Department is maintained at a cost of Rs. 4572—7—5 exhibiting an increase of Rs. 129—1—5 over Rs. 4443—6—0 in the preceding year.

8 The examination returns show that the result of the year under review compares favourably with that of the preceding year.

## CHAPTER VIII

### MISCELLANEOUS

1 There are very few wild animals in the State. Measures however will be taken in the next year for their destruction by offering rewards.

2 There are 4 British Post offices in the State as in the previous year. The subject of establishing a Post office at Gundal is under consideration.

3 The condition of State Records is not satisfactory. Measures are being taken to make the necessary reform.

4 There is only one Library at Aundh supported by the State. There were no subscribers by whom the institution might be maintained independently but it is hoped that they will volunteer subscriptions within the course of a few years.

5. The transit duties are not levied. The Sthal-Mod and Sthal Bharit Jakats have been abolished and consequently there is no hinderance to the progress of free trade.

The chief regrets to notice that no improvement in the financial condition has been effected and that the amount of debts has on the other hand, increased. Now the services of an experienced officer have been lent to the State by Government and it is hoped that a marked improvement in this branch of the administration would be effected during the course of the current year under the supervision of that officer.

The State is highly obliged to the Political Agent for his valuable advice.

I have the honor to be
Sir,
Your most obedient servant

(Signed) SHRINIWAS PANDIT PRATINIDHI
Chief of Aundh.

LETTER from R. E. CANDY, Esq., Political Agent, Sátára, to the COMMISSIONER, Central Division, POONA, No. 295, dated Sátára, 14th August 1891.

SIR,—I have the honour to submit the accompanying Administration Report,* of the Aundh State for the year 1890-91 with my remarks thereon, and to intimate that 30 copies of the Report have been forwarded to the Secretary to Government, Political Department, direct from here. The Administration Report of the Phaltan State has not as yet been received from the Chief, who has promised to send it to me by the 20th instant.—I have, &c.

* With 2 spare copies.

---

*Remarks on the Administration Report of the Chief of Aundh for the year 1890-91.*

## CHAPTER I.

### POLITICAL.

1. I have been in charge of the political duties of this Agency during the whole of the year under report. I visited the capital town of Aundh in January 1891, and inspected all the public offices and other institutions, such as schools, library, dispensary, &c. I also visited Kinhai and two other villages in the Aundh State.

*Changes in the administration.*

2. Government were pleased to lend the services of Ráo Bahádur Wasudeo Ramachandra Patvardhan to the State, and he joined his appointment as Kárbhári to the Chief of Aundh and official tutor to his son Gangadharrao *alias* Tatya Saheb on the 25th June 1890, and was in charge of the general administration of the State during the whole of the year under report.

3. For the sake of administrative convenience, and apparently in the interest of the State finances, certain changes were made in the head-quarters of the tálukás, and the posts of one Mámlatdár, two Subordinate Judges and one Vakil at Poona were abolished during the year under report It should have been stated what saving was effected to the State by these arrangements.

## CHAPTER II.

### ADMINISTRATION OF LAND.

4. During the year under report no survey operations were in progress in the Aundh State. The settlement work of the villages under the Gundal Táluka will be taken in hand during the current year. As regards the question into how many villages survey rates have been introduced, and how many villages remain yet to be surveyed, I beg to draw the attention of the Commissioner, C. D., to my letter No. 161 of 4th June 1891.

5. The sale of occupancy rights in the Gundal Mahál will, it is hoped, prove beneficial both to the rayats and the State.

6. Having observed that there were no rules for guidance in connection with Inám holdings, I furnished the Kárbhári in September last with a set of rules in force in the Akalkot State for the enquiry and adjudication of the rights of persons holding Ináms, and directed him to modify them so as to suit the condition of the Aundh State, and to get the consent of the Chief to their introduction. The Kárbhári, in accordance with my instructions, modified the rules in question, and submitted them to the Chief for his approval and sanction. No steps, as yet, appear to have been taken by the Chief towards the introduction of these rules, notwithstanding the Kárbhári's assurance of the good results which these rules, when sanctioned and enforced, are likely to bring about.

7. Since the beginning of the current year, the old village forms of accounts have been kept in abeyance, and the forms prescribed in Hope's Manual have been introduced so far as the Táluka and Huzúr accounts are concerned. This new system of account-keeping will give every information that will be required for the purposes of the Administration Reports of future years.

8. Almost all the State treasuries were examined during the year under report by the Kárbhári and the Daftardár, and the necessary steps appear to have been taken to check the errors then detected, and to stop the irregular procedure of incurring expenditure before it is sanctioned by the proper authority.

9. Correspondence is going on between the Survey Department, myself and the Chief regarding some boundary disputes, and it is hoped that they will all be settled within a short period of time.

## CHAPTER III.

### Protection.

10. Considering the population of the State according to the Census of 1881, the proportion of 7 police for the protection of 256 persons appears sufficient.

11. The number of offences reported to the Police increased from 370 to 400, and 323 persons were arrested during the year under report against 110 in the previous year. Of these, 319 persons were sent up for trial, but convictions were only obtained in the case of 193. The total value of property stolen amounts to Rs. 3,196-10-0 against Rs. 2,741-7-6, and that of property recovered amounts to Rs. 647-13-0 against Rs. 391-0-0 in the previous year. The above figures will show that the percentage of the conviction to the arrest is 59·7 against 22 in the previous year, and of the property recovered to the property stolen is 20 against 14 in the preceding year. This result compares favourably with that of the preceding year. The creation of the post of a Police Inspector and the establishment of four Police Nákás at convenient localities will, it is hoped, show better results in years to come.

12. After much difficulty and trouble two of the three murderers in the Kapil murder case were arrested in the Nizám's Territory. Their detection is chiefly due to the exertions and activity of the State Police, who were specially deputed for the purpose. The preliminary enquiry in connection with this case is going on before the First Class Magistrate of Aundh. This case will shortly be committed to my Court for final decision. When the case is tried by me, I shall be able to know what relations, if any, the deceased Antoji Narayan Kulkarni had with the Darbár and the supposed murderers. A separate report to Government on this case will be made in due course.

13. All the offences that were brought to trial were all disposed of during the year, in addition to four cases that remained undisposed of at the close of the previous year, and thus no case remained undisposed of at the close of the year under report. This reflects credit on the Magistrates in the State.

14. The average duration of each case was 5·8 against 3·7 in the preceding year, and the explanation given in paragraph 25 of the Chief's Report, as regards the longer duration of each case, appears satisfactory.

15. During the year under report two criminal appeals, and two applications under the extraordinary jurisdiction vested in me, were presented to me. The two appeals and one of the applications were from Aundh and the other application from Phaltan. In one of the appeals I reversed the order passed by the First Class Magistrate of Aundh, and upheld an appeal by the Chief. The other appeal was dismissed, and as regards the two applications I declined to interfere with the orders passed by the Chiefs.

### *Civil.*

16. The number of suits filed during the year under report is 224 against 239 in the preceding year. The number of suits which remained undisposed of at the end of the previous year was 108. Out of these 332 (224 + 108) suits, 274 were disposed of during the year under report against 255 in the previous year; so the number of suits remaining undisposed of at the close of the year under report is 58 against 108 in the previous year. The hearing of each suit

was on the average spread over 147 days against 322 in the preceding year. This shows that the Subordinate Judges have worked this year more zealously than in the preceding year, and thus reflects credit on them. The total value of property involved in these suits was Rs. 30,899 against Rs. 27,775 in the previous year, and in only 8 cases the claim in each exceeded Rs. 500.

17. In the year 1890, 32 special appeals and 11 applications under the extraordinary jurisdiction were admitted to the file of the Political Agent. Out of the 32 special appeals 22, and out of the 11 applications 7, were heard, and the hearing of the remaining 11 appeals and 4 applications postponed at the request of the pleaders engaged by the parties in the cases.

18. 126 suits were instituted under the Dekkhan Agriculturists' Relief Act against 124 in the previous year. 146 cases valued at Rs. 19,151, including 51 cases which remained undisposed of at the beginning of the year, were disposed of during the year under report against 138 valued at Rs. 15,415 in the previous year. Only 31 against 51 suits remained undisposed of at the close of the year. From the gradual increase in the institution of such suits, it appears that the Dekkhan Relief Act is becoming more popular.

19. *Registration.*—314 documents were registered against 235 in the previous year, and the fee receipts rose from Rs. 525-14-0 to Rs. 608-4-6. No expenditure was incurred on account of registration, as all work connected with this department was done by the revenue establishment in addition to its own duties. The arrangements made by the Kárbhári regarding the safe custody of the registers in which documents are copied are satisfactory.

20. With a view to raise the status of Subordinate Judges and put them above temptation to be corrupt, I had brought to the notice of the Chief the strong advisability of appointing one or two educated persons as Subordinate Judges on salaries ranging from Rs. 75 to 100, which salaries would, it is hoped, secure the services of well qualified persons in place of the present 6 Subordinate Judges who get only 20 or 25 rupees each per mensem. But nothing appears to have been done in this respect by the Chief.

## Chapter V.

### *Revenue and Finances.*

21. A great improvement has been made by the Kárbhári in the classification of accounts according to their nature, and this sytematic way of keeping and rendering accounts will check the confusion which arose from the irregularities formerly in existence.

22. The increase of Rs. 9,522-15-6 in the receipt of land revenue is chiefly due to the sale of occupancy rights. Under the head "Receipts" there appear further an increase of Rs. 79,026-0-7 under what is called other items. This increase is chiefly noticeable on account of the fact that an amount of Rs. 79,026-0-7 was borrowed as a debt in addition to what the State already owed. The total amount of the State's debts amounts to Rs. 1,33,057-13-0. Regarding a part of this sum (Rs. 33,057-13-0) repayment is not urgent. Some portion of it is also without interest; but it should have been stated what that portion is, and at what rate of interest the remaining amount of the debt is charged.

23. The measures taken by the Chief to clear off the debts of the petty sávkárs, by borrowing one lac of rupees from a sáhukár at Yeola, are wise, and if the Chief takes proper care to repay the debt punctually by fixed instalments after curtailing his private expenses as proposed by the Kárbhári, the whole debt may be liquidated within a period of 10 years.

24. The chief sources of saving are from the Khásgi and Pága expenses. It is to be observed that the total amount of saving in these two branches comes to nearly Rs. 17,000, and this saving has been effected with as little inconvenience as possible to the Chief and his family.

25. As regards the question of Inám Wadháva, I beg to draw the attention of Government to my letter No. 257 of 29th July 1891.

## CHAPTER VI.

*Vital Statistics and Medical Service.*

26. The total attendance at the dispensaries of Aundh and Atpadi was slightly less than that in the previous year, being 7,592 against 7,630 in the previous year. The number of deaths of patients under treatment in both the dispensaries is 9 against 183 in the preceding year. This should have been explained.

27. It is satisfactory to note that there is an increase in the number of births and decrease in that of deaths. Proper measures are taken by the State officers to ensure accurate record of births and deaths.

28. There is a falling off in the number of vaccinations, *viz.*, 2,172 against 2,406 in the previous year. This appears due to insufficient supervision over the work of the vaccinators. Steps, however, have been taken against the vaccinator who was found negligent in his duties.

## CHAPTER VII.

*Instruction.*

29. There is a slight increase in the number of boys under instruction, *viz.*, 962 against 943, though the number of schools was reduced to 27 from 30.

30. The Deputy Educational Inspector of Sátára having brought to my notice that there are no trained men employed in the schools situated in the State, I requested the Chief to take such steps as will ensure the employment of trained men.

## CHAPTER VIII.

*Miscellaneous.*

31. The steps taken for sorting record papers and for their safe custody are quite satisfactory.

32. I cannot, of course, conclude my remarks without a due tribute of praise to Mr. Patvardhan, though the Chief has, I regret to find, said nothing about the valuable services rendered by him to the State. Ráo Bahádur Patvardhan, since his appointment as Kárbhári, has done excellent work in the State and introduced various reforms in the different branches of the administration, which are likely to prove beneficial to the State and its subjects. His efforts for evolving some order out of the financial chaos which prevailed last year are most praiseworthy and have resulted in placing affairs on a more satisfactory footing. Mr. Patvardhan always consulted me in all important and intricate matters and worked in perfect harmony. All the improvements that are to be noticed above are due to Mr. Patvardhan, for which he deserves to be thanked by the Chief. I much regret that the Political Agent will not have his valuable co-operation during the current year.

R. E. CANDY,
Political Agent.

R. E. CANDY,
Political Agen

*Sátára, 14th August 1891.*

No. $\frac{\text{Pol}}{147}$ OF 1891.

POLITICAL DEPARTMENT.

*Poona, 17th September 1891.*

Submitted to Government.

2. The only important change made in the administration of the State, with a view to improve its general condition, during the year under report, was the appointment of Ráo Sáheb Wasudeo Ramchandra Patvardhan, a Mámlatdár in this Division, as Kárbhári to the Chief and official tutor to his son, Gangadharrao *alias* Tatyasaheb. The other changes, which were made either for the sake of administrative convenience or from an economical point of view, were the following:—

Para. 5, Chapter I, of the Chief's Report. (1). The transfer of the head-quarters of the Kapil Kundal Thána from Karád to Kundal;

(2). The abolition of the post of Mámlatdár at Aundh, and the consequent transfer of the villages under him, except Aundh, to the Kundal Thána; Para. 5 Chapter, I, and para. 4, Chapter III.

Para. 5, Chapter I, and para. 38, Chapter III. (3). Ditto of the Civil Courts at Kinai and Kundal, their work being transferred to the Courts at Aundh and Kapil;

(4). Ditto of the post of a Vakil at Poona;

Para. 18, Chapter III. (5). Ditto of the Court of Subordinate Magistrate, 3rd Class, at Aundh; and

Para. 5, Chapter I. (6). The creation of the post of an Inspector of Police.

As remarked by the Political Agent, it should have been stated what saving, if any, was effected to the State by the abolition of the posts mentioned above. The pay of the newly appointed Inspector of Police is only Rs. 25 per mensem (*vide* Appendix VI). This is a ridiculously low rate of pay for an Inspector of Police, and it is very doubtful whether such an officer is necessary to supervise the work of 51 subordinates. A reference to the appendix mentioned above will show that all the Police are under-paid, and that the whole Department requires revision. What reliance can be placed on constables on a monthly salary of Rs. 4, 4½ and 5? The State would be just as well off with none at all. The Chief should be induced to employ a Police Force paid at the rates which the Government Police receive, and he might be allowed to have fewer men if he pleases, but they should be well paid. The lowest grades of chief constable, head constable and constable in the Sátára District are Rs. 50, 12 and 7 respectively. Para 3 of the Political Agent's remarks.

3. Letter No. 161, dated 4th June 1891, referred to by Mr. Candy in paragraph 4 of his remarks, does not seem to have been received in this office. His attention will be called to this fact.

4. It is satisfactory to note that the Chief has begun to see that the system of leasing lands on Pattás or Kauls for short periods, is detrimental to the interests of the State, and has sold, at fixed prices, the occupancy rights of some lands so leased in the Gunadal Thána to the rayats holding them. The arrangement will, no doubt, prove beneficial to both the rayats and the State. Para. 2 and 3, Chapter II, of the Chief's Report, and para. 5 of the Political Agent's remarks.

5. The Chief remarks, in connection with the introduction of the rules relating to Ináms referred to by the Political Agent in paragraph 6 of his remarks, that the subject is under earnest consideration. It is hoped that he will pay due attention to the suggestion made by the Political Agent in the course of this year. Para. 4, Chapter II.

6. The percentages of culturable land lying waste, given at the foot of the table embodied in paragraph 4 of the Report, are evidently misleading. The amount of waste land in 1890-91 is admittedly less by 15 acres and 30 gunthás than that in 1889-90; and yet the percentage for the former year is shown as 99·1 and for the latter year as 98·1. This percentage is deduced by comparing the quantity of culturable land lying waste with the total culturable area, and not by comparing the quantity of waste land in one year with that in another year, as the Chief has apparently done.

Paras. 7 and 8, Chapter II, of the Chief's Report, as well as of the Political Agent's remarks.

7. The Commissioner notices with pleasure that an improved system of accounts has been introduced into the State, and that all the State Treasuries were examined during the year by the Kárbhári and the Daftardár.

Paras. 8, 9 and 10, Chapter III, of the Chief's Report and para. 11 of the Political Agent's remarks.

8. The result of the working of the Police during the year was more satisfactory than during the preceding year, but there is still much room for improvement. The percentage of convictions to arrests was 59·7 against 22, and that of property recovered to property stolen was 20 against 14 in the previous year.

Para. 12, Chapter III, of the Chief's Report, and also of the Political Agent's remarks.

9. The Kapil murder case, regarding which Mr. Candy promises to make a separate report after it has been disposed of, is that in which there was a serious collapse of justice which Government noticed with displeasure last year, *vide* paragraph 6 of Government Resolution No. 7828, dated the 15th of December 1890, Political Department.

Paras. 24 and 28 of the Chief's Report, para. 13 of the Political Agent's remarks, and Appendix IX.

10. Criminal justice seems to have been administered during the year with greater care than during the preceding year. The delay in the procuring of witnesses from British Territory should have been noticed by the Political Agent.

11. There is a disagreement between Appendices IX and X in respect of the number of offences committed or reported during the year. The former shows 321 offences (column 4), and the latter 324 (column 2). The discrepancy ought to have been explained. Further, it is not clear to what Court the four persons entered in column 15 of Appendix X as "committed or referred" were sent for trial.

12. The Commissioner finds that Appendix No. IX has not been carefully prepared. The entries in it have not been numbered. Full particulars as to the number of persons accused, and how they were dealt with in the following cases which the statement shows were disposed of during the year, have not been given.

(1) Dacoity, Section 395;

(2) Mischief to water for agricultural purposes, Section 430;

(3) Enticing a married woman, Section 498.

and (4) Defamation, Section 500.

13. The information given by Mr. Candy relating to the disposal of an application from Phaltan in paragraph 15 of his remarks on the Administration Report of the Aundh State under review is out of place.

14. The number of suits disposed of and the average duration of each of them show that the Subordinate Judges worked during the year, as remarked by the Political Agent, more zealously than during the preceding year, but the result of appeal from their decisions is not in their favour. Their decisions in 13 out of 33 cases were upset. The salary which each of these officers gets is far too small, considering the responsible nature of their duties; and it is very desirable that they should be sufficiently re-

Paras. 42 and 44, Chapter III, of the Chief's Report, and para. 16 of the Political Agent's remarks.

munerated. The suggestion made by the Political Agent in this respect, *vide* paragraph 20 of his remarks, is in the right direction; but it does not go far enough. It may be noticed here that the Chief admits the necessity for increasing the pay of Mámlatdárs and others, and proposes to do it gradually.

Para. 24, Chapter V, of the Chief's Report.

15. In connection with the remarks made by the Political Agent on the result of the working of the Deccan Agriculturists' Relief Act, *vide* paragraph 18 of his remarks, it may be noticed, from the table given in paragraph 54 of the Chief's Report, that the number of sale deeds registered during the year increased by over 50 per cent., the total number being 140 against 93 in the preceding year. It is not clear how many of these documents were executed by Agriculturists, but the Chief attributes the increase to the fact of the Sáhukár's confidence in Agriculturists having been shaken.

Paras. 45, 46 and 47, Chapter III, of the Chief's Report.

Para. 57, Chapter III, of the Chief's Report.

16. It is satisfactory to note that a municipality was established at Atpádi during the year, and that the Chief is going to establish one at Kundal this year.

17. The Political Agent has not made any remarks on the season and rainfall. From the information given by the Chief in paragraphs 3 and 5, Chapter IV of his Report, it seems that the rainfall was scanty and unseasonable only in two of the Thánas, Atpadi and Gundal, where crops failed more or less. The rabi harvest was better than the kharíf, and the prices of the staple food-grains of all sorts fell a little.

18. The treasury receipts in cash during the year, including the opening balance, amounted to Rs. 2,89,121-8-1, and the expenditure in cash to Rs. 2,56,096-10-6. The balance in hand at the close of the year was Rs. 33,024-13-7 against Rs. 15,633-4-0 in the preceding year. The arrears of land revenue outstanding amounted to Rs. 24,508, and the advances recoverable, exclusive of those to be simply adjusted on receipt of formal bills, to Rs. 31,000.* Thus the closing balance, the arrears of revenue outstanding and the advances recoverable amounted together to Rs. 88,532.

Appendix XVII A.

Para. 39, Chapter V, of the Chief's Report.

*This sum is, in fact, an investment for current expenses, *vide* para. 37, cl. 3.

19. The liabilities of the State at the close of the year amounted to Rs. 1,44,248 as detailed below:—

| Paras. | | Rs. |
|---|---|---|
| 37. | (1) Debts ... ... ... ... | 1,33,057 |
| 25. | (2) Cash remuneration to Hakdárs ... ... | 5,899 |
| 32. | (3) Devasthán and Dharmáday ... ... ... | 1,550 |
| 33. | (4) Cash allowances to Saranjámdárs and Hakdárs ... | 3,504 |
| 36. | (5) Pensions and Potgi ... ... ... | 238 |
| | Total ... | 1,44,248 |

20. The particulars given in the two preceding paragraphs show the embarrassed condition of the finances of the State, but the Commissioner is glad to observe that, with the assistance of his new kárbhári, the Chief has managed his affairs during the year with due attention to economy. He has curtailed the expenditure under the heads "Khásgi" (private) and "Pága" (stable) considerably. He has made some reductions in the "Shibandi force" and garden establishment. The savings effected by the reductions and by the resumptions of some Ináms, amount together to Rs. 19,037, the details of which are given below:—

| Paras. | | Rs. |
|---|---|---|
| 21. | Khásgi ... ... ... ... ... | 10,474 |
| 22. | Pága ... ... ... ... ... | 6,979 |
| 26. | Resumptions of Ináms ... ... ... | 676 |
| 29. | Shibandi Force ... ... ... ... | 753 |
| 34. | Garden Establishment ... ... ... | 155 |
| | Total ... | 19,037 |

21. Of the debts, amounting to Rs. 1,33,057, rupees one lac represent a loan newly taken from a sáhukár at Yeola, at 5½ per cent. interest per annum, in

order to clear off debts due to petty sáhukárs and to provide funds for current expenses. The remaining sum of Rs. 33,057 is stated to be a debt the repayment of which is not urgent, and on a portion of which no interest is charged.

Para. 6, Chapter VIII, of the Chief's Report.

The Chief estimates that, under the present arrangement, there will be a surplus balance of Rs. 16,000 every year, and that he will be able to repay the debt by an annual instalment of at least Rs. 10,000. If the Chief takes care that his private expenses are not unnecessarily increased, and that instalments due to sáhukárs are punctually paid, he will, no doubt, be able to liquidate the whole debt within a period of ten years, as remarked by the Political Agent.

Para. 25 of the Political Agent's remarks.

22. Mr. Candy's reference on the question of Inám Wadhawa will shortly be submitted to Government for orders.

23. The sums expended on Public Works from State and Local Funds during the year were respectively Rs. 11,289 and Rs. 3,795. Out of the former, Rs. 9,634 were spent on a new building at Poona, which is to be let for hire. This sum was paid out of the loan of one lac of rupees raised during the year. Considering the embarrassed condition of the finances of the State, this expenditure ought not to have been incurred at all, and it is quite misleading to call it an outlay on Public Works, as it is absolutely a private matter, and the people in his State are in no way benefited by it.

Para. 10, Chapter IV, of the Chief's Report.

Para. 11 of ditto.

24. The Commissioner has nothing to add to the remarks made by the Political Agent on vital statistics and medical service, except that it is doubtful whether *proper* measures are taken to ensure accuracy in the registration of vital statistics, although it is clear that the subject receives attention.

Paras. 26, 27 and 28 of the remarks.

25. The abolition of 3 schools is stated to be due to paucity of students. It is hoped the Chief will adopt the suggestion made by the Political Agent, relating to the employment of trained men in the schools.

Para. 1, Chapter VII, of the Chief's Report.

26. It will be seen from the particulars given in paragraph 9, Chapter VIII of the Administration Report, that the population of the State has increased by 10·1 per cent. during the past ten years.

27. Ráo Bahádur Wasudev Ramchandra Patvardhan deserves the commendation bestowed on him by Mr. Candy for the good work he has done, and it is to be regretted very much that the State will shortly lose his valuable services.

FROM

R. E. CANDY, ESQUIRE,
Political Agent, Sátára;

TO

THE COMMISSIONER, C. D.,
Poona.

*Sátára, 3rd October 1891.*

SIR,

With reference to the concluding portion of paragraph 12 of my remarks on the Administration Report of the Aundh State for the year 1890-91, I have the honour to report as follows:—

2. On the 15th of October 1889 Antaji Narayan Kulkarni of Kápil in the Aundh State was murdered by three persons on account of a long-standing enmity about certain lands. The three persons accused of the murder absconded directly after the murder. In the month of May 1890 six persons, relatives of the three real offenders, were tried by me on a charge of abetting the commission of the murder of Antaji. The charge not having been proved, the six accused persons were acquitted and steps were ordered to be taken to trace and arrest the real offenders. About the month of March 1891 a trace was found and two of the three accused were arrested in the village of Sávargaon in the Nizám's dominions by the State Police of Aundh, and after much delay and correspondence were handed over by the Nizám's Government in the month of July 1891 to the Aundh State for trial. The necessary preliminary enquiries having been made, the case was committed to the Court of the Political Agent, Sátára, for final decision.

3. After a long trial in which the two accused were defended by pleaders, I, concurring with the assessors who sat with me to hear the case, found the offence came under the latter part of Section 304, Indian Penal Code, and directed that each of the accused persons should suffer rigorous imprisonment for a period of five years.

4. The third accused is still at large and it is improbable he will be caught. He will, however, remain an out-caste from his home.

I have the honour to be,
Sir,
Your most obedient Servant,
R. E. CANDY,
Political Agent.

# ADMINISTRATION REPORT OF THE AUNDH STATE.

## For the year 1300 Fasli ending 5th June 1891.

From,

THE PANT PRATINIDHI,

The Chief of Aundh.

To,

THE COLLECTOR AND POLITICAL AGENT,

Sir, SATARA.

I have the honour to submit the Annual Administration Report of the Aundh State for the year 1300 Fasli ending 5th June 1891.

APPENDICES—I, II, III, IV, VI, VII, VIII, IX, X, XI, XII, XIII, XIV, XV, XVI, and XVII, A. & B.

The usual statements as per margin accompany. The appendix V concerning Military force has not been appended as there is none entertained in the State.

### CHAPTER I.

### *Political.*

1 The state of Aundh has been in subsidiary alliance with the British Government and the Bombay Government excrcises Political Control over it. The state has been paying no tribute to the Paramount power.

2 On the 7th of June 1890 I had the pleasure of an interview at Satara with His Excellency the Right Honourable George Robert Canning Baron Harris G. C. I. E. Governor of Bombay. The interview was a pleasant one. I had also the pleasure of visiting the next day at Satara the Honourable J. G. Moore.

3 Several visits were exchanged during the course of the year with the Political Agent, R. E. Candy Esquire. In the month of January last he paid a visit to Aundh when he was pleased to inspect the several local offices and other institutions, and suggested certain reforms which were considered and carried out. He also visited Kinai and three other Thanas of the state.

### CHANGES IN THE ADMINISTRATION.

4 Government were pleased to lend the services of Rao Bahadur W. R. Patawardhan to serve as Karbhari under me and also as an official Tutor to my son Gangadhar Rao alias Tatya saheb. He joined his duties on the 26th of June 1890. One of my Sarsubhedars viz:—Shri Baba Maharaj has been

on leave since the Month of March last and I have arranged to carry on his duties without extra charge to the State.

5 For the sake of administrative convenience the Head Quarters of the Kapil-Kundal Thana have been transferred to Kundal. The Post of the Mamletdar of Aundh has been abolished and the villages under him except Aundh have been transferred to the Kundal Thana. The courts at Kinai and Kundal have also been abolished as being superfluous and their work has been entrusted to the courts at Aundh and Kapil. There being no sufficient work for a Vakil at Poona his place thas been abolished.

6 There being no separate officer in charge of the Police Department an Inspector of Police has been lately appointed.

## CHAPTER II.

## *Administration of the Land.*

1 During the year under review the Revenue Survey-Settlement was neither in progress nor was it extended to any of the villages in the State. The measuring operations of the 16 villages in the Gunadal Thana which were undertaken last year by the Revenue Survey-Department have been completed. The Settlement work of that Thana will be commenced during the current year, and the Survey Department has been requested to undertake Survey operations in the Kapil-Kundal Thana at their earliest convenience. Aundh itself remains to be Surveyed and Kinai is to be re-surveyed. Kinai was originally surveyed before the year 1865 when it was transferred by the British Government to the State from Koregaon Taluka.

2 Excluding the Thana of Atpadi and Kinai, to which the Survey-Settlement has been extended, lands are generally leased on Pattas or Kowls for a certain limited period which does not usually exceed 10 years. In the Thana of Gunadal there were some lands the occupancy rights in which belonged to the State. These lands were leased out for cultivation periodically. The consequence of such a procedure was that lands were not properly taken care of, and no improvements were effected therein. There were neither wells nor trees on them. In some cases, owing to the apathy of the cultivator,the fields were even allowed to be overgrown with noxious weeds. This state of things attracted my notice and on enquiry it was found that the lessees were not careful enough as they had no inherent permanent interest in the soil.

3 With a view to better the condition of the land and to create in the Ryot a personal interest in the improvement of the soil, I considered it necessary to part with the occupancy right vested in the State. I therefore deputed my son Gangadharrao alias Tataya saheb to visit the villages in question and to submit a report on the subject. The Karbhari was also directed to accompany my son. They jointly submitted proposals which were found to have been made with care and discretion. consequently they were sanction-

ed by me. The value of the occupancy right was fixed generally under double the amount of annual rent on the land. This measure is expected to realise Rs. 29618-8-6. and the long felt grievence of Royts will be finally remedied. Owing to partial failure of crops in those villages during the year under review I directed that the above sum should be recovered by 3 instalments. Viz. Rs. 6371-14-6 in 1300 Fasli, Rs. 14130-1-9 in 1301 and Rs. 9116-8-3 in 1302 Fasli. It will thus be seen that the demand will not in the least press much upon the Ryots. The sale of occupancy right by public auction instead of by a fixed upset price might have been beneficial to the State, but as such a course might have worked harshly on the poor lessees, it was not adopted. The Ryots have now been placed in the position of a holder as defined by the Land Record Code. I cannot conclude this subject without mentioning that the entire scheme has the approval of the Political Agent whose advice from time to time was beneficial to me.

4 There are no Special tenures in the State. No Settlement of Inams was made during the year under review. The Political Agent has kindly sent me a set of rules adodpted by the Akalkote State as a specimen and the subject is under earnest consideration. The waste land taken up for cultivation during the year under review amounts to acres 15–30. The details will be seen from the Subjoined table. The figures entered in the table have been roughly calculated as the Survey operations in the State have not been completed as yet.

| | | |
|---|---|---|
| 1803—2 | 1890—91 | Extent of Calturable area for. |
| 1837—27 | 1889—90 | |
| 15—30 | 1890—91 | Taken up in. |
| 34—25 | 1889—90 | |
| 1787—12 | 1890—91 | Waste remaining at the end of the year. |
| 1803—2 | 1889—90 | |
| 99—1 | 1890—91 | Percentage of culturable land lying waste in. |
| 98—1 | 1889—90 | |

In the previous year the quantity of waste land in the State was not correctly known. The acrage is now ascertained and it is found to be 1837 A.

27 G. This has now been entered in the return and it now agrees with the Taleband of the year. This waste land is exclusive of the gayaran or waste reserved for pasture. Much of this land lies in the Thanas of Atpadi and Gunadal and is not very fertile.

5. Owing to the bad season in the Thanas of Atpadi and Gunadal the land Revenue had to be partially collected with the help of legal measures. There were a few cases of distraint but no occupancy rights were sold during the year under review. Proposals for postponement of collection were recommended and I sanctioned them to help the Ryots as far as possible.

6 Since the beginning of the current year the village forms according to the new system of accounts have been introdued and much useful information will be available for the purposes of the administration report for the current year.

7. The Revenue accounts according to Mr. Blain's forms were kept till December last. These have now been substituted by the forms prescribed in the Hope's Manual, which have now been introduced from the month of December last so far as the Huzur and Taluka accounts were concerned. The village forms could not at the same time be introduced as the Jamabandi papers were already prepared and the village accountants required time to study the village forms prescribed in the Manual. Steps have been taken to initiate the village accountants into the working of the forms so that they may prepare their accounts according to the new forms from the commencement of the Fasli year 1301. I am glad to note that the introduction of the new system of accounts has worked well and ~~fulfils~~ fulfills the object for which it was introduced.

8 The accounts of the Huzur Treasury and those of the Sub-Treasuries have been examined by the Dafterdar and the Karbhari. On the report of the Karbhari it was found that in some instances expenditure was incurred before it was sanctioned and it was debited in the accounts under the head "Advances recoverable." That the advances were not always adjusted during the course of the year. And the adjustments made in subsequent years swelled the figures on the expenditure side under some of the heads although the expenditure was not incurred during the year. In some instances it was noted that expenditure was unauthorizedly incurred and in some cases it was found difficult to recover the advances as the parties concerned had left the State, or even died. To remedy this evil and to have an effective Check on the expenditure, 'audit system' has been introduced which is working very smoothly.

In order to prevent any inconvenience, however, to officers who have actually to incur expenditure, permanent advances have been sanctioned to be adjusted at the close of the year. The Karbhari, my son Gangadharrao, and the Huzur Dafterdar, inspected all the accounts at the several Sub-

treasuries and have taken prompt steps to correct errors and irregularities at places where they existed and circular orders have been issued for their non-repetition. The Jamabandi of all the six Thanas in the State has been made by the Karbhari and the Sirsubhedars. The accounts have thus been sufficiently scrutinized and checked.

9 There are five boundary disputes still awaiting disposal. It is expected that they will be disposed of during the current year. The dispute about the boundary of the State Kuran at Bhud was decided in the Collector's appellate court at Satara in favour of the State regarding 86 acres of gairan land which is the property of the State.

10 No estates belonging to Wards were under the management of the State during the year under review.

## CHAPTER III.

## *Protection.*

(*a*) *Legislation.*—

The following Acts and Regulations were into operation in the State as far as practicable.

### INDIA ACTS.

Act No. XLV of 1860—Act No. V of 1861—Act No. XX of 1864 Act No. XV of 1869—Act No. VII of 1870—Act No. XI of 1871 Act No. I of 1872—Act No. IX of 1872—Act No. X of 1873 Act No. I of 1877—Act No. III of 1877—Act No. X of 1877 Act No. XV of 1877—Act No. I of 1878—Act No. XI of 1879 Act No. X of 1882 and Act No. XII of 1882.

### BOMBAY ACTS AND REGULATIONS.

Regulation II of 1827—Regulation VIII of 1827—Act No. VII of 1867—Act No. VIII of 1867—Act No. I of 1871—Act No. III of 1874 Act No. III of 1876—Act No. V of 1878—Act No. V of 1879—Act No. XVII of 1879—Act No. I of 1882—Act No. IV of 1882 and Act No. VIII of 1866.

2. The Land Revenue Code (Bombay Act No. V of 1879) has been formally extended to the Thana of Gunadal during the year under report The Mamlatdárs' Courts' Act has been made applicable subject to a reservation that the decisions passed by the Mamlatdars would be liable to be appealed against. This provision was made with a view to have an effectual check upon the working of the act and to avoid a failure of justice in any case.

(*b*) *Military.*—

3 There is no Military force entertained in the State.

(c) *Police.*

4 Exclusive of the Ramoshi Rakhwaldars maintained in most of the villages in the State, the number of the stipendiary Police is 52 or one more than in the preceding year. There are however 179 more men to assist the Police. They are called Shetsandis and have got Inam-lands for the performance of their services and are similar to Gadkaris in character. The services of some of them are not now required as the Head Quarters of the Thana of Kapil-Kundal has been removed from Karad to Kundal as stated above. The work of commuting their services has been lately begun but the services of some of them will still be required by the State. Besides these, there are Ramoshi Rakhwaldars in all the villages in the State except the Thana of Gunadal. They have also Inam lands and are found to be very useful for watching and protecting the property of my subjects.

5. The proportion of the stipendiary Police together with the Sandis to the population of the State according to the census of 1881 is 1 to 256 persons.

6. The total number of the departmental punishments was four against 8 in the preceding year as is shown in appendix VI.

7. Out of the total number of the stipendiary Police 13 persons or 25 percent were able to read and write.

8. The total number of offences of which the Police received information was 400 against 370 in the preceding year. The number of serious offences is however less *i. e.* 12 against 20 in the previous year. The total number of the arrests made by the Police in connection with the offences mentioned above was 323 against 110 in the previous year. Out of the total number of arrests 319 persons were sent up for trial. The subjoined table will show their disposal.

| | |
|---|---|
| Convicted. ..... | 193 |
| Acquitted..... | 34 |
| Discharged..... | 74 |
| Released as the offences were compounded..... | 17 |
| Remained under trial at the close of the year..... | 1 |
| Total... | 319 |

9. The above figures will show that the percentage of the conviction to the arrests is 59.7 against 22 in the previous year. This result compares favourably with that of the previous year and is chiefly due to the stringent orders issued on the subject.

10 During the year under review the value of the property stolen amounts to Rs. 3196-10 against 2741-7-6 and that of the property recovered amounts to Rs 647-13 against 391-11 in the previous year. The percentage of the property

recovered to the property stolen is 20 against 14 in the preceding year. This percentage is comparatively favourable. The small percentage is noticed in the Atpadi and Gunadal Thanas. The chief constables of those Thanas have therefore been reduced and severely warned. Now that a Police Inspector has been appointed and it is hoped that he will exert himself to the utmost to give a better tone to the Police Administration.

11. It was noticed by me that it becomes sometimes difficult for the chief constable to receive timely information of the offences committed at a distance from the Head Quarters of the Thana, and Police inquiry is to some extent delayed. To remedy this evil the establishment of 4 Police Nakas at convenient localities has been sanctioned. These Nakas or out posts are at each of the following four important villages viz.—Saidapur, Dighanchi, Karagani, and Kotyal. The duties of the Police officers at these Nakas have been defined and rules have been framed to supervise their work on the basis of the rules in force in British Territory.

12. I feel glad to state that two of the three murderers in the Kapil murder case have been very cleverly traced out and arrested in the Nizam's territory by the State Police officers specially entrusted with that duty. The third murderer bolted away at the time of arrest in the Nizam's territory for want of sufficient co-operation on the part of the Police Patil and villagers of the village Sawargaon in Dharasheo Thana. Their conduct has been brought to the notice of the officers concerned. The two arrested murderers were not surrendered by the Nizam's Government up to the close of the year although the arrests were made at the end of November last. The Political Agent was kind enough to press repeatedly the question of their surrender by the Nizam's Government and it is expected that the two prisoners will soon be placed on their trial. The deceased Antaji Narayan for whose murder the said persons have been accused had no relations at all with the Darbar. He was a watandar Kulkarni of the village of Kapil. The cause of his murder is not authentically known but from information obtained it seems that Antaji had taken up for cultivation from the State certain fields which belonged to the accused previously. He effected improvements in them, converted the land into a valuable and paying estate. This state of things naturally gave the accused a desire to get the fields back to them. The deceased for obvious reasons declined the proposal and his murder is alleged to be the consequence. The culprits afterwards sought shelter in the Nizam's Territory. Special Police was appointed to trace out the culprits but as the murderers had gone into the Nizam's territory, the work was not easily done. The relations and friends of Antaji were then led to cast several aspersions against the Police and other State officials. I however feel sure that the Political Agent will agree with me in thinking that the aspersions made by Antaji's relations and friends were utterly groundless and purely imaginary. All possible steps were taken by the State for the apprehension of the culprits and also for the attachment and confiscation of their property.

13. The expenditure incurred on account of the Police Department is Rs. 10169-3-11 as shown below :—

| | |
|---|---|
| Stipendiary Police..... ..... | Rs. 3637—4—0 |
| Shet Sanadi..... ..... | ,, 5208—8—5 |
| Village Rakhawaldars..... | ,, 1323—7—6 |
| Total Rs..... | 10169—3—11 |

The expenditure of the previous year amounted to Rs. 9976-11, or Rs. 192-8-11 less than in the year under review. This increase in the expenditure in the year under review is chiefly due to the fact of the revision of pay of constables.

14. Besides the Police force mentioned above, there is a Shibandi force the total strength of which now amounts to 64 men. In the preceding year the number was 78. The reduction in this force was effected as their services were not found to be of any material use. The expenditure under this head was therefore reduced in the year under review by Rs. 945-10-0. The total expenditure incurred being Rs. 7231-0-3 against Rs. 8176-10-3 in the previous year. Out of the 64 Persons 47 are armed footmen and 17 are sawars. These men assist the Police and perform, in addition, the guard and escort duties.

15. The total number of the Police Patils is 72 *i. e.* one for every village in the State. None of them has been invested with the special powers under sections 14 and 15 of act No VIII of 1867. The work done by them is generally fair.

16. Accidental ~~6~~ 16 deaths occurred during the year under review as compared with 22 in the preceding year. The details thereof are as follows :—

| | |
|---|---|
| By snake bite..... | 3 |
| By drowning ..... | 11 |
| By fire ..... | 1 |
| By falling down from a tree ..... | 1 |
| Total..... | 16 |

(*d*) *Criminal justice.*

17 The courts which the subject of criminal justice were as shown below :—

| 1 | The Huzur Criminal Court of the Pant Pratinidhi. |
| 3 | First class Magistrate's Courts. |

18 The Court of the Subordinate Magistrate of the third class at

Aundh was abolished as the Thana of Aundh was abolished and the work has been distributed amongst other magistrates.

19 The Karbhari Magistrate of the First Class was invested with the powers to examine the record of the courts of all the Subordinate Magistrates and he has accordingly inspected and examined their record and brought to my notice the several irregularities in the procedure and consequently measures were taken to rectify them.

20 The total number of the offences brought to trial before the Courts mentioned above amounts to 321 against 286 showing an increase of 35. The number of serious offences, however, is smaller than that in the previous year. There has been no case of murder or of culpable homicide or of dacoity in the year under review.

21 The total number of offences disposed of during the year is 325 including the four cases that remained undisposed of at the close of the previous year. No case remained pending trial at the end of the year.

22 During the year under review there was only one case of grievous hurt as in the preceding year. There were 3 offences of robbery as in the last year. The number of thefts has increased from 21 to 38 but the number of thieves did not increase in that proportion, their number being 56 against 45 in the preceding year. There was one case of arson as in the preceding year. The number of cases of house-breaking has, however, slightly increased from 3 to 4. There was one case under the opium act. The offender in that case sold about $\frac{1}{4}$ of a Tola without a license and was convicted and sentenced. There were 2 cases of rape in the year under review, in one of them conviction was obtained and in the other the accused persons were discharged for want of sufficient evidence.

23 The total number of the accused persons involved in 325 cases is 701 against 577 in the previous year. The disposal of these cases is as shown below :—

| | |
|---|---|
| convicted ... ... ... ... | ...323 |
| Acquitted ... ... ... ... | ... 87 |
| Discharged ... ... ... ... | ...180 |
| Released as the offences were compounded ... ... | ... 28 |
| Discharged on account of the absence of the complainants... | 29 |
| Total | 701 |

24 The number of the accused persons in compoundable offences together with those who were discharged in consequence of the absence of complainants amounted to 111. Deducting these the number of accused persons actually brought to trial during the year under review was 590. The percentage of convictions to the number of accused persons actually tried comes up to 54·7 as contrasted with 39 in the preceding year.

25 The average duration of each case in the courts of the Magistrates was 5.8 days against 3.7 in the preceding year. The longer duration is mainly due to the fact that some of the witnesses in 3 cases had to be summoned from British Territory and in one of them an important witness had at last to be examined by a commission which took nearly 8 months. In the remaining two cases the presence of some of the witnesses concerned could not be enforced for nearly 4 months in each case and this fact much affected the figure of the duration of trial.

26 The total number of the sentences of imprisonment passed on culprits was 58 against 38 in the previous year. The details of which are as follows :—

| | |
|---|---|
| Not exceeding one month ... ... ... ... ... ... | 37 |
| Above one month and not exceeding two months ... ... | 5 |
| Above two months and not exceeding six months ... ... | 5 |
| Above six months and not exceeding one year ... ... ... | 7 |
| Exceeding one year but not exceeding two years ... ... | 2 |
| Exceeding two years but not exceeding three years ... ... | 2 |
| Total | 58 |

27 The sentence of fine was inflicted on 265 offenders. On a scrutiny of these offences it was found that the offences for which the offenders were sentenced to pay fine were petty offences except two for which it would have been better to pass a sentence of imprisonment. The officers concerned have been therefore severely warned. The total amount of fines during the year under review is Rs. 1477 against 1101 in the previous year. This increase is mainly due to the increase in the number of offenders.

## *Appeals.*

28. During the year under review the Huzur Appellate Court dealt with 14 appeals against 9 in the previous year. Of these 12 were filed during the year and two were pending disposal at the beginning of the year. All the 14 appeals were disposed of as follows :—

| | |
|---|---|
| Sentences confirmed. ... ... ... ... ... ... | 6 |
| Sentences altered ... ... ... ... ... ... ... | 7 |
| Remanded for further inquiry ... ... ... ... ... | 1 |
| Total | 14 |

## *Revision.*

29 As a Court of Revision the Huzur Criminal Court quashed in one case the conviction and sentence passed by the Huzur First Class Magistrate. In another case the conviction was upheld but the sentence passed was altered and in the third, a further inquiry was directed by a Subordinate Magistrate.

( *e* ) *Extradition.*

30 During the year under review a demand was made by the Political Agent of Satara for the surrender of 18 accused persons showing a *prima facie* case against them. They were therefore surrendered. Similarly a demand was made by the State for the surrender of 5 accused persons out of whom 4 were surrendered to the State and the 5th was not surrendered as in the opinion of the Political Agent there was no *prima facie* case made out against him. There has been no want of reciprocity in the extradition of offenders on the part of neighbouring States or British territory.

( *f* ) *Prisons.*

31. The Jail at Aundh is called Huzur Jail. It is divided into three large cells for male prisoners and one small cell for female prisoners. There is besides a large veranda for cooking purposes. During the year under review an additional window was set up to each of the three rooms to admit of sufficient light and free ventilation. A chunam drain was laid up inside the jail to clear off dirty water from the cooking place into the outter gutter. It is white-washed and kept clean. The jail affords a sufficient accommodation for the jail population.

32. The Hospital assistant of the Aundh dispensary has been appointed Superintendent of the jail and the Karbhari and Sursubhedar visit it periodically. The Hospital assistant as medical officer looks after the health of the prisoners.

33. The suggestion made by the Political Agent at the time of his annual tour to the effect that a wooden ticket, showing the number in the Register, crime,term of sentence, date of admission and date of release, should-be constantly worn by each prisoner attached to the coat on the left breast, or in the case of females to the right sleeve, was at once carried out.

34. The long-term prisoners are confined in the Huzur jail at Aundh. The short term prisoners are kept in the Thanas.

35. During the year under review the number of the convicts and the under-trial prisoners admitted, was 72. These, together with the 11 that remained in the jail at the end of the preceding year, make up a total of 83 as compaired with 88 in the previous year. At the end of the year under review 13 prisoners remained in confinement. The average duration in the jail of each under-trial prisoner is 5 days.

36. No one died in the prison during the year under review. The health of the prisoners was generally good. There was no complaint against the conduct of the convicts.

37. The expenditure incurred on account of the jail Department is Rs. 1,430-13-3 against Rs. 1,869–10–0 in the previous year. The decrease in

the expenditure is partly due to the decrease in the average number of prisoners, and partly to the reduction of the guards whose duties have lately been transferred to the police.

*(g) Civil justice.*

38 The number and designation of the Civil Courts in the year under review was as shown below :—

1 The Huzur Civil Court of the Pant Pratinidhi.
1 The Court of the Special Judge under the Agriculturist's Relief Act.
6 Courts of the Second Class Subordinate Judges.

8

Two of the six Sub-judges' Courts have been lately abolished as there was no sufficient work for them.

39. The constitution and powers of the courts remained unchanged.

40. The sub-joined statement will show the number and nature of the suits filed during the year under review as compared with those in the preceding year.

| Name of Court. | Suits for immovable property. | | Money suits. | | Suits for other rights. | |
|---|---|---|---|---|---|---|
| | 1890-91 | 1889-90 | 1890-91 | 1889-90 | 1890-91 | 1889-90 |

| do do do Gunadal ... | 1 | 0 | 3 | 3 | 0 | 0 |
| Total..... | 48 | 48 | 162 | 170 | 14 | 21 |

41 The value of the subject matter of the suits filed during the year under review amounts to Rs. 26950-3-2 against Rs. 22618-14-9 in the previous year.

42 The 224 suits filed during the year added to 108 left undecided at the close of the previous year make up a total of 332 against 363 in the previous year. The small decrease in the file is chiefly under the head "Suits for other rights." Out of the total, 274 were disposed of during the year under review against 255 in the previous year. The number of suits remaining undisposed of at the close of the year is 58 against 108 in the previous year. The subjudges thus appear to have done their work better than in the previous year. This is to some extent due to the stringent orders issued and also to the closer supervision over their work. The details of the work done will be found in appendix XIII.

43 The value of the claims involved in the suits disposed of during the year under review was Rs. 30899 against Rs. 27775 in the previous year. The total amount of the value of the claims in the suits that remained pending at the close of the year was Rs. 10,690 against Rs. 14,639 in the previous year.

44 The average duration of each suit is 147 days against 322 days in the previous year. This shows that much improvement has been effected during the year under review in the direction of disposing of claims speedily, as the Sub-judges were repeatedly warned to do so. The Karbhari has inspected and examined the work of the Sub-judges' Courts at Kapil, Kinahi, Atpadi, and ~~Guadal~~ Umdal.

## *Suits under the Agriculturist's Relief Act.*

45 Among the total number of the suits mentioned before, 126 were instituted under the Agriculturist's Relief Act as contrasted with 124 in the previous year. These, when added to 51 remained pending at the close of the ~~peevious~~ previous year, make up a total of 177 against 181 in the previous year. Out of these 146 valued at Rs. 19151 were disposed of against 138 valued at Rs. 15415 in the last year. The number of suits awaiting disposal at the end of the year is 31 against 51 in the previous year.

46 During the year under review there were only 17 applications for the revision of the decisions of the Subjudges, which, together with the 7 that remained pending at the close of the previous year, make up a total of 24, out of which 22 were disposed of and 2 remained undisposed of at the end of the year. The Special Judge also supervises the working of the Act.

47 Three miscellaneous applications have been filed during the year under review by the Huzur Civil Appellate Court, two under Act No. XX of 1864 and one under regulation VIII. of 1827. One of the three applications has been disposed of under Act XX. of 1864 and two remained undisposed of at the end of the year.

## *The following Statement will show the work done by the Huzur Civil (Appellate) Court of the Pant Pratinidhi.*

49 The Huzur Civil Court had to dispose of 47 appeals in all against 49 in the previous year. Out of these, 28 were filed during the year under review and 19 were pending disposal at the beginning of the year under review. The total number of the appeals disposed of during the year is 33 against 30 in the preceding year. 14 appeals remained undisposed of at the close of the year against 19 in the previous year. The following table will show how the appeals were disposed of :—

| | |
|---|---|
| Confirmed ... ... ... ... ... ... ... ... | 16 |
| Reversed ... ... ... ... ... ... ... ... | 13 |
| Amended ... ... ... ... ... ... ... .... | 4 |
| Total | 33 |

50 The average duration of each appeal is 251 days against 276 in the previous year. This compares favourably although the presiding Judge had been seriously ill for more than two months at the commencement of the year under review.

## *Execution.*

51 The Civil Courts had to dispose of 336 applications for the execution of decrees. Out of these 111 were pending disposal at the commencement of the year and 225 were filed during the year. Out of the total number 278 were disposed of during the year. The corresponding figures for the previous year are 408, 107, 301, and 297 respectively. The number of applications left undisposed of at the end of the year under review is 58 against 111 in the previous year. The value of the subject matter of the applications filed during the year is Rs.28373 against Rs.45602. The value of the claims involved in the applications disposed of is Rs. 39169 against Rs.52480 in the preceding year and the value of the claims in the applications left undisposed of at the end of the year is Rs. 10084 against Rs.20880 in the previous year.

## *Suits under the Mamlatdar's Courts Act III. of 1876.*

52 During the year under review the Mamlatdars had to dispose of 29 suits against 24 in the previous year. All of them were disposed of during the year under review. The value of the subject matter involved in the suits mentioned above is Rs.2131 against Rs. 1131 in the previous year. The working of the Mamlatdars was supervised by the Sarsubhedars and the Karbhari. This Act is now generally well understood and the few irregularities observed in the exercise of revisional powers have been corrected.

### (*h*) *Registration.*

53 The Huzur Registry office is kept at Aundh. The Karbhari has been invested with the functions of the District Registrar. The number of the Sub-Registry officers kept at Taluka stations is 5 as in the preceding year.

54 The subjoined table will show the main features of the documents registered during the year under review as compared with those in the preceding year.

| Description. | 1890—91 | | | | | | | 1889—90 | | | | | | | Remarks |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | Number of deeds | Value of Property | | | Fees realized. | | | Number of deeds. | Value of Property | | | Fees realized. | | | |

| Net Profit | ... | ... | ... | ... | 608 | 4 | 6 | ... | ... | ... | ... | 525 | 14 | ... | |

55 The total number of the documents presented for registration during the year under review is 314 showing an increase of 79 over 235 in the previous year. These together with the two that remained unregistered at the close of the last year make up a total of 316. Out of these, 314 were registered and two remained unregistered at the close of the year.

56 The amount of the fees realized during the year under review rose from Rs.525–14 in the last year to Rs.608–4–6. No separate expenditure is incurred on account of the Registration Department as the work was performed by the Revenue officers as before.

57 The increase in the number of sale-deeds appears to be the result of shaken confidence of the agriculturists with their Sowkars.

58 The Karbhari during his tour of Inspection observed that the prescribed registers in which documents are copied were kept in the record along with other papers without taking any special precaution for their safe custody. This fact having been brought to my notice stringent orders were issued to the officers concerned that these registers should be kept in a separate box which should be placed in the Treasury-room so as to be out of the reach of any one except the Sub-Registrar.

59 ( *i* ) *Municipal Administration.*

There were no Municipalities at all in the State up to the year under review. The necessity of establishing such institutions in comparatively large towns having been brought to my notice, steps were taken to establish one at Atpadi. The necessary preliminaries were gone through and the Karbhari while on his inspection tour at Atpadi took an opportunity of personally explaining to the people the advantages resulting from such institutions at the expense of small taxes to be spent on local improvements; and I feel glad to note that the people consented to the establishment at Atpadi of a Municipality which was accordingly established in the month of May last. The sources of income for the present are the house tax, octroi duty on the imports for local consumption, and pound fees. The estimated income from these sources is calculated at Rs. 1,045 and the expenditure on account of establishment for collection of taxes and for sweeping and lighting streets is estimated at Rs. 526 leaving a surplus of Rs.519 for improvements. The income will not for the present be burdened with any contribution in aid of the local school and dispensary. The Municipal statement prescribed in the standard form will be given in the report for the year 1301 as the necessary statistics is ready at hand.

60 Tho establishment of a Municipality at Kundal is very desirable. The necessary preliminaries are being gone through and I expect to have it established during the course of the current year.

## CHAPTER IV.

## *Production and Distribution.*

### ( *a* ) *Agriculture, weather and crops.*

1 A statement of the agricultural stock ( Appendix XVI ) has been appended.

2 As compared with the previous year there was an increase in almost all the heads. The increase is attributable to the non-prevalence of any cattle disease. The slight decrease in the number of sheep and goats appears to be due to their emigration into the neighbouring tracts for want of fodder. The decrease in the number of ploughs is attributed to the circumstance that a few of them were not in working order in consequence of the scanty rain-fall and therefore omitted, but it is much doubted whether this is really the cause.

3 The details of the rainfall during the year under review are as shown below;—

| Thanas :— | In.-cents. |
|---|---|
| Atpadi | 4—24. |
| Kapil Kundal | 21—34. |
| Gunadal | 4—99 |
| Aundh | 20—7. |
| Kinai | 26—11. |

The rainfall in the Atpadi and Gunadal Thanas was very scanty and besides it was not seasonable. The five year's average rainfall in those Thanas is 23 and 20 Inches respectively. The Kharip crop in Atpadi which consists chiefly of Hundi and Bajri failed in consequence. Similarly the Rabi crop in the Gunadal Thana also failed. The rainfall in those Thanas was less than $\frac{1}{4}$ of the average fall during the last five years. The crops in those Thanas partially failed in consequence. The outturn of cotton crop which is chiefly sown in Gunadal Thana was very poor for want of moisture and was not more than three annas in the rupee. The crops in the Kapil-Kundal Thana were favourable but the yield of cotton in that Thana was not more than 6 annas in the rupee. The out-turn of wheat was eight annas in the rupee and that of Jawari 10 annas in the Rupee on the whole. The yield of Bajri in Atpadi Thana was even less than 4 annas in the rupee. It is not much sown in other Thanas,

### ( *b* ) *Wages and labour, also the prices of food grains.*

4 Registers on this subject have been kept at the several Thanas and monthly extracts have been received during the year under review. The

rates of wages per diem for skilled and unskilled labour were as follows :—

| | |
|---|---|
| Carpenter | 8 to 12 annans. |
| Mason | 5 to 10 annas. |
| Cooli | $2\frac{1}{2}$ to $3\frac{1}{2}$ annas. |
| Cart of two bullocks | 12 annas to one rupee. |
| Ponies | 10 annas to 12 annas. |

These rates are nearly the same as in the previous year.

5. The prices of the staple food-grains of all sort fell a little though the rainfall was below the average. The Rabi crops were better than the Kharip ones which suffered for want of timely rain. The price of cotton rose a little. It is now sold from 2 to $2\frac{1}{2}$ sheers per rupee. The price of Bajri crop did not rise although the crop suffered much for want of rain. The prices of *Karbi* and other fodder had fallen during the greater portion of the year under review, but they rose at the end of the year. The price of Gur (coarse-sugar ) rose from Rs $1\frac{1}{2}$ to Rs. 2 per maund. The prices of ghee and oil remained almost unchanged. The prices of firewood also remained unchanged *i. e.* it was sold at a rate of 6 to 8 annas per maund as before.

( *c* ) *Forests.*

6. There are no forests as such in the State. There are a few Kurans which are specially preserved for hay required for State cattle. It does not seem possible for the present, for want of funds to set apart land for constituting Forests.

( *d* ) *Trade and Manufactures.*

7 There are no factories or other workshops in the State.

8 The chief articles of export are wheat, cotton, coarse-sugar, groundnuts, Jawari and Bajri. The chief articles of import are piece-goods, stationery, sugar, grocery, kerocine oil &c. There is however no extensive traffic of these articles. The articles imported are mostly for local consumption.

( *e* ) *Fairs.*

9 The important fairs in the State are those at Aundh, Boblad, and Kharsundi. The fairs at Aundh and Kharsundi are held annually in the month of January and April respectively. The fair at Aundh was attended by about four thousand persons and that at Kharsundi by upwards of ten thousand persons. They are held in honour of the Dieties Yamai and Nath respectively. The fair at Boblad in Gunadal Thana is held annually on the last day of Magh *i. e.* at the close of February. It lasts for four days and is held in honor of high-priest of the Jangum caste. At the fair of Kharsundi a large cattle market is held and dealers in cloth and brass-pots come from a distance with their articles for sale.

( *f*) *Public Works.*

10 The following statement will show the original works done and repairs made to public buildings &c., in the State.

| Works | State Funds. | | | Local Funds. | | | Total. | | |

| Grand total of original works and repairs. | 11289 | 9 | 9 | 3795 | 3 | 5 | ~~15,085~~ 15084 | 13 | 2 |

11 The sum of Rs. 9634-10-6 incurred for a new ~~buiding~~ building at Poona is virtually a repayment of a loan received in the year 1299 Fasli. The building was undertaken in 1299 by an agent at Poona who was to be recouped for the sum spent by him. But for want of funds he could not be paid in the year 1299 Fasli, and the necessary adjustment was not made in the accounts for that year. This item was not therefore included in the amount of repayments of debts but shown under this head to bring the transaction into accounts. This building is soon to be let for hire.

12 During the year under review Rs. 1654-15-3 exclusive of the amount spent for the building at Poona were spent on Public Works from State funds. It is however a matter for regret that more funds could not be allotted for this useful branch of administration as the State has been lying under pecuniary ~~embarassment~~ embarrassment.

13 Rs. 3795-3-5 have been spent on Public Works from the Local Funds, out of which Rs. 977-2-3 were spent on original works and Rs. 2818-1-2 were spent on repairs against Rs. 1246-5-9, and Rs. 1199-9-9, respectively in the previous year. Rs. 2398-10-2 were spent on repairs to roads during the year under review against Rs. 942-6-9 in the previous year.

## CHAPTER V.

## *Revenue and Finance.*

1. The following statement will show the opening and the closing balance for the year under review as compared with the previous year.

### *Statement No. I.*

| Years. | Opening Balance. | Receipts. | Disbursement. | Closing Balance. |

3. The increase in the receipts during the year under review under the several heads is detailed as under:—

Under the head 'Land Revenue' there is an increase of Rs. 9522–15–6. Out of this sum Rs. 6571–14–6, are on account of the sale of occupancy-rights in Gunadal and Atpadi Thanas, Rs. 550 are on account of the sale of teak in Kurans, Rs. 1000 are on account of Nazars received for acknowledging the rights of heirs of deceased Inamdars, and Rs. 1401–1 are the sale proceeds of dried timber, grass &c, which were hitherto included in the item under miscellaneous. Out of the decrease of Rs. 2624–3–1, Rs.1045–1–7 are on account of salt transferred in the accounts to the proper head 'Salt Revenue' and Rs. 1579–1–6 are on account of miscellaneous revenue included in the amount of Jamabandi. The net decrease under miscellaneous is therefore Rs. 178–0–6.

4. Under the head 'Abkari' there is a slight increase of Rs. 183 and it is due to the increased amount of the farm-sale of Bhang and Ganja.

5. Under the head 'Registration' there is an increase of Rs. 82–6–6 and this is due to the increased number of documents registered.

6. Under the head 'Stamps' there is an increase of Rs. 351–6–6. The increase is due to the increased number of transactions for which stamps were purchased.

7. Hitherto the receipts on account of Salt Revenue were erroneously included under the head 'Land Revenue.' Salt Revenue is a distinct and separate head and this has been shown during the year under review. The increase under this head viz. Rs. 1045–1–7 is merely the result of correct classification. This sum has been annually paid by British Government by way of compensation for suppressing salt works in the Atpadi Thana of the State.

8. Under the head opium there is a decrease of Rs. 112–3. This is due to the fall in the amount of bids.

9. Under the head "other items" which is subordinate to Sayar Revenue, there is a slight decrease of Rs. 103–6–3 and for this there are no special remarks to offer.

10 Under the Major head "other items" there are receipts relating to "salt," "Law and Justice," "Khasgi," "Amals," "Debts," "Deposits" "Advances" and miscellaneous. Under this Major head there

is a net increase of Rs. 66,891-11-5 as detailed below:—

| | Increase. Rs. | a. | p. | Decrease. Rs. | a. | p. |
|---|---|---|---|---|---|---|
| Law and Justice... ... | 0 | 0 | 0 | 317 | 0 | 0 |
| Khasgi..... ..... | 8 | 0 | 0 | 1674 | 10 | 0 |
| Amals..... ..... ... | 0 | 0 | 0 | 62 | 8 | 3 |
| Debts..... .....79026 | | 0 | 7 | 0 | 0 | 0 |
| Deposits..... ... ... | 0 | 0 | 0 | 980 | 15 | 1 |
| Advances..... | 0 | 0 | 0 | 8855 | 10 | 7 |
| Miscellaneous..... ... | 0 | 0 | 0 | 243 | 9 | 3 |
| | 79,026 | 0 | 7 | 12,134 | 5 | 2 |
| | | | | Net Increase Rs. 66891 | 11 | 5 |

11 The decrease under the head "Law and Justice" is chiefly due to the transfer of Pound fees from this head to its proper head under " Local Funds."

12. The decrease under the head " Khasgi" is due to the non-receipt of this sum actually received by the members of my family as their personal property. Hitherto an adjustment was made in the accounts and the decrease is due to the non-adjustment and therefore non-inclusion of the sum into the accounts of the year under review.

13. The decrease under the head " Amals" is due to an adjustment having been made in the previous year on account of Income-Tax deducted.

14. The Increase under the head " debts" is mainly due to a loan of one lac received during the year under review. The detailed information about this loan is given in chapter VIII of this report, and the disposal of it is dealt with below the expenditure statement.

15. The decrease under the head " Deposit" calls for no special remarks. The main reason for the decrease under this head is the settlement of a few questions relating to heirship.

16. Under the head " Advances" several adjustments were made in the accounts for the preceding year about transactions which took place during the past few years. Fewer adjustments were effected during the year under review and hence the decrease under this head.

17. The decrease of Rs. 243-9-3 under the head 'Miscellaneous' is also the result of correct classification. The recipts under this head appertaining more appropriately to Land Revenue have been shown under that head, and hence the decrease under this head.

18. Under the head " Local Funds" there is an increase of

Rs. 832-8-11. This is partly due to the inclusion of pound fees transferred from " Law and justice," and partly to the increased assessment calculated on the realizations on account of the sale of occupancy-rights.

19. There are no toll-bars in the State and no Transit duties are levied.

20. The statement given below will show the expenditure of the year under review as contrasted with that of the three preceding years.

21. Under the head Khasgi there is a decrease of Rs. 12033-8-9. Under this head come items on account of Khasgi proper (personal expenses) Kothi (granary) and Thati (cattle Department) and Jamdarkhana (perfumery, cloth, jewelry). The real decrease in the Khasgi expenditure is not so much. In consequence of the revised classification some of the servants such as Gunijans, who are really State-servants have been transferred from Khasgi to Dawlat, and their pay amounts to Rs. 1558-14. Deducting this item, the net decrease under this head is Rs. 10474-10-9. This decrease is the result of the new revised budget system in consequence of which several items of expenditure which were deemed to be unnecessary under the present state of financial pressure, were discontinued. It is to be observed that the amount of expenditure under this head includes

an item of Rs. 5,000 on account of the marriage of my son Abasaheb. This is an occasional charge. But even last year there was a similar occasiona l charge on account of the pilgrimage to Benares of my wife at Kinai.

22 Under the head " Paga " there is a decrease of Rs. 12543–4–8. It should be observed here that in the preceding year Rs. 17563–8–9 were incurred, but occasional charges such as purchase of mares and carriages were included therein. The average expenditure under this head amounts to Rs. 12000 and thus it will be seen that the real decrease under this head is Rs. 6979–11–11. This decrease is due to the fact of the disposal of the superfluous and useless animals.

23. Under the head "remissions " there is a decrease of Rs. 4604-8-1. The decrease under this head does not call for any special remarks.

24 Under the head "stipendiary establishment" "subordinate to Land Revenue " there is an increase of Rs. 5039-12-7. The details of the increase are as under:—

| | |
|---|---|
| The pay and allowance to Karbhari..... | Rs. 4164–1–4 |
| The amount of pay of servants transferred from Khasgi Department..... | Rs. 1558-14-0 |
| Census expenditure incurred upto the month of June... | Rs. 271-0-3 |
| | Total Rs. 5993-15-7 |
| Deduct amount of Pay of ~~servants~~ who were not entertained during the year under review..... | 954–12–7 |
| | Net increese Rs 5039-12-7 |

The pay of the ~~Sabordinate~~ Establishment is comparativelg very poor, and there is a necessity of increasing the pay of Mamlatdars and others, and this is gradually being done out of the savings effected.

25. The decrease under the head " Cash remuneration to Hakdars viz. Rs. 5899-2-2 is due to the non-payment of the Haks during the year under review. The months for the payments of these Haks were not hitherto fixed. According to the new systeem of accounts the months have been fixed and steps have been accordingly taken to inform the receipients concerned.

26. Under the head " Alienation " there is a decrease of Rs. 1165-13-0. The details of the decrease are as under:—Rs. 876-9 out of the revenue of the village of Kanbur had been decided to be made to the Pola Shiledar for service to be rendered by him. This amount had been entered in the Huzur accounts as a debit under the head of Shibandi. It was however debited in the annual Taleband under the head "Alienations." This discrepancy in the account was discovered and the necessary transfer has been effected in the annual Taleband of the year under review so as to keep harmony between the Huzur accounts and the annual Taleband. The viillage of Galawewad was

granted as Inam to my late son-in-law Gunpatrao Shukre of Gwalior. He having demised in 1299 Fasli, the Inam has been resumed during the year under review. The revenue of the village resumed is Rs. 672–8–0.

The Fakir at Padali was granted an Inam of Rs. 4-0-0 but he too having died without an heir, the Inam has been resumed during the year under review. In the Thana of Atpadi a few Inam–holders were found to possess more land than what was granted to them. This fact having been brought to my notice, the excess land assessed at Rs. 12-12 has been resumed during the year under review. My son-in-law Parashuramrao of Kadegeon, who is a minor, and whose estate has been managed by the Collector of Satara, was granted Inam land assessed at Rs. 400, at the time of his marriage in the year 1295 Fasli, but the necessary entries in the acconuts were not then made as the possession of the land was not actually handed over. The land was actually handed over to the manager at his request during the year uuder review and hence the increase under this head.

The effect of the above details is that there is a net decrease of Rs. 1165-13-0 as shown below ;—

| | | |
|---|---|---|
| Amount transferred on account of Pola Shiledar ... | | Rs. 876–9–0 |
| Amount resumed owing to the death of my son-in-law... | | Rs. 672–8–0 |
| Ditto | of Padli Fakir ... | Rs. 4–0–0 |
| Amount of assessment on excess land ... ... ... | | Rs. 12-12-0 |
| | Totol... | Rs. 1565-13-0 |
| Deduct assessment on Kadegaokar's Inam ... ... | | Rs. 400-0-0 |
| | Net Decrease ... | Rs. 1165-13-0 |

27. Under the head 'Miscellaneous' there is an incerase of Rs. 2227-4-3. This is mostly the result of the revised rules of classification. These items consist of travelling allowance, office contingencies, &c. and were included in the item written against the Major head "Miscellaneous." This expenditure more properly appertains to Land Revenue and therefore the necessary transfer was effceted during the year under review, and hence the increase under this head.

28. As regards the Sayar Revenue there is a total decerase of Rs. 3014-1-2. The chief item of decrease viz. Rs. 2871-2-8 under this head is on account of remissions for which there did not seem any necessity during the year under review. The other small items under the head Sayar Revenue do not call for any special remarks.

29. Under the head "Shibandi and Police" there is a net dercase of Rs. 753-1-1. The services of some Swars and other escort-men not having been found to be urgently necessary were dispensed with and that has caused a saving of Rs. 945-10-0. But the pay of some of the grades of Police Subordinates having been revised there occurred an increase of Rs. 192-8-11,

The net decrease under this head is therefore Rs. 753-1-1.

30. Under the head " Law and Justice" there is net decrease of Rs. 1318-8-2. The decrease is due to the facts that the Karbhari has deen temporarily entrusted with the duties of the civil officer (Shri Baba Maharj) during his absence on leave and consequently Rs. 300 on account of that officer's fixed travelling allowance were saved. The remuneration to village officers calculated on pound fees viz. Rs. 101, has been paid out of Local Funds as the receipts have been transferred to that Department. Rs. 691-8-2 more were spent last year on account of contingencies. Thus the total decrease amounts to Rs. 1092-8-2. To this amount Rs. 226 are to be added as the pay of servants, for the month of May last, was not paid and therefore not included in the accounts for the year under review, The payment having been made in the month of June will be included in the accounts for the current year. Thus the total decrease amounts to Rs. 1318-8-2.

31. Under the head' Jail' there is a decreaee of Rs. 438–12–9. This is partly due to the average decreased number of prisoners and partly to the reduction of the guards whose duties have been lately transferred to the Police,

32. Under the head " Dewasthan and Dharmadaya" there is a decrease of Rs.1550–9–2 This is partly due to the revised arrangements made concerning Dewasthans and partly to the fact that those receipients, who live at a distance, are not always regular in their attendance to get their money during the year for which it is to be paid to them.

33. Under the head " cash allowances to Saranjamdars and Hukdars" there is a decrease of Rs. 3504–3–9 This is owing to the non-appearance of the receipients concerned. They are however paid in the month of June last. The months of payment were not hitherto fixed. Now according to the new system of accounts the months of payment have been fixed and steps have been accordingly taken to inform the reecipients concerned.

34. Under the head " gardens " there is a decrease of Rs. 155–11–3 which is due to the reduction in the establishment,

35. Uuder the head 'Nagarkhana' the expenditure remained unchanged.

36. Under the head "Pensions and Potgi" there is a decrease of Rs. 238-3-0 which is mainly due to the non-appearance of some of the pensioners during the months of April and May but they have been paid in the month of June.

37. Under the head 'Liquidation of debts' there is an increase of Rs. 55,831-11-1. It has already been observed under statement II that a sum of one lac of Rupees was borrowed from a sawkar at Yewla. At the

beginning of the year under review there was little money in the Treasury. It was not sufficient to defray even the current expenses. Further there were demands of persons from whom articles were purchased but money was not paid to them. The servants also demanded their pay. There were several Sawkars to be dealt with. The old Sawkars refused to advance more money and some of them made pressing demands for the repayment of their loan. All this formed a subject of daily annoyance. It was therefore suggested that a new loan should be taken to pay off all petty Sawkars and to lay by some money to defray the current expenditure upto the month of January when Revenue collections come in. The Karbhari was therefore told to sum up all debts and to make up an estimate of the current expenditure upto January, and also to make a budget for the year under review. This was done by him and it was found necessary to take a loan of one lac to make matters easy.

A loan of one lac was accordingly taken from one Mr. Gangaram Chhabildas of Yewla at the rate of seven annas per mensem or Rupees 5¼ per annum. The disposal of this loan was made as under:—

Amount paid to Sawkars in repayment of debt ..... Rs. 56,933–11–7
Amount paid to an agent for a new building at Poona,
built under his supervision in 1299 Fasli.....Rs. 7634–10–6
Amount kept in hand for meeting the current
expenses upto Jaunary 1892 .....Rs. 31,000–0—0
Amount of interest paid to Sawkars.....Rs. 2431–9–11

Total Rs. 10,0000–0–0

In order that the amount kept to meet the current expenditure may not be lying idle it has been advanced to a trustworthy Sawkar at Satara at an interest of seven annas per mensem with a stipulation, that he should monthly pay the amount that would be demanded from him, to defray the monthly expenditure.

Exlcusive of the loan of one lac there remains a debt of Rs. 33057–13–0 But this is a debt for which there are no pressing demands and a part of which is without interest. Besides, during the years 1301 and 1302 Fasli Rs. 23000 would be coming in on account of the sale of occupancy rights in Gunadal—Thana over and above the usual Jamabandi. There was therefore no necessity of borrowing more money than one lac. I feel glad to observe that by this arrangement there would be no necessity of borrowing any more, and due care will be taken in regularly and punctually repaying the debt.

Last year the amount of repayment of debts was Rs, 1102–0–6 and hence the increase of Rs. 55831–11–5 under this head, during the year under review.

38. Under the head " deposits " there is a decrease of Rs. 990–0–6 which does not call for any special remarks.

39. Under the head "Advances" there is an increase of Rs.31369-1-10. Out of this sum Rs. 31,000 have been advanced to a Sawakar on interest as stated above. The remaining amount is mostly on account of permanent advances issued to meet the miscellaneous expenditure in the several offices until formal bills are prepared and sanctioned in accordance with the new system of accounts. It also contains small items issued in the month of May last to meet expenditure, on account of repairs to buildings &c. which are adjusted during the current year.

40. Under the head " Miscellaneous " there is a decrease of Rs. 3945–8–5. This is mostly the result of the revised rules of classification under which the expenditure hitherto debited under this head, has been transferred to the head " Miscellaneous " subordinate to " Land Revenue" as it more appropriately appertains to " Land Revenue. "

41. Under the head " Interest " there is an increase of Rs. 1398–6–6 This increase is not due to any increase in the ~~debet~~ but is due to the calculation and payment of interest actually paid during the year under review. Out of the total sum of interest viz :—Rs. 4630–4–6 paid during the year under review Rs. 2431-9-11 were paid out of the loan of one lac and the remaining Rs. 2198-10-7 were paid out of the balance of the year under review.

42. Under the head " Public Works " there is an increase of Rs. 10107-9-~~1~~. Out of this increase Rs. 9634-10-6 were paid for the construction of a Wada at Poona built during the year 1299 Fasli, out of the loan of one lac as has already been stated, and the remainder viz. Rs. 472-15-3 were paid as a contribution towards Public Works out of State Funds in excess of that paid during the previous year.

43. Under the head " Local Funds " there is a net increase of Rs. 559-6-4. The necessary details of increase and decrease under the heads " Medical Department. " " Vaccination, " " Instruction, " and " Public Works, have been given in the body of the report in Chapters IV, VI, and VII. The contribution for the Library at Aundh out of Local Funds has been reduced from Rs. 405-10-0 in the previous year to Rs. 170 during the year under review. The increase viz. Rs. 279 under the head " Contributions " is due to the payment of arrears. The increase of Rs. 159-3-1 against the head " other items " under " Local Funds establishment " is due to the purchase of the necessary utensils and other articles of dead-stock. The old articles of dead-stock had become unserviceable and were not sufficient. More articles ~~were~~ found necessary for the use of roads and the necessary amount was therefore sanctioned and new articles of dead stock ~~wree~~ accordingly purchased.

There are other minor items on both the sides of increase and decrease under the Local Funds but they do not call for any special remarks.

44. There is an increase of Rs. 17391–9–7 in the closing balance, over the closing balance Rs. 15,633–4 of the preceding year.

Out of the whole balance of Rs. 33,024–13–7, Rs. 23,743–4–4 are kept in the several sub-treasuries to meet all the expected demands on those ~~treasuries~~ Treasuries till the month of January next *i. e.* until the time of revenue collections. The remaining Rupees 9,281-9-3 to be supplemented by Rs. 31,000 will be sufficient to meet the current expenditure at the Huzur until the said period. I feel glad to note here that the increased balance at the end of the year under review is mainly the result of the revised budget system and the pre-audit system of accounts introduced as stated above. This introduction did not however operate from the beginning of the year and it is therefore hoped that these results would compare still more favourably during the current year.

45. At the close of the year under review the outstanding balance to be recovered amounted to Rs. 24 508-11 against Rs. 21,230-13 in the preceding year. The net increase in the outstandings viz. Rs. 3,277-14 is chiefly due to the unfavourable season and the consequent failure of crops in the Atpadi and Gunadal Thanas as has been stated in Chapter IV. The question of the recovery of the outstandings much depended upon the settlement of a question about Inam Wadhawa. It must be observed here that when the survey settlement was extended to the Atpadi Thana it was found that several of the Inamdars were in possession of more land than what was given to them as Inam. The excess was therefore assessed by the Revenue Survey Department and the Land Revenue thus increased is called Inam Wadhawa. Some of the Inamdars were reluctant to pay the excess Revenue and they preferred complaints to the Political Agent for exempting the excess land from assessment. The Karbhari represented the claims of the State to the excess revenue, and the complaints are being disposed of by the Political Agent.

The assessment on the excess land has been included in the year 1296 Fasli, but the recovery of the assessment has been postponed pending the disposal of the said complaints.

Now that the complaints are being disposed of and thus the question of granting remissions will be rendered easier for final settlement, and that wherever recovery is possible it will be effected, and that remissions will be granted to those to whom it will be very hard to pay the arrears of previous years, and it is hoped that at the close of the current year the amount of outstandings will be greatly diminished.

## CHAPTER VI.

### *Vital statistics and Medical services.*

1. The two charitable institutions viz :—the Dispensary at Aundh and the Dispensary at Atpadi have been progressing favourably. The subjoined table will show the main particulars concerning the medical relief afforded to the patients.

***Table I.***

| Dispensary. | Number of patients treated | | Result. | | | | Expenditure. | Daily average. |
|---|---|---|---|---|---|---|---|---|
| | Indoor. | Out-door. | Discharged | Absented. | Died. | Remaining under treament. | | |
| Aundh ... | ... | 4191 | 3441 | 711 | 7 | 32 | 859-14 | 41·4 |
| Atpadi ... | ... | 3401 | 2375 | 982 | 2 | 42 | 729-5 | 35·6 |

2. The total number of the patients treated in the Dispensary at Aundh was 4191 against 4105 in the previous year. The daily average attendance was 41·4 against ~~41·5~~ in the previous year. Among the patients 2000 were British subjects and 2191 were subjects of the State. 4 Major and 170 minor operations were performed during the year. In the preceding year the corresponding figures were 4 and 140, respectively. The Hospital Assistant Mr. Rawji Shiwram successfully performed an operation in a very difficult case of Mid-wifery and it is owing to his skill and care that the institution is growing popular.

3. At the dispensary at Atpadi 3401 patients were treated against 3525 in the previous year. Out of these 463 were British subjects and 2938 were subjects of the State. The average daily attendance was 35·6 against 33·3 in the previous year. No surgical operations of importance were performed during the year under report. The number of minor operations performed during the year was 182 against 151 in the previous year.

4. It is very agreeable to observe that the number of deaths of

patients under treatment in both the dispensaries is very small. It amounted to 9 only against 183 in the previous year.

5. A dead-house has been erected close to the dispensary at Atpadi during the course of the year and funds have recently been provided for enlarging the dispensaries and for providing them with instruments of Mid-wifery.

6. The services of two native physicians have also been greatly availed of by the public. These native physicians have been entertained since a long time and are very useful to the public. Their necessity is often felt even now as there are many persons who do not attend dispensaries owing to religious scruples and to a liking for native medicines. One of the native physicians has, however, been sent to the Thana of Kundal which is not provided with a dispensary as yet.

7. The prevailing diseases were during the year under review, fever cough, Dysentery, Worms, eye-diseases &c.

8. There occurred 72 cases of cholera in the Kapil-Kundal Thana. 25 of them proved fatal. The epidemic lasted for two months only *i. e.* during the months of July and August 1890. Prompt measures were taken to check the spread of the epidemic and medicines were supplied in time to the sufferers in consequence of which 47 sufferers were saved.

9. On the whole the public health was good.

10. The Medical Department was maintained at a cost of Rs. 1714-3 against Rs. 1877-12-6 in the previous year. The slight decrease calls for no remark.

*Births and Deaths.*

***Table II.***

11. The ~~subjoine~~ subjoined table will show the total number of births and deaths in the State during the year under review.

| | 1890-91 ~~1190~~-91 | 1889-90 | Increase. | Decrease. |
|---|---|---|---|---|
| Births ..... | 2743 | 2436 | 307 | 0 |
| Deaths ..... | 1553 | 1892 | 0 | 339 |

The increase and decrease in the number of births and deaths as shown above are due to the general good health and to the non-prevalence of any general epidemic.

12. From the figures entered in the table the birth-rate per thousand of the population is 46 and the death-rate per thousand is 26. This shows that the registration of Vital Statistics continues to be satisfactory.

13. The circular order No. 29 dated 18th August 1880 to ensure due registration of Vital Statistics has shown good results. The examination of the Register by the Inspector of Vaccination, by the two vaccinators, by the Mamlatdars, and by the other Revenue and Police authorities have also to a considerable extent contributed towards ensuring the accuracy in the Registration.

*Sanitation and Vaccination.*

14. No separate establishment has been maintained for Sanitation. The work is performed by the village officers and supervised by the officers of the Revenue, Police and Vaccination Departments. The Karbhari during his inspection tour has personally explained to the villagers the importance of this subject and the urgent necessity of observing cleanliness and of using good water, and also of keeping their cattle at some distance from their habitations. The Thana officers have been supplied with copies of sanitary primer with instructions to read them out to the Ryots, and to explain to them the advantages to be accrued by strictly observing the rules therein laid down, and I hope that improvement in this branch will be gradual as the habits and notions of the masses will improve. The Municipality at Atpadi will also help improvement of Sanitation and show good result to the public. Some of the Public wells have been cleared lately to afford a good supply of drinking water. The construction of step-wells is also being gradually discouraged.

15 The following table will show the progress of vaccination in the State during the year under review as compared with that in the previous year.

| Operation by whom performed. | Number of persons vaccinated in | Number of persons vaccinated in | Result. | | | |
|---|---|---|---|---|---|---|
| | | | Successful. | | Unsuccessful. | |
| | 1890-91 | 1889-90 | 1890-91 | 1889-90 | 1890-91 | 1889-90 |
| Govind Nilcant... | 1256 | 1434 | 1020 | 1196 | 37 | 37 |
| Kashinath Ramchandra ... ... | 754 | 708 | 742 | 651 | 1 | |
| Vaccinators of Satara, Koregaon and Khatao Talukas ... ... | 162 | 264 | Unknown. | | | |
| Total..... | 2172 | 2406 | | | | |

The number of persons vaccinated is less than that of the previous year. The decrease is mainly due to the less work done by Govind Nilcant Vaccinator who has been therefore fined and severely warned to be careful in future. The vaccinators have been instructed to re-vaccinate wherever re-vaccination is practicable. The vaccinators visit and perform their operations in all the villages of the State at least once a year. The people have become used to vaccination and prove less obstructionists.

16 Tbe cost of the Department was rupees 480-13-7 against 444 5-6 in the preceding year. The slight increase calls for no remark.

17 The work of the vaccinators was supervised by the vaccination Inspector of the Satara District.

## *Chapter VII.*

*Instruction.*

1. There are 71 villages in all in the State. The number of schools during the year under report is 27 against 30 in the last year. Three schools have been abolished during the course of the year for paucity of students. Out of the 27 schools there are 3 girls' schools and one Urdu school as in the preceding year.

2. The abolition of three schools has not however made any difference in the total number of students. 1058 students are on the roll against 1037 in the preceding year. The policy of establishing schools at small villages where the average attendance cannot be more than 15 should, in the opinion of the Local Fund Committee, be discouraged. The Local Funds have been contributing funds towards 'Instruction' more than one-third of the Local Fund Revenue and measures are being taken to restrict the expenditure to the limit allowed by law and to introduce the system of Grants-in-aid to private tuition *i. e.* instead of maintaining village schools which cannot supply even 15 boys grants should be given to private village school masters according to examination results. It is better to have a good school with fair attendance rather than to have many poor schools with poor attendance. The system of grants-in-aid when introduced will remedy this defect without interfering in any way with the progress of primary education. The Local Fund Committee is ~~therefore~~ therefore advised to adopt the grants-in-aid ~~systeem~~ system wherever it will be ~~found~~ found possible. Complaints having been made that sufficient attention is not paid for *Modi* reading and writing. The Deputy Educational Inspector is directed to pay more attention to this subject and to revise the school curriculum so as to meet the real wants of the people who have more to do with the *Modi* than the *Balbodh* characters.

3 There is no separate English School in the state. An English class has however been attached to the vernacular school at Atpadi and should it get on well endeavours will be made to provide funds for opening

a separate English School. The Urdu School at Aundh has been progressing fairly. There may perhaps be found a necessity to open at an early date another Uurdu school at Atpadi for educating the backward Mohomedan section at that locality. The Kanarese population of this State is only in the Gunadal Thana, the schools in which have been provided with masters who know both Kanarese and Marathi.

4 The main particulars concerning each of the shcools are given in the following table.

| No. | Name of School | Description of School. | No. of pupils on the roll on the 31st March 1891. | No. of pupils on the roll on the 31st March 1890 | Average daily attendance. |

5. The total number of the boys under instruction is 962 as contrasted with 943 in the previous year. Out of these 40 study the V standard,

59 study the IV, 121 study the III, 140 study the II, 199 study the I and 403 boys are below standard.

6 The three girl schools are located at Aundh, Kinai and Dighanchi. Including the 27 girls attending the boys' schools the total number of the girls under instruction is 96 or 2 more than in the previous year. 6 girls study the III standard 11 study the II standard, 19 study the I standand, and 60 girls are below standard.

7 Besides the schools mentioned above there are two Vedic schools supported by the State. One of them is at Aundh and the other is at Kinai. Learned Priests are as a necessity required by all Hindus and as there is no Vedic school entertained in the State by private agency except the Sangam Mahuli a few rupees have been contributed towards the cost of these institutions.

8. A scholarship of Rs. 15 per month continues to be awarded to a student sent to Poona for studying Astronomy.

9. The Educational Department is maintained at a cost of Rs. 4154-10-6 as contrasted with Rs. 4572-7-5 in the preceding year. The decrease in the expenditure is mostly due to the non-payment of salary due for the month of May last as according to the new system of accounts the payments are not debited in the year for which they are due but they are brought to account in the year in which they are actually made.

10 The Deputy Educational Inspector of the Satara District examines the schools every year. The Karbhari assisted him in this duty during the time of his inspection tour and it is reported that the result of the examinations is fairly well.

## CHAPTER VIII.

### *Miscellaneous.*

1. There are very few wild animals in the state. Measures however have been taken for their destruction by offering rewards.

2. There are four British Post offices in the State as in the previous year.

3. Measures have been taken towards the improvement of the record of the state. A fair beginning is made in the direction of sorting the record into A and B papers on the model of the system in force in British territory. Monthly returns of the work done have been called for from the officers concerned. Funds have been allotted for providing offices with wooden frames, and as no extra establishment could be entertained it will take some time to get the work finished by the existing staff.

4. There has been only one Library at Aundh supported by the State. The expenditure incurred on this institution has been curtailed and

a few subscribers have been secured to aid the institution. If the number of subscribers will increase the quota on the state treasury on this account will further be lessened.

5. No transit duties are levied. The Sthal-Moda and Sthal Bharit Jakats have been abolished and consequently there is no hinderance to the progress of free trade.

6. In order to make provision for the repayment of the state debt the old budget has been revised in such a way as to have a surplus balance of Rs. 16000 each year. By this arrangement the debt will be repaid at least by Rs. 10000 per annum exclusive of the interest charged thereon, which will also be paid off annually.

7. Hitherto the Miscellaneous Dawlat expenses as such were not properly separated from the real Khasgi expenses and the several items of expenditure on both these accounts were shown under the head "Khasgi." Moreover no limit was fixed to the Khasgi expenses. Such a course tended to evade any real check upon the Khasgi expenditure. Considering therefore all the requirements of the several members of the family the Khasgi expenditure as such is lately fixed at Rs. 41000 and the Miscellaneous Dawlat expense which was appropriately considered as state expense was expunged from the head "Khasgi." This course has also the advantage of reducing clerical work at the Treasury.

8. The Karad Dewasthan expenditure has been fixed at Rs. 10000 per annum and the result is a saving of about Rs. 2000 per annum.

9. One of the important facts that took place during the course of the year under report is the General Census of the state taken on the night of the 26th of February last. The census operations were conducted on the Model rules and in the forms that were adopted in the British Territory. In carrying out this important business I was much assisted by the Political Agent who was kind enough to see that the census operations in the state were carried on according to the rules prescribed and instructions given. For these operations the state was divided into six charges and a special superintendent was appointed to supervise the work of the charge superintendents. I feel glad to note that no difficulty was experienced by the subordinate officers concerned in carrying out this work. The villagers and others did not offer any resistance or show any reluctance to give the informtion required by the enumerators and other officers entrusted with this duty. The population according to new census is 64877 exhibiting an increase of 5961 over 58916 returned in the General census of 1881. The average proportion of the increase is 9·6 per-cent. The total number of males amounts to 33097 which is greater by 3332 than 29765 in 1881.

The total number of females is 31780 showing an increase of 2629 over 29151 in 1881. The total number of houses was 12516 as compared with 9538 in 1881. The average proportion of the increase is about 31 per cent. There are 10610 occupied houses in all against 8496 in 1881. The total number of the empty houses is 1906 as contrasted with 1042 in 1881. The percentage of the increase in the total number of the population in the State is really greater than what is stated above. At the time of the census about 8000 people in the Atpadi Thana had gone away from their villages in search of labour as the rainfall in that Thana was insufficient and untimely. This fact also accounts for the increase in the number of empty houses. The abstraction and Tabulation of the census work has been entrusted to the District abstraction office at Satara and as that work is not yet completed the full results of the General Census are not yet available. The figures in appendix No. IV are therefore taken from the results of the census of 1881.

10. Hitherto there have been no separate sets of court fees and Gneral stamps. Steps are being taken to issue these stamps separately.

11 I feel glad to observe that as promised in the concluding portion of my report for the previous year I have taken much pains to improve the several Departments of Administration. My son Gangadhar Rao alias Tatyasaheb accompanied the Karbhari to Gunadal and other places during his tour of inspection and got experience which is sure to do him good and I feel glad to observe that while at Aundh he has been also receiving useful instructions from him.

12. The State is highly obliged to the Political Agent for his valuable advice and kind assistance whenever necessary. To him the State is really indebted for many of the improvements noticed in this report.

I have the honor to be,
Sir,
Your most obedient servant,

(Signed) SHRINIWAS PANDIT PRATINIDHI

Chief of Aundh.

# ADMINISTRATION REPORT OF THE AUNDH STATE,

IN THE SATARA COLLECTORATE,

FOR 1301 FASLI, A. D. 1891-92.

From,

SHRINIWASRAO PURASHRAM

PUNDIT PUNT PRATINIDHI

Chief of the Aundh State ;

To,

R. E. CANDY, Esquire,

Political Agent,

Satara.

Kinai, dated 4th July 1892.

Sir,

I have the honor to submit the Annual Administration Report of the Aundh State for the year 1301 Fasli ending with 5th June 1892.

I to IV and VI to XIX

2. The usual statements as per margin accompany.

As there is no military Force in the State Appendix No. V, relating thereto has not been appended.

## CHAPTER I.

### Political.

3. The State of Aundh has been in subsidiary alliance with the British Government and the Government of Bombay exercises Political control over it. No tribute is paid to the Paramount power.

4. In June 1891 I had the pleasure of an interview with His Excellency the Right Honorable Lord Harris Governor of Bombay and the Hon'ble members of the Council. In August following I had an interview with you at Satara and you were pleased to visit the town of Aundh in January last and two villages of the Kundal Thana in February. I was glad to learn from you that the state of things in all the institutions and offices inspected by you was satisfactory to you.

5. G. B. Reid, Esquire, Commissioner of the Central Division, also visited Aundh and some villages of the Kundal and Atpadi Thanas with the view of ascertaining principally whether the steps taken by the State for the relief of the distress caused by the scanty rainfall were satisfactory and I have every reason to believe that he was satisfied with what he saw.

6. I visited 3 of the six Thanas and deputed my elder wife's son Bhagwantrao Shriniwas to visit the famine stricken Districts with the object of ascertaining the condition of the agricultural .population. He accordingly visited the Kundal and Atpadi Thanas.

7. I am sorry to say that my eldest and most accomplished daughter who was married to Baba Maharaj at Poona died of consumption on 21st May last.

## CHANGES IN THE ADMINISTRATION.

8. (*a*) There has been a thorough change in the Administrative machinery during the year. Almost all heads of offices have been changed. Rao Saheb Wasudeo Ramchandra Patwardhan the Mamlatdar of Walwa who was appointed by me as Karbhari for one year having returned to his substantive appointment under the British Government I appointed in his stead as Karbhari Rao Bahadur Narayan Bhikaji Joglekar a pensioned Deputy Collector and Magistrate First Class, who has all along borne an excellent character for Administrative capacity.

(*b*) With the view of improving the system of accounts and ensuring regularity and promptness in their preparation I was obliged to pension the old Daftardar of mine and appoint a new one.

(*c*) The status of the Sub-Judges has been raised by appointing pleaders and qualified men. In effecting this object the three old and inefficient Sub-Judges were removed.

(*d*) There were two Sarsubhedars (intermediate officers between the Karbhari and the Mamlatdars). These appointments were abolished as they hampered, instead of facilitating, the despatch of business. One of the reduced Sarsubhedars my son Gangadharao Shriniwas *alias* Tatya Saheb is placed in charge of the Head-Quarter town of Aundh and my eldest wife's son Bhagwantrao has been appointed as Treasury officer at the Head-Quarter town of Kinai.

(*e*) An English knowing Chitnis or Secretary was appointed in my office.

(*f*) A new Police Inspector and two Chief Constables have been appointed.

(*g*) The three Chief Constables of the three Thanas Kundal Atpadi and Gundal were removed either for misconduct or inefficiency and new efficient men appointed in their stead.

(*h*) In compliance with your advice the Sub-Judge's Court for the town of Aundh was abolished as superfluous and its work was entrusted to the Court at Kapil.

(*i*) The new Karbhari having undertaken to call upon the Political Agent whenever needed to afford information in regard to the State the services of the Wakil stationed at Satara, solely for the purpose, were dispensed with.

(*j*) The status of the Mamlatdars and Kamavisdars or Mahalkaris was raised by increasing their salaries and two of the latter inefficient officers were substituted by active and efficient men.

(*k*) The salaries of all peons and menials were increased.

# CHAPTER II.

## Administration of Land.

9. The subjoined table shows the amount of Survey work done and still remaining to be done in the State.

| No. | Name of Thana | No. of villages in each. | No. of villages in which Survey operations including the introduction of rates have been completed. | No. of villages in which the measuring operations have alone been completed. | No. of villages in which no Survey operations of any kind have taken place. | No. of villages in which the revised rates are to be introduced. | Remarks. |
|---|---|---|---|---|---|---|---|
| 1 | Atpadi ..... | 32 | 32 | „ | „ | „ | |
| 2 | Gundal ..... | 17 | „ | 17 | „ | „ | |
| 3 | Kundal ..... | 20 | „ | „ | 20 | „ | |
| 4 | Aundh ..... | 1 | „ | „ | 1 | „ | |
| 5 | Kinai ..... | 1 | „ | „ | „ | 1 | |
| 6 | Mahuli ..... | 1 | „ | „ | 1 | „ | |
| | | 72 | 32 | 17 | 22 | 1 | |

10. The measuring operations of the 17 villages in the Gundal Mahal near Bijapur were completed in 1890 but the Survey rates have not yet been introduced therein.

11. In one village of the Atpadi Mahal, Galvewadi, the Survey rates were declared this year. They have reduced the old assessment of the village which was moderate by Rs. 145-0-0 and therefore the cultivators paid up the Survey assessment most willingly notwithstanding the partial failure of crops this year.

12. Government in their Resolution No. 2879 dated 23rd May 1892 sanctioned the introduction of Survey measurement and rates into the 21* villages mentioned in column 6 of the above table but, finding that I would not be able to pay the estimated cost thereof Rs. 13,097 on account of the scarcity and distress this year, have postponed the measure for the present.

13. There are no special tenures in the State.

*Inam Settlement.*

14. †Government having adviced me to inquire into the titles of Inams existing in the State, I lost no time in preparing a set of rules and submit them for their sanction through you with my letters *marginally quoted. These rules have been framed according to the principles laid down in the Bombay Summary Settlement Act No. II of 1863 and with due regard to the Government Resolution No. 3151 dated 8th June, 1874 Political Department, communicated to me in 1881 by the then Political Agent Mr. LeeWarner's Yadi No. 152 dated 26th August, 1881. The sanction of Government has not yet been received but most of the Inamdars have accepted the payment of Chauthai or ¼ of the assessment to secure exemption from inquiry into their titles and the few that have refused to come to any terms will have their claims disposed of according to the rules. Grants made subsequent to the treaty of 1820 are resumable at pleasure by chiefs.

†Government Resolution No. 8413, dated 23rd Nov. 1892 Political Department.

*No. 49, dated 26th January, 1892.

*No. 100, dated 13th April, 1892.

## WASTE LANDS.

15. The following table shows the extent of waste lands taken up for cultivation and still remaining waste.

| Extent of Cultivable area for | | Taken up in | | Waste remaining at the end of the year | | Percentage of cultivable land lying waste on land actually cultivated in | |
|---|---|---|---|---|---|---|---|
| 1891—92 | 1890—91 | 1891—92 | 1890—91 | 1891—92 | 1890—91 | 1891—92 | 1890—91 |
| 1787—12 | 1803—2 | 395—37 | 15—30 | 1391—15 | 1787—12 | ·9 | 1 |

16. It will be seen that 395 acres and 37 guntas of land were taken up for cultivation notwithstanding the scarcity this year and that the extent of cultivable waste is insignificant.

17. The Village, Taluka and Huzur Accounts are properly kept according to Mr. Symonds' forms of accounts. A proper check over them by way of inspection is kept by the Karbhari and the newly appointed Daftardar.

18. The Jamabandi of the 6 Thanas comprising the Aundh State was made by myself, my son and the Karbhari.

19. Out of the 5 boundary disputes which were awaiting disposal at the end of 1890-91, 4 have been disposed of.

20. No estates belonging to wards were under the management of the State.

## CHAPTER III.

### PROTECTION.

(*a*) *Legislation.*

21. The following Acts and regulations are in force in the State as far as practicable :—

*Government of India Acts.*

No. XLV of 1860, Indian Penal Code.
„ VII of 1870, Court Fee Act.
„ I of 1871, Cattle trespass Act.
„ I of 1872, Evidence Act.
„ IX of 1872, Contracts
„ X of 1873, Oaths and Solemn affirmation.
„ I of 1877, Specific Relief.
„ III of 1877, Registration.
„ XV of 1877, Limitation of suits.
„ I of 1878, Opium.
„ XI of 1878, Arms.
„ I of 1879, General Stamps.
„ XXI of 1879, Extradition.
„ X of 1882, Criminal Procedure Code.
„ XIV of 1882, Civil Procedure Code.
„ VIII of 1890, Wards Act.

*Bombay Regulations and Acts.*

No. II of 1827, Pleaders.
„ VIII of 1827, Heirs, Administrators and Executors.
„ VIII of 1867, Village Police.
„ III of 1869, Local Funds.
„ III of 1874, Wattan Act.
„ III of 1876, Mamlatdar's Court.
„ V of 1878, Abkari,
„ V of 1879, Land Revenue Code with Rules.
„ XVII of 1879, Agriculturists' Relief.
„ II of 1890, Salt.
„ IV of 1890, District Police.

22. The Mamlatdar's Court Act is in force subject to the reservation that appeals against the Mamlatdar's decision would be entertained.

23. The Agriculturists' Relief Act afforded relief to the Agriculturists at the commencement but latterly it having been found to work prejudicially to their interests it has been abolished. Before the passing of the Act cultivators were able to obtain loans like other men after mortgaging their lands but for sometime past they have found it difficult to get any money without selling their fields. This state of things is not desirable. Verbal agreements to restore lands to the cultivators on their paying up their debts are made by creditors but in many cases they are not fulfilled. This creates bitter enmity between the parties which is prejudicial to the well-being of the people in general.

24. The following Acts were newly introduced as being necessary.

No. 36 of 1858 regarding Lunatics.
„ 13 of 1859 regarding breaches of contract by artificers and workmen.
„ 6 of 1864 Whipping Act.
Such portion of act 14 of 1866 as relates to the opening of private letters by other persons.
No. 10 of 1870—Land acquisition.
„ 7 of 1878—Forest.
„ 7 of 1889—Succession Certificate.
„ 6 of 1873 } Municipal Acts.
„ 2 of 1884 }

(*b*) *Military.*

25. There is no Military force entertained in the State.

(*c*) *Police*

26. There have been vast changes in this branch of the Administration and they have improved the efficiency of the Police to the greatest possible extent. Government in their Resolution marginally noted suggested that the Police force should be reorganized as recommended by the Commissioner and I gave effect to this suggestion at once.

G. R. No. 8413, dated 23rd November 1891, Para 7.

27. In place of a lowly paid Inspector of Police, whose appointment was objected to by the Commissioner, C. D, I appointed one of my Mankaris or Body guards, an intelligent and active Maratha officer enjoying a service income of Rs. 1,200 per annum, as Inspector of Police with extra travelling allowance of Rs. 10 per month.

28. Two other Mankaris, Marathas by caste, enjoying annual incomes of Rs. 500 and 300 were appointed as Fauzadars for the Head Quarter towns of Aundh and Kinai respectively.

29. The salaries of other Chief Constables and all Police peons have been raised to the standard mentioned in Appendix No. VI.

The number of Sowars has increased from 2 to 11.

30. Compared with the salaries enjoyed by the Chief Constables under the British Government the salaries assigned by me to some of my Chief Constables would appear smaller but when the territorial charges of both are taken into consideration they would appear to be ample and are equal to those paid in other Native States yielding revenues larger than mine.

Each Taluka under the British Government comprises from 150 to 200 villages and the Chief Constable in charge of it is paid Rs. 50 monthly. My whole Jaghir consists of 72 villages only and for these in place of one I have 5 Chief Constables as under.

| No. | Name of Stations. | No. of villages comprising each Station. |
|---|---|---|
| 1 | Aundh ..... | 1 |
| 2 | Kinai ..... | 2 |
| 3 | Kundal ..... | 20 |
| 4 | Atpadi ..... | 32 |
| 5 | Gundal ..... | 17 |
| | | 72 |

In short the position of the Chief Constables in my state is equal to that of Head Constables on Rs. 12 in charge of Police posts under the British Government.

31. The number of Shet Sanadis is 86 as compared with 84 in the previous year. To make this class of servants more useful I supplemented the landed income of 16 of them who were employed to assist the Taluka Treasury guards by cash allowances of Rs. 12 each per annum. These Shet Sanadis hold service Inam lands and are similar to Gadkaris in character.

32. In 1855 the British Government took from me in exchange my ancestral Head Quarter town of Karad. At this place there is a citadel guarded by 95 Nayakawadis as per margin who are remunerated by a yearly remission of the assessment of my Ryatava land cultivated by them. Since the transfer I removed my Head Quarters to Aundh and Kinai and the Mamlatdar's Thana at Karad to Kundal. In consequence of this I have no work for these 95 Nayakwadis at Karad itself and they have flatly refused to serve at my new stations.

| | |

| Sowars ..... | 6 |
| Hornblower ..... | 1 |
| Farrier..... ..... | 1 |
| Carpenters..... | 4 |
| Subnis..... | 1 |
| | 95 |

33. These 95 men have each from 5 to 25 subsharers. They commit riots in the citadel with impunity because I have no criminal jurisdiction there and other people are afraid to go and lodge complaints before the Mamlatdar of Karad, against the body. It being objectionable on all grounds to have such a large number of idle, disobedient and riotous men in my citadel at Karad, I brought my proposal for dispensing with the services of these men like Gadkaris to your and the Commissioner, C. D's. notice through my Karbhari and have submitted the same for their settlement in my letter No 69 dated 29th February last. An early sanctiont hereto is awaited.

34. The proportion of the stipendiary Police together with the Shetsanadis and Nayakawadis to the population of the State according to the census of 1891 is 1 to 270 souls.

35. Three Chief Constables and one constable were dismissed and 5 constables degraded for inefficiency. The whole Police force has been rewarded with an increase of salary.

36. Out of the total number of 60 stipendiary Police 17 persons or 28 per cent are able to read and write.

37. The Police of the Aundh State are mostly armed with batons and swords. As there is no military force and as these men are required to guard treasuries at out stations I applied for permission to indent for a few fire-arms and have got the same recently.

38. The Police are being dressed with Khaki colored coats and trousers with a red Rumal or turban. This dress was approved of by you at Kundal and will be universally adopted.

39. The Police force being now most efficient and properly superintended has done very good work. In the first place notwithstanding the famine the total number of offences reported, underwent a reduction from 400 in last year to 285 during the year under report.

40. There has not been a single decoity and the 3 murders that were committed in the Gundal Mahal were at once detected. These murders were committed under peculiar circumstances The first was of an old woman by her neighbour for the sake of her ornaments. The second was that of the father by the son with the view of inheriting his property at once and the 3rd was that of a mistress by her servant simply because she upbraided him for placing his hand on her body with intent to outrage her.

41. Of the 9 offenders one was acquitted two were admitted as Queen's evidence and of the six remaining, four were sentenced to be hung and two transported for life. The sentences of death of 3 of the 4 convicts have been carried into execution and the sentence of the fourth is awaiting the sanction of Government.

42. The vigilance of the Police can be ascertained from the facts that they traced and apprehended one of the offenders in the Kapil murder case who had absconded 3 years ago. They also apprehended and made over to the British Government with my permission a person who had murdered his wife at Sangola in the British territory and had taken refuge in the Atpadi Mahal of this state.

43. During the year under review the value of the preperty stolen amounts to Rs. 844-6, against Rs. 3,196 in the previous year. The percentage of property recovered is 52 as compared with 20 in the preceding year.

44. Last year there were only 4 Police posts. This number is increased by 3 this year making a total of 7 Police posts for the speedy disposal of Police business.

45. The expenditure incurred on account of the Police Department is more by Rs. 5756-15-6 than in the preceding year owing to the increase of the salaries of the Police force and the transfer thereto of three mankaris and 9 Sowars.

46. Besides the Police force mentioned above there is an irregular force called Shibandi. The total strength of which numbers 55. Out of these 47 are armed foot men and 8 Sowars. These men are generally employed in guarding Huzur Jail, Treasury and supplying escorts.

47. The total number of Police Patels is 72. None of them have been invested with the special powers under sections 14 and 15 of the Village Police Act VIII of 1867. Three patels were dismissed, two suspended and three fined. One was rewarded with a silver anklet in the open Darbar in the presence of the Kharbhari for meritorious conduct in connection with a murder case. The work of these village officers was on the whole good.

(d) *Criminal Justice.*

49. The various Criminal Courts at work during the year are

| | Nos. |
|---|---|
| The Huzur Criminal Court presided over by myself ..... | 1 |
| The Karbhari and District Magistrate ..... | 1 |
| The Sarsubhedar and Magistrate, First Class, Aundh ..... | 1 |
| Mamlatdars, 2nd Class Magistrates..... | 3 |
| Third Class Magistrates ..... | 2 |
| | 8 |

It will be seen from statement No 10 that I had 10 criminal cases against 3 in the previous year to dispose of.

The Karbhari disposed of 62 cases more than his predecessor.

In his capacity of District Magistrate the Karbhari exercises efficient control over all the subordinate Magistrates.

50. The total number of offences brought to trial before all the Courts is 295 against 321 in the previous year. The percentage of convictions to the number of accused brought to trial is 60·4 against 54·7.

No cases remained undisposed of at the end of the year.

51. There was one case of mischief by fire in which two cultivators set fire to their banker's house, because he would not give up their lands. Both the men were sentenced by me to 5 years' rigorous imprisonment and to pay a fine of Rs. 100 each in default one day's further rigorou imprisonment for each rupee of the fine. This had a good effect against arson. In like manner the Karbhari's sentencing three Mahars for poisoning cattle from 1 to 1½ year's imprisonment put a shop to cattle poisoning. The sentences of death by hanging awarded by you to the Gundal murderers and the carrying out of them publicly in two places in my State had a most deterrent effect on crime in general.

### Appeals.

52. During the year under report the Huzur Appellate Court dealt with 6 appeals against 14 of the previous year with the following result.

| | |
|---|---|
| Sentence confirmed ..... | 2 |
| ,, Modified ..... | 2 |
| ,, Reversed ..... | 1 |
| Remanded for further inquiry ..... | 1 |
| | 6 |

No appeals remained undisposed of.

### Revision.

53. As a court of revision I quashed the convictions and sentences passed in two cases by Dadasaheb Pratinidhi, the late Hoozoor Magistrate, and ordered their retrial by the new Karbhari.

### (*e*) *Extradition.*

54. During the year demands were made by the Political Agent Satara for the surrender of two accused persons and by this State for the surrender of 10 accused persons who had taken refuge in the British territory. There has been no want of reciprocity in the extradition of offenders on the part of neighbouring States.

### (*f*) *Prisons*

55. The Jail at Anudh is called the Hoozoor Jail. It consists of three large cells for male prisoners and a small one for female prisoners. There is besides a large veranda for cooking purposes. The average number of prisoners in the Jail is only 13. As the Jail building at Aundh was not declared fully satisfactory by you and the Commissioner, C. D., I have commenced the construction of a suitable and well ventilated Jail at Kinai. It will be completed in the course of 4 or 5 months hence.

56. There are 4 lock-ups at the Taluka Stations. The short term prisoners are mostly confined therein. The Medical officer in charge of the Dispensary at Aundh looks after the health of the Jail population at the Huzur Jail.

All the convicts at the Huzur Jail and at the lock-ups enjoyed good health. No one died in Jail.

57. The Jail discipline is similar to that obtaining in Jails under the British Government. The convicts are employed principally on sweeping roads and clearing out Guttars.

58. The rates of rations in force in the Satara Sub-Jail have been introduced.

59. The expenditure incurred on account of the Jail Department amounts to Rs. 1953-8-7 against Rs. 1430-13-3 in the previous year.

60. The average period an accused is detained before trial is 1½ days.

(*g*) *Civil Justice.*

61. The number and designation of the Civil Courts in the year under review was as shown below.

| | |
|---|---|
| 1 | The Huzur Civil Court presided over by myself. |
| 1 | The Court of the Special Judge under the Agricul turists, Relief Act. |
| 3 | Courts of the Second Class Subordinate Judges. |
| 5 | |

62. The Court of the Sub-Judge for the town of Aundh was abolished as superfluous the maximum suits instituted therein being only 18.

63. The number and value of suits will be seen from the subjoined statement.

| | Name of Court | Suits for immovable property | | Money Suits | | Suits for other rights | |
|---|---|---|---|---|---|---|---|
| | | 1891-92 | 1890-91 | 1891-92 | 1890-91 | 1891-92 | 1890-91 |

| | | | | | | 37 | 48 |
| | | | | | | 178 | 162 |
| | | | | | Total Suits..... | 233 | 224 |

64. The value of the suits filed during the year amounts to Rs. 21616-3-5 against Rs, 26950-3-2 in the previous year.

65. There were only 55 suits remaining undisposed of against 58 in the preceding year.

66. The average duration of each suit is 128 days against 147 days in the previous year.

## SUITS UNDER THE AGRICULTURIST'S RELIEF ACT.

67. Among the total nmmber of the suits mentioned before, 138 were instituted under the Agriculturist's Relief Act as contrasted with 126 in the previous year. These, when added to 32 remaining undisposed of at the close of the year make up a total of 170 against 177 in the previous year. Out of these, 141 were disposed of leaving 29 at the end of the year for disposal.

The Agriculturists' Relief Act has been abolished for reasons given in para 23.

68. The following statement will show the work done by the Huzur Civil (appellate) Court of the Pant Pratinidhi

| Name of Court. | Opening Balance. | | Filed during | | Total | | Disposed of during | | Closing balance | | Value of appeals filed during | | How disposed of | | | | | Average duration | | | | | |

The fact that only 5 decisions of the Sub-Judges were reversed on appeal proves that they performed their duties satisfactorily.

EXECUTION

69. Statement No XIV will show that the Civil Courts had to dispose of 264 applications for the execution of decrees. Out of these 231 were disposed of leaving 33 pending at the close of the year.

Suits under the Mamlatdars' Court Act III of 1876.

70. During the year under review the Mamlatdars had to dispose of 55 suits against 29 in the previous year. Out of these 53 were disposed of.

The work was satisfactorily done except in one case in which the Mamlatdar's decision was reversed by me on appeal.

(h) REGISTRATION

*(h) Registration.*

71. The Huzur Registry office is kept at Aundh. The Karbhari has been invested with the functions of the District Registrar. The number of the Sub-Registry offices kept at Taluka stations is 5 as in the preceding year.

72. The subjoined table shows the description of the documents registered during the year as compared with those in the preceding year.

## MUNICIPAL ADMINISTRATION

73. Much has been done under this head. Last year an attempt was made to establish a municipality at Atpadi but owing to the opposition of the inhabitants thereof against any taxation it was set agoing at the close of this year only. A new Municipality has been established at Anndh on the very condition on which the one at Atpadi is established namely that the Municipality is not to be burdened with the expenditure on account of Schools and Dispensaries.

74. Municipal Administration becomes unpalatable when the income thereof is applied for purposes other than those of keeping the streets clean, securing a supply of drinking water and providing accommodation for purposes of nature.

75. The Village Sanitation Act is more liked by the people and therefore I have introduced it in three important villages in my state viz; Kundal, Dighanchi and Kinai.

Bombay Act No. 1 of 1889

The following Statement shows the revenue realized from two of the five towns within the year of report.

| No. | Name of Municipality. | Balance on the 6th June 1891. | Receipts during 1891-92. | Total. | Expenditure during 1891-92. | Balance on 5th June 1892. | Remarks. |

| 5 | Kinai ... ... ... | ... | ..... | ..... | ..... | ..... | |

76. The income must necessarily be small at the beginning. It will increase accordingly as the people become more and more accustomed to the Self-Government system.

## CHAPTER IV.

### Production and Distribution.

### ( *a* ) *Agriculture, Weather and Crops.*

77. A statement of the agricultural stock (Appendix XVI) is appended. It proves that the agricultural population is in a state of prosperity. The increase in the number of bullocks, cows, carts and ploughs is as shown below.

| | 1891-92 | 1890-91 | Increase. |
|---|---|---|---|
| Cows ... ... ... ... | 16245 | 14288 | 1957 |
| Bullocks ... ... ... | 21958 | 20042 | 1916 |
| Sheep and goats. ... | 73388 | 69839 | 3549 |
| Ploughs. ... ... ... | 1578 | 1332 | 146 |
| Carts ... ... ... ... | 1115 | 1037 | 78 |

At the beginning of this pear under a misconception of the gravity of the impending distress, cattle were sold at nominal prices and the well-to-do cultivators must have taken the opportunity of purchasing them. There has been a decrease in the number of male and female buffaloes but I am informed that a greater number of these animals belonged to the wandering tribes and stone-cutters, Wadars &c., who have migrated to countries where fodder is reported to be plentiful.

78. The rain fall at the several stations was as follows :—

| | |
|---|---|
| Aundh.....15 inches. | Atpadi.....10 inches. |
| Kundal ...12 „ | Gundal ... 5 „ |

My Jahagir villages are scattered from Satara to Bijapur a distance of over 120 miles. The fall of rain is more or less in proportion to the distance of the villages from the Sahyadri range of hills. Twenty villages near Karad comprizing the Kundal Taluka had a good rain-fall except Kundal itself, and therefore there was no famine there. The Atpadi Taluka consisting of 32 villages which is situated between Jath and Khanapur Taluka had a scanty rain fall and therefore the outturn of crops there was annas 4.

79. Atpadi having however got large waste tracts they afforded sufficient grazing for cattle till the commencement of the hot season. The cultivators in this Taluka are accustomed to draught every third or fourth year and they produced by well irrigation, which is plentiful, fodder called kudwal in the months of April and May.

80. The Gundal Thana situated near Bijapur comprizes 17 villages of which seven are situated on the bank of the river Krishna. This river over-flows its banks for miles when the monsoon commences near the Ghats. In lands submerged by this over-flowing splendid Jowari Crop was raised as usual but it was not at all sufficient for the entire Taluka population. A panic of famine throughout India prevailed at the beginning, and cultivators commenced to sell their cattle at nominal prices, but it soon subsided. I ordered the Mamlatdar of Gundal to allow free-grazing in all my Kurans, and started relief-works as detailed under the Head Public Works to help the poor. Every village has got a number of men who have got no lands of their own but who subsist by working as field labourers, and owing to the want of this their legitimate work, these men wanted relief principally and about 300 of them came

to the Relief Works during the height of the scarcity. Latterly owing to a good rain fall these labourers are disappearing of themselves. In the Atpadi Mahal only 50 or 60 labourers belonging to the Mhar and Mang classes came to the works.

( *b* ) *Wages and labour*

81. The wages per diem for skilled and unskilled labour were as follow :—

| | |
|---|---|
| Carpenter | 8 to 12 annas |
| Mason | 8 to 10 annas . |
| Cooli | $1\frac{3}{4}$ to 3 annas |
| Cart of two bullocks | 12 annas to one rupee. |
| Ponies | 10 annas to 12 annas |

These rates save those of coolies are nearly the same as in the previous year.

82. The prices of the staple food grains are.

| | | | | |
|---|---|---|---|---|
| Jowari... | ... | ... | ... | 29 pounds per rupee |
| Bajri . | ... | ... | ... | 25 do do |
| Tur dal | ... | ... | .... | 16 do do |

( *c* ) *Forests*

83 . I have this year transferred a very large extent of land for the formation of Forest Kurans.

| | Area | | |
|---|---|---|---|

| | 9965 | —32 | |

Owing to want of funds no separate Forest Establishment has as yet been entertained but it will be by and bye. The forest conservancy is at present entrusted to Mamlatdars and village officers.

( *d* ) *Trade and Manufactures.*

84. There are no factories or other workshops in the State.

85. The chief articles of export are wheat, cotton, coarse-sugar, ground-nuts, Jowari and Bajri. The chief articles of import are piece-goods, stationery, sugar, grocery, kerocine oil &c. There is however no extensive traffic in these articles. The articles imported are mostly for local consumption. Every facility to commerce is afforded. No transit duties and town duties are levied and no Road Toll bars exist.

( *e* ) *Fairs.*

86. The important fairs in the State are those at Aundh, Boblad and Karsundi. The fairs at Aundh and Kharsundi are held annually in the months of January and April respectively. The fair at Aundh was attended by about four thousand persons and that at Kharsundi by upwards of ten thousand persons. They are held in honour of the Deities

Yamai and Nath respectively. The fair at Boblad in Gundal Thana is held annually on the last day of Magh *i. e.* at the close of February. It lasts for four days and is held in honour of a high-priest of the Jangum caste. At the fair of Kharsundi a large cattle market is held and dealers in cloth and brass-pots come from long distances with their articles for sale. It has been resolved to levy a pilgrim tax of one anna at Aundh and half an anna at Khursundi for the benefit of the pilgrims themselves.

*(f) Public Works.*

87. The following statement will show the original works done and repairs made to public buildings &c., in the State.

*** This contains a sum of rupees 100936-0-6 contracted as debt last year while there is no such debt this year and therefore the receipts for current year are actually more by rupees 39629-8-11 than the year preceding.

90. The subjoined statement will show the receipts of the year under review as compared with those of the three previous years.

91. Last year a sum of Rs. 1,00,936-0-6 was contracted as a debt from a banker at Yewala. As this sum is included in the amount of last year's receipts they appear greater but actually they are not so. This year not a single pie has been contracted as debt and therefore if the

amount of debt be discarded from the last year's receipts they are less than the current year by Rs. 39,629-8-11. This increase is principally to be accounted for as follows :—

| | | | | |
|---|---|---|---|---|
| 1 | Imposition of Chauthai on Inamdars ... ... | 10,196 | 15 | 6 |
| 2 | Recovery of advances ... ... ... | 29,270 | 9 | 5 |

92. The expenditure for the year under review is less by the remarkable sum of Rupees 66192-2-8 and this sum would have been still greater had I not increased the salaries of all Establishments at a cost of over Rupees 3400 per annum in compliance with the advice of yourself and the Government.

93. The above reduction of expenditure is attributable to the following causes.

| Increase of expenditure | | | | Decrease of expenditure | | | |
|---|---|---|---|---|---|---|---|
| 1. Remissions | 1971 | 4 | 6 | 1. Khasgi expenditure | 18872 | 2 | 5 |

*N. B.*—Last year after contracting a debt of Rs. 1,00,936 0 6, a sum Rs. 56,933-11-7 was paid off. This yaer without borrowing any money, Rupees 28,826-1-3 were paid or in other words only Rs. 28,107-10-4 less than last year.

94. From the above particulars, it will be seen that there was a large reduction in my household expenditure and stabling establishment to the amount of Rs. 20,067-2-6.

95. The reduction of Rs. 10,196-15-6 in alienations is attributable to the imposition of Chauthai on Inams and Devasthans.

96. There was a large amount of cash allowances to different Deities. Pending the liquidation of debt I have reduced those allowances by about Rs. 10,000, but the amount actually brought to account this year is small, viz., Rs.3,195-10-9. This is to be accounted for by the fact that the reduction scheme came into effect after the year under review had far advanced.

97. Strict economy was observed in not making advances to different Departments and to this is attributable the decrease of Rs. ~~22,114-4-7~~ 21914-4-7 under the head Advances.

98. Last year a loan of one lac was taken from a banker at Yewala and Rs. 56,933-11-7 were paid in liquidation of debts. This was no repayment of debt whereas this year without contracting any debt I have been able to pay off the following liabilities.

| | |
|---|---|
| Debts..... | 28,826-1-3 |
| Arrears of Hakas ..... | 11,506-13-6 |
| Total..... | 40,332-14-9 |

This large repayment of debts notwithstanding the increased expenditure on Public or Famine Relief works and the large outstanding balance of Rs 36393-13-7 is due solely to the strictest economy observed by me. The debt which amounted to one lac and thirty three thousand last year has now been reduced to a little less than a lac of Rupees. This result is most satisfactory, ensuring as it does the repayment of the whole debt within 4 years hence instead of 10 years' period, estimated in the sixth para of the G. R. No. 8413, dated 23rd November 1891.

## LOCAL FUNDS.

### Receipts and Expenditure.

100. Statement (Appendex No. XVII. B.) will show an increase of Rupees ~~569-11-2~~ 201-3-2 in receipts caused principally by the recovery of outstanding balances, and other miscellaneous causes. The River Krishna is not fordable during the greater part of the year in the Gundal Mahal and therefore two ferry boats for the convenience of travellers have been established. This has created a new income of Rs. 42-3-6 during the current year.

101. The Local Fund Establishment Salaries not having been punctually paid were in arrears. Their payment has caused the increase apparent under the head Expenditure.

102. The Vedashala has been totally abolished agreeably to the opinion of the Commissioner, C. D., it not being of use to all classes. In like manner the annual contribution to the Aundh Library has been reduced to Rs. 36, a sum barely sufficient to keep the library building clean and in good repairs. The existence of small expenditure under the above two heads in the statement is attributable to the carrying out of the reduction scheme in the middle of the year under review. Contributions to the Sarvajanik Sabha and Gayan Samaj at Poona have been stopped.

103. The manufacture of earth—salt in the State has been suppressed and the monopoly to give licenses for the sale of Country spirits has been made over to the British Government until the end of the year 1894.

## CHAPTER VI.

*Vital Statistics and Medical Services.*

104. The two charitable institutions viz—the Dispensary at Aundh and the Dispensary at Atpadi have been progressing favourably. The subjoined table will show the main particulars concerning the medical relief afforded to the patients.

*Table I.*

| Dispensary | Number of patients treated | | Result. | | | | Expenditure | Daily Average. |
|---|---|---|---|---|---|---|---|---|
| | In-door | Out-door | Discharged | Absented | Died | Remaining under treatment. | | |
| Aundh... | 1 | 4353 | 3621 | 688 | 13 | 32 | 970 1 6 | 36·6 |
| Atpadi... | 0 | 3905 | 2789 | 1006 | 61 | 49 | 576 3 3 | 36·5 |

105. Compared with last year the number of patients treated this year in the Dispensaries at Aundh and Atpadi was larger by 162 and 504 souls respectively. Among the patients treated 2,367 were British subjects.

106. The number of major and minor operations performed by both the Hospital Assistants will be seen from the following table.

| | Major operations | Minor operations | Total |
|---|---|---|---|
| 1. Raoji Shivaram of Aundh .....3 | | 176 | 179 |
| 2. Abaji Balkrishna at Atpadi .....2 | | 171 | 173 |
| | 5 | 347 | 352 |

107. Both the Hospital Assistants performed operations in difficult cases of midwifery successfully. Three such operations were required 1 at Aundh and 2 at Atpadi. Both the Assistants deserve praise for the careful manner in which they performed their duties.

108. Dr. Street, the Deputy Sanitary Commissioner of the Central Division, visited the Atpadi Dispensary on the 2nd of February last and he recorded an opinion that "every thing is in good order." The institution appears to be progressing and the attendance increasing."

109. The subject of locating these institutions in more suitable buildings and supplying them with more instruments has attracted my attention and will receive due consideration at an early date.

110 The increase in the number of deaths is attributable to the Cholera and Influenza epidemics which prevailed in the year under review.

111. One native physician is located at Kundal and his services are availed of by those who do not like to take English medicines on religious scruples.

112. The prevailing diseases during the year were influenza and cholera. Of the 339 persons attacked with cholera 151 died. The epidemic lasted for 2 months only, viz—during the months of July and August 1891, Prompt measures were taken to check the spread of the disease. With this exception the public health was good.

113. The medical department was maintained at a cost of Rupees 1699-7 against Rupees 1714-3-0 in the previous year. This slight decrease calls for no remark.

*Births and Deaths.*

TABLE II.

114. The subjoined table will show the total number of births and deaths in the State during the year under review.

| | 1891-92 | 1890-91 | Increase | Decrease |
|---|---|---|---|---|
| Births ..... | 2502 | 2743 | ... | 241 |
| Deaths..... ..... | 1904 | 1553 | 351 | ... |

The birth rate per 1000 of the population is 38 and the death-rate 29.

## SANITATION AND VACCINATION.

115. No separate establishment has been maintained for Sanitation. The work is performed by order of the village and Taluka officers. The new Karbhari paid particular attention to this subject and the result was very satisfactory and very creditable to all concerned. Large masses of prickly pear which hitherto infested almost every village have been cut down and burnt. The clearance of this noxious vegetation extinguished the shelter that was hitherto afforded to venomous reptiles which have been killed in large numbers. I am informed by the Mamlatdars of Kundal and Atpadi that you and the Commissioner, C. D, expressed satisfaction at the activity and energy displayed in the extermination of the prickly pear at Kundal and Dighanchi in the Atpadi Thana.

116. To prevent overcrowding of villages five new habitations (peths) have been started but it is to be regretted that the building work was hampered by the scarcity this year.

117. I have already noticed under the head municipalities that the municipal Act has been introduced into two towns and the Village Sanitation Act in three principal villages of the State.

118. Although the other villages have not been brought under any of the acts still the Sanitation thereof has been improved by the construction of petty roads and the removal of manure pits beyond the village sites as far as practicable.

119. The scarcity of drinking water felt in two villages in the Gundal Mahal was removed by digging out a well in one and clearing out a well in another. A Hel or a well in the bed of a stream was constructed at Kundal to supply drinking water to the people of the town.

120. The following table will show the progress of vaccination in the State during the year under review as compared with that in the previous year.

| Operation by whom performed | | Number of persons vaccinated in | | Result | | | |
|---|---|---|---|---|---|---|---|
| | | | | Successful | | Unsuccessful | |
| | | 1891-92 | 1890-91 | 1891-92 | 1890-91 | 1891-92 | 1890-91 |
| State Vaccinators. | Govind Nilkant | 1494 | 1256 | 1465 | 1020 | 29 | 37 |
| | Kashinath Ramchandra | 699 | 754 | 684 | 742 | 15 | 12 |
| Government | Vaccinators of Satara, Koregaum and Khatav Talukas | *221 | 162 | Unknown | | | |
| | Total | 2414 | 2172 | | | | |

*12/ The vaccinator of Atgaon states that 199 children were not inspected by him & therefore he does not know whether vaccination was successful in their case or not.

122. The number of children vaccinated by Kashinath Ramchandra is less than last year. The reason of that can be better explained by Dr. Street, Deputy Sanitary Commissioner.

123. The cost of the Department was rupees 542-1-10 against 480-13-7 in the preceding year. The slight increase calls for no remark.

124. The work of the vaccinators was supervised by the vaccination Inspector of the Satara District.

## CHAPTER VII.

*Instruction.*

125. There are 72 villages in the State. The number of schools during the year under report is 27, the same as last year. As shown in the subjoined table only one aided school for Mhars was started at Kinai.

| Number | Description of schools | Number of pupils on the Roll on 31st March 1892 | Number of Pupils on the Roll on the 31st March 1891. | Average daily attendance. |
|---|---|---|---|---|
| 24 Schools for boys ..... | Primary. | 950 | 989 | The daily average attendance of each school will be found in the Appendix XIX prepared by the Educational Inspector of Aundh. |
| Ditto for Girls ..... | Ditto | 63 | 69 | |
| Aided Schools for Mhars at Kinai... | Ditto | 19 | 0 | |

126. The total number of boys under instruction is 917 which when contrasted with 962 in the previous year, shows a decrease of 45 which is mainly due to the present scarcity. Out of these, 33 study the Standard V, 83 study the IV, 118 study the III, 153 study the II, 170 study the I, and 363 boys are below Standard.

127. There are 3 schools for the girls one at Aundh, one at Kinai and one at Dighanchi as in the previous year. Including the 33 girls attending the boys' schools the total number of girls under instruction amounts to 96 as in the previous year. Fourteen girls study the 2nd standard, 19 study the 1st Standard and 63 girls are below Standard.

128. The two Vedic schools which existed until the middle of last year were abolished in compliance with the opinion expressed by the Commissioner, C. D., to the effect that as they were not eligible to all classes of subjects they should not form a charge on Local Funds.

129. The Educational Inspector of the State reports that the result of his examinations showed an improvement in the progress of the schools.

130. The newly started Mhar's school at Kinai is progressing favorably.

## CHAPTER VIII

### Miscellaneous.

131. There are no wild animals infesting the State. Strenuous efforts have been made this year for the destruction of snakes, by the extermination of prickly pear.

132. There are no Telegraph offices in the state but only 4 Post offices viz., 1 Aundh, 2 Kinai, 3 Kundal, and 4 Atpadi.

133. The State records are in good order.

134. There are no printing presses nor newspapers.

135. There are reading rooms at Kinai and Aundh. The latter was hitherto supported by the Local Funds but that support is now withdrawn in compliance with the wishes of the Commissioner, C. D., and the subscribers left to manage for themselves.

136. There are no taxes on trades and professions and no toll bars.

137. For administrative convenience, I have applied for the exchange of my 17 villages situated in the Bijapur District at a distance of 100 miles from my head quarter station for other villages of equal value situated in the Talukas of Koregaum and Khatav, and trust that the exchange will be sanctioned at some future date.

138. I have duly carried out all the suggestions made by yourself, the Commissioner, C. D., and Government for the better administratio n of my State and in addition thereto have effected many other reforms such as Forest and Municipal conservancy and establishment of 5 new Peths &c. The debt is being rapidly paid off and so far as I can judge there is nothing wanting. There are no petitions of mal-administration against me and I am sorry to say that the only petitioner of note is my junior wife's son Dada Saheb who wants to succeed me in preference to that of my elder wife's son and to have the management of the State during my lifetime.

139. In conclusion I beg to thank you, the Commissioner, C.D., and the Government for their advice and to bring to the particular notice of you all the energy, ability and vast experience displayed by my new Karbhari Rao Bahadur Narayan Bhikaji Joglekar a pensioned Deputy Collector of the British Government.

I have the honour to be,

Sir,

Your most obedient servant.

(Signed) SHRINIVASRAO PURUSHRAM

Pandit Pant Pratinidhi,

Chief of the Aundh State.

*N. B.*—Explanatory remarks showing how this statement tallies with Statement No. 9.

1. There were 295 cases only 10 out of these were committed to the Huzur Court No. I. Deducting these 10 doubly entered in column 2 from 305, the remainder tallies with Statement No. 9 column 4.

2. Column 12 and 13 shows number of persons discharged and acquitted as 197 ; add to this number 1 acquitted by the Political Agent and the number agrees with that given in Statement No. 9, Column 17.

The number convicted by the Courts of the State is 243 ; add to this 8 convicted by the Politial Agent and the number 251 mentioned in column 9 of the Statement No. 9. will agree.

# ADMINISTRATION REPORT OF THE AUNDH STATE,

IN THE SATARA COLLECTORATE,

FOR 1302 FASLI, A. D. 1892-93.

From,

SHRINIWASRAO PURASHRAM PUNDIT,

PUNT PRATINIDHI,

Chief of the Aundh State

To,

R. E. CANDY, Esquire,

Political Agent,

Satara.

*Kinhi, dated 5th July 1893.*

Sir,

I have the honor to submit the Annual Administration Report of the Aundh State for the year 1302 Fasli ending with 5th June 1893.

I to IV and VI to XVII. 2. The usual statements as per margin accompany.

As there is no Military Force in the State Appendix No. V, relating thereto has not been appended.

## CHAPTER I.

### Political.

3. The State of Aundh has been in subsidiary alliance with the British Government and the Government of Bombay exercises Political control over it. No tribute is paid to the Paramount Power.

4. In September 1892, I had the pleasure of an interview with His Excellency the Right Hon'ble Lord Harris, Governor of Bombay, and the Hon'ble Member of the Council. In July last I had an interview with you at Satara; and you were pleased to visit my Head-quarter towns of Kinhi and Aundh in December and March last respectively, and express satisfaction at the improvements introduced in all Institutions.

5. I visited most of the villages, comprising five of the six Thanas of my State and deputed my first wife's son, Bhagwantrao Shriniwas, to visit the sixth Thana Gundal with the object of ascertaining the condition and wants of my subjects.

## CHANGES IN THE ADMINISTRATION.

6. There have been no changes in the Administrative machinery this year. Those effected last year have proved quite sufficient and efficatious.

## CHAPTER II.

### Administration of Land.

7. The subjoined table shows the amount of Survey work done and still remaining to be done in the State.

| No. | Name of Thana. | No. of villages in each. | No. of villages in which Survey operations including the introduction of rates have been completed. | No. of villages in which the measuring operations having been completed Survey assessment is to be introduced. | No. of villages still to be Surveyed and assessed. | No. of villages in which the revised rates are to be introduced. | Remarks. |
|---|---|---|---|---|---|---|---|
| | | 1 | 2 | 3 | 4 | 5 | 6 |
| 1 | Atpadi..... | 32 | 32 | „ | „ | „ | |
| 2 | Gundal ..... | 17 | „ | 17 | „ | „ | |
| 3 | Kundal ..... | 20 | „ | „ | 20 | „ | |
| 4 | Aundh..... | 1 | „ | „ | 1 | „ | |

| 6 | Mahuli..... | 1 | „ | „ | 1 | „ | |
| | Total..... | 72 | 32 | 17 | 22 | 1 | |

8. Government by their Resolutions in the Political Department Nos. 5593 and 7664, dated respectively the 2nd September and 3rd December 1892, were pleased to appoint Mr. J. C. Whitcombe of the Survey Department to do the unfinished Survey-work as detailed in columns 3 to 5. This Officer is carrying on his duty vigourously and he informs me that he will complete it within 2 years.

9. There are no special tenures in the State.

### *Inam Settlement.*

10. The Settlement of Inams has taken place agreeably to the rules approved of by yourself and the Commissioner, C. D. (vide correspondence ending with my letter No. 35, dated 14th April 1893). All grants made by myself or by my father subsequent to the Treaty of 1820 have been subjected

to Chauthai or quit rent at 4 annas in the Rupee according to the principles of the Summary Settlement Act No. II of 1863, while those of a date anterior thereto have been continued without any quit rent.

## WASTE LANDS.

11. The following table shows the extent of waste lands taken up for cultivation and still remaining waste.

| Extent of Cultivable area for. | | Taken up in. | | Waste remaining at the end of the year. | | Percentage of cultivable land lying waste in. | |
|---|---|---|---|---|---|---|---|
| 1891-92 | 1892-93 | 1891-92 | 1892-93 | 1891-92 | 1892-93 | 1891-92 | 1892-93 |
| 1787-12 | 1391-15<br>Add out of Forest. 825-26 / 2217-1 | 595-37 | 915-26 | 1391-15 | 1301-15 | .07 | .07 |

The extent of waste land taken up for cultivation during the year reported on is larger than the year preceding. To meet the wants of the people a small extent of land included in Forest Conservancy last year was excluded therefrom.

12. The village, Taluka and Huzur accounts, are kept up mostly according to Mr. Symonds' forms of accounts. A proper check over them by way of inspection is kept by the Karbhari and the Daftardar.

13. The Jamabandi of five Thanas was made by myself during my tour and that of the sixth Thana by my son Bhagwantrao.

14. Boundary disputes :—None.

15. No estates belonging to Wards were under the management of the State.

## CHAPTER III.

### PROTECTION.

(*a*) *Legislation.*

16. My Administration Report for 1891-92 contains the numbers and names of the Acts and Regulations in force in my State. No new laws have been introduced this year.

(*b*) *Military.*

17. There is no Military force entertained in the State.

(*c*) *Police.*

18. The Police force, which was last year re-organized and placed on a proper footing, in compliance with the instructions of Government, has proved most effective in suppressing crime. The number of offences reported to the Police in 1890-91 was 400, in 1891-92, 285, and in 1892-93, 189. There has neither been a single dacoity nor any serious offence in regard to property.

| | |
|---|---|
| Police Inspector ..... | 1 |
| Chief Constables ..... | 5 |
| Constables ..... | 51 |
| Sowars ..... | 11 |
| | 68 |

19. There is a belief among the ignorant people, that the begetting of three daughters in succession is a prognostication of misfortune. Misled by this superstitious idea one Mahratta woman in the Atpadi Thana, threw her newly-born third daughter into a well. This woman was charged with murder and transported for life by the Acting Political Agent, Satara, Mr. Lamb. With this exception, there have been no murders which numbered three last year.

20. The strength and cost of the stipendiary Police will be seen from Appendix No. 6. There are besides 136 Shetsanadis. Of these 91 or two-thirds of them are employed on Police duties. To make this class of servants more useful I have supplimented the landed income of 18 of them who were employed to assist the Taluka Treasury-guards &c. by cash allowances of Rs. 12 each per annum. These Shetsanadis hold service Inam lands and are similar to Gadkaris in character.

Kundal 18.
Gundal 118.
136.

21. In consequence of the transfer of my ancestral Head-quarter town of Karad to the British Government, I had no work at Karad for the 95 Naikwadis referred to in paras 32 and 33 of my last year's report; and, as they flatly refused to serve elsewhere, I was obliged to disband the whole body, and employ new men in their stead.

22. The proportion of the stipendiary Police together with the Shetsanadis to the population of the State according to the census of 1891 is 1 to 409 souls.

23. One Police Constable was convicted of implicity in a case of house-breaking and theft and sentenced to undergo 6 months' rigorous imprisonment and to pay a fine of Rs. 50 in default to undergo one and a half months' further rigorous imprisonment, and one Head Constable was dismissed for neglect of duty in connection with the same offence. With this exception the conduct of the whole Police force was good.

24. Out of the total number of 62 stipendiary Police men 19 persons or 30 percent are able to read and write.

25. The Police men in my State are dressed like those in the service of the British Government. Those employed on the duty of guarding Treasuries are armed with the muskets lately supplied to me by the British Government and the rest with batons and swords.

26. The value of property stolen and recovered together with the percentage of recovery is contrasted below :—

| Year. | Value of property Stolen. | Of which recovered. | Percentage of property recovered. |
|---|---|---|---|
| 1892–93. | 1583–9. | 1156–7. | 73 |
| 1891–92. | 884–6. | 440–4- | 52 |

This shows that although the amount of property stolen was large, still the amount recovered was proportionately large also, and consequently the percentage of recovery is more satisfactory.

27. The Gundal Mahal consists of 17 villages. Of these 12 are near the Chief Constable's Head-quarter station, Gundal, but the other five are situated at a distance of from 32 to 40 miles. I, therefore, created a new Police post for these five villages and consequently the number of Police posts has increased from 7 to 8 with good results.

28. Besides the Police force mentioned above there is an irregular force called Shibandi. The total strength of which numbers 46. Out of these 43 are armed foot men and 3 Sowars. These men are generally employed in guarding Huzur Jail, Treasury and supplying escorts.

29. The total number of Police Patels is 72. None of them have been invested with the special powers under Sections 14 and 15 of the Village Police Act VIII of 1867, because they have not sufficient education. Two Patels were suspended and three fined for neglect of duty. With this exception the work of these village officers was on the whole good.

| | |
|---|---|
| 71 | Patels for 71 villages *i. e.* one for each. |
| 1 | Patel for the habitation of Mahuli. |
| 72 | |

30. Fifteen accidental deaths occurred viz :—

| | 1891–92 | 1892–93 |
|---|---|---|
| By Snake bite | 4 | 3 |
| „ Drowning in wells and rivers | 9 | 12 |
| „ Carried off by alligators | 2 | |
| „ Lighting | 1 | 0 |
| „ Fire &c | 1 | 0 |
| | 17 | 15 |

(*d*) *Criminal Justice.*

31. The various Criminal Courts at work during the year are :—

| | Nos. |
|---|---|
| The Huzur Criminal Court presided over by myself... | 1 |
| The Karbhari and District Magistrate ..... | 1 |
| The Sarsubhedar and Magistrate, First Class, Aundh... | 1 |
| The Daftardar, Magistrate Second Class Aundh..... | 1 |
| Mamlutdars, Second Class Magistrates ..... | 3 |
| Sub-Judge, Third Class Magistrate..... | 1 |
| Thanedars, Third Class Magistrates ..... | 3 |
| | 11 |

It will be seen from statement No. X that I tried 11 criminal cases one more than the last year.

In his capacity of District Magistrate the Karbhari exercises efficient control over all the subordinate Magistrates. The number of cases disposed of by him is smaller on account of the absence of crime.

32. The total number of offences brought to trial before all the Courts is 238 against 295 in the previous year. The percentage of convictions to the number of accused brought to trial is 73·3 against 60·4

No cases remained undisposed of at the end of the year.

APPEALS.

33. During the year under report the Huzur Appellate Court dealt with 8 appeals against 6 of the previous year with the following result.

| | |
|---|---|
| Sentence confirmed..... | 5 |
| „ Modified..... | 1 |
| „ Reversed ..... | 2 |
| | 8 |

No appeals remained undisposed of.

REVISION.

34. As a court of revision I quashed the conviction and sentence passed in one case by the second class Magistrate of Kundal.

( *e* ) *Extradition.*

35. During the year demands were made by the Political Agent, Satara, for the surrender of three accused persons and by this State for the surrender of seven accused persons who had taken refuge in the British territory. There has been no want of reciprocity in the extradition of offenders on the part of neighbouring States.

( *f* ) *Prisons.*

36. As the Jail building at Aundh was not a suitable one I constructed a new Jail in a well ventilated enclosure at Kinhi approved of by you. It will, therefore, be called the Huzur Jail from next year. It consists of four rooms, three for male prisoners and one for female ones. There is, besides, plenty of accommodation for the guard within the enclosure. The average number of prisoners in the Aundh Jail is only 8.

37. There are four lock-ups at the Taluka stations. The short term prisoners are mostly confined therein. The medical officers employed at different places look after the health of the Jail population.

All the convicts at the Huzur Jail and at the lock-ups enjoyed good health. No one died in Jail.

38. The Jail discipline is similar to that obtaining in Jails under the British Government. The convicts are employed principally on sweeping roads and clearing out Guttars.

39. The rates of rations in force in the Satara Sub-Jail have been introduced.

40. The expenditure incurred on account of the Jail Department amounts to Rs. 1947-15 against Rs. 1953-8-7 in the previous year.

41. The average period an accused is detained before trial is 2 days.

(*g*) *Civil Justice.*

42. The number and designation of the Civil Courts in the year under review was as shown below :—

1 The Huzur Civil Court presided over by myself.
3 Courts of the Second Class Subordinate Judges.

4

43. The number and value of suits will be seen from the subjoined statement.

| | Name of Court. | Suits for immovable property. | | Money Suits. | | Suits for other rights. | |
|---|---|---|---|---|---|---|---|
| | | 1891–92 | 1892–93. | 1891–92. | 1892–93. | 1891–92. | 1892–93. |
| 1 | Second Class Sub-Judge Atpadi.. ..... | 9 | 8 | 66 | 138 | 2 | 2 |
| 2 | Do Class Sub-Judge Kapil.. | 26 | 19 | 103 | 114 | 15 | 19 |
| 3 | Do „ Gundal..... | 2 | 4 | 9 | 11 | 1 | 0 |
| | | 37 | 31 | 178 | 263 | 18 | 21 |
| | | | | | | 37 | 31 |
| | | | | | | 178 | 263 |
| | | | | | Total Suits..... | 233 | 315 |

44. The value of the suits filed during the year amounts to Rs. 31929-1-5 against Rs. 21616-3-5 in the previous year. The year under report was one of good harvest and not of scarcity and hence the increase in the number and value of suits.

45. There were only 40 suits remaining undisposed of against 55 in the preceding year.

The average duration of each suit is 2 months and 25 days agaist 4 months and 8 days in the previous year.

The speediness with which the civil work was disposed of by the Lower Courts this year is creditable to the Sub-judges. This average duration is the Smallest that can possibly be achieved,

46. The following statement will show the work done by the Huzur Civil (appellate) Court :—

| Name of Court. | Opening balance. | | Filed during. | | Total. | | Disposed of during. | | Closing balance. | | Value of appeals filed during. | | How disposed of. | | | | | | | | | | Average duration. | | | | | |

47. All the appeals save one have been disposed of as quickly as possible i. e. within three months from the date of their receipt. This proves that the improvement suggested by the Government in para 6 of their Resolution,* has been effected to the extent possible in the Appellate as well as original Courts.

* No. 7420 dated 25th November 1892.

EXECUTION.

48. Statement No. XIV will show that the Civil Courts had to dispose of 309 applications for the execution of decrees. Out of these 275 were disposed of leaving 34 pending at the close of the year.

Suits under the Mamlutdars' Court Act III of 1876.

49. During the year under review the Mamlutdars had to dispose of 54 suits against 55 in the previous year. Out of these 53 were disposed of, leaving only 1 filed at the close of the year pending.

The work was satisfactorily done except in two cases in which the Mamlutdar's decisions were reversed by me on appeal.

( *h* ) *Registration.*

50. The Huzur Registry office is kept at Aundh. The Daftardar has been invested with the functions of the District Registrar. The number of the Sub-Registry offices kept at Taluka stations is 5 as in the preceding year.

There has been an increase of Rupees 221-5-3 in receipts under this Head as will be seen from the table given in the Paragraph following.

Half the villages of the Kundal Thana, which are about Karad, are situated at great distances from Kundal where the Registry Office is. To avoid this journey debtors and creditors, instead of preparing one bond of Rs. 200 and upwards, prepare two or more bonds of less than Rs. 100 so as to bring them under the exemption clause. I, therefore, propose to establish an additional Registry Office at Kapil.

51. The subjoined table shows the description of the documents registered during the year as compared with those in the preceding year.

# MUNICIPAL ADMINISTRATION.

52. The Commissioner, C. D., in para 13 of his review of last year's Administration Report, remarked that there were no towns in the State large enough for Municipal Government. I have, therefore, termed the Committees established in the villages noted in the margin as Village Sanitation Committees c onstituted under Act. I of 1889.

1. Atpadi.
2. Kundal.
3. Aundh.
4. Kinhi.

The expenditure on schools and Dispensaries in these villages is borne by the Local Funds and not by the Sanitation Committees although many items of Sayar revenue have been transferred by the State there-to. The inhabitants of two more villages have consented to the application of the Village Sanitation Act to them and further measures are in progress.

53. The following Statement shows the receipts and expenditure of the four Village Sanitation Committees during the year of report.

| No. | Name of Municipality. | Balance on the 6th June 1892. | Receipts during 1892-93. | Total. | Expenditure during 1892-93. | Balance on 5th June 1893. | Remarks. |

| | Total... | 309 9 3 | 1263 12 5 | 1573 5 8 | *1065 13 11 | 507 7 9 | |

* This expenditure has been solely on Sanitation such as sweeping streets, improving water-supply, lighting lamps, and cutting down prickly-pear.

## CHAPTER IV.

### Production and Distribution.

### ( *a* ) *Agriculture, Weather and Crops.*

54, Agriculture is the chief occupation of a considerable portion of the subjects of the State. The condition of the Agricultural classes is on the whole good. Statement No XVI will show the Agricultural stock.

55. The rainfall at the several stations was as follows:—

| Name of the Station. | 1891-92. | | 1892-93. | |
|---|---|---|---|---|
| | Inches. | cents. | Inches. | cents. |
| 1 Aundh ..... | 15 | ... | 26 | 50 |
| 2 Kundal ..... | 12 | ... | 38 | 49 |
| 3 Atpadi ..... | 10 | ... | 30 | 19 |
| 4 Gundal ..... | 5 | ... | 26 | 50 |

Notwithstanding the excessive fall of rain and consequent damage, the Crops on the whole yielded a good harvest of 12 annns. The fodder for cattle was plentiful.

( *b* ) *Wages and labour* :—

56. The wages per diem for skilled and unskilled labour were as follow :—

Carpenter.....8 to 12 annas
Mason .....8 to 12 annas
Cooly.....3 to 4 annas
Cart of two bullocks.....12 annas to one rupee
Ponies .....10 annas to 12 annas

57. The prices of the staple food grains, at the time of the harvest in the Atpadi Thana, where 32 of my villages are situated together, were:—

Jowari.....35 pounds per rupee
Bajri ..... 40 do. do.
Tur-pulse ..... 27 do. do.
Gram..... 30 do. do.
Wheat ..... 27 do. do.

( c ) *Forests.*

58. The extent of land set apart for the formation of Forest is:—

| Name of the Thana. | Area 1891–92 | Area 1892—93 | Decrease. | Remarks. |
|---|---|---|---|---|
| | A. G. | A. G. | A. G. | |
| 1 Atpadi ... | 3607—2 | 2898—20 | 708–22 | At the village of Nelkaranji there are numerous Kuranj-trees. |
| 2 Gundal... | 1813—0 | 1695—37 | 117—3 | There is an excellent forest reserve containg Khyr-trees at Dhanargi. |
| 3 Kundal... | 3261—15 | 3261—6 | 0—9 Increase. | |
| 4 Kinhi ... | 663—25 | 663—33 | 0—8 | Teak trees are plentiful in the Kuran at this place. |
| 5 Aundh ... | 620—30 | 620—30 | ..... | |
| Total. | 9965—32 | 9140—6 | 825—26 | |

This decrease was caused by the land being given for cultivation to meet the wants of the people.

There is no separate Forest establishment. The duty is entrusted to Mamlutdars and village officers.

( d ) *Trade and Manufactures:—*

59. There are no factories or other work-shops in the State.

60. The chief articles of export are Wheat, Cotton, Coarse-sugar Ground-nuts, Jowari and Bajri. The chief articles of import are piece-goods, stationery, sugar, grocery, Kerocine oil &c. There is, however, no extensive traffic in these articles. The articles imported are mostly for local consumption. Every facility to commerce is afforded. No transit duties and town duties are levied and no Road Toll-bars exist.

( e ) *Fairs:—*

61. The important fairs in the State are those at Aundh, Boblad, Khursundi and Kinhi. They are held annually in the months of January, February, April and November respectively. The fairs at Aundh, Kinhi and Boblad were attended by about 5000 persons and that at Khursundi by upwards of 10000 persons. At the Khursundi fair a pretty large cattle market is held and dealers in cloth and brass-pots come from long distances with their articles for sale. The pilgrim tax which was levied at Aundh and Khursundi was spent on sanitation at those localities. There has been a surplus balance of about Rs. 300 of the Khursundi pilgrim tax and the Devasthan Committee has, with the approval of the people, resolved upon spending it towards the improvement of Bhivar-ghat road for the comfort of the pilgrims. This road joins the Karad and Bijapur road between Khanapur and Nagaj.

(*f*) *Public Works:—*

62. The following statement will show the original works executed and repairs made to public buildings &c., in the State.

| Works | State Funds. | Local Funds | Total. |

| Grand total ... ... ... | 8,251 1 2 | 3,091 7 7 | 11,342 8 9 |

63. Last year the sum spent on Public works from the State revenues was Rs. 6389-14-3 but this year Rs. 8251-1-2 have been spent. When to this is added the expenditure Rs. 3091-7-7 from Local Funds the total expenditure on Public works comes up to Rs. 11342-8-9.

64. The road from Kinhi to Satara Road station on the S. M. Railway which was commenced as a Famine Relief work last year has been completed this year. This road has benefitted a number of British Government villages round about Kinhi. It will, if extended by the Rede-ghat, connect the important town of Phaltan, the Head-quarter of the Chief there, with Satara by a more direct route.

65. Great inconvenience was felt on account of the absence of any kind of accommodation for European Officers visiting Kinhi on duty. This has been remedied by the construction of two Bungalows one near the town and another at a distance therefrom on the spot approved of by you.

66. The old Kutcherry at Aundh has, by additions and alterations, been made suitable for the accommodation of all offices together and a new Chowdi at Aundh has been built in the centre of five roads so that any traveller desirous of having a guide should not find it difficult to find out where the Patel was.

67. To enable the people to meet together and discuss on matters affecting their interests and to receive visitors of note, a spacious masonry Library building is under construction at Aundh. Rs. 1005 have been spent this year on it.

## CHAPTER V.

### *Revenue and Finance.*

68. The following statement will show the opening and the closing balance for the year under review as compared with the previous years.

STATEMENT No. I.

| Years. | Opening Balance. | Receipts. | Disbursement. | Closing Balance. |
|---|---|---|---|---|
| | Rs. a. p. | Rs. a. p. | Rs. a. p. | Rs. a. p. |

1563 C-10-10

This abstract proves that the Finances of the State are in a prosperous condition.

69. The subjoined statements will show the receipts and expenditure of the year under review as compared with those of the three previous years.

## Statement No. II.

*Abstract Statement of Receipts.*

| No. | Items. | 1892-93. | 1891-92. | 1890-91. | 1889-90. |
|---|---|---|---|---|---|
| | | Rs. a. p. | Rs. a. p. | Rs. a. p. | Rs. a. p. |
| 1 | Land Revenue | 2,48,436 14 3 | 2,14,241 2 10 | 2,07,378 10 7 | 2,00,479 14 2 |
| 2 | Sayar Revenue.— | | | | |
| | Abkari | 4,100 2 6 | 4,012 6 4 | 4,171 1 5 | 3,988 1 5 |
| | Salt | 1,045 1 7 | 1,045 1 7 | 1,045 1 7 | 0 0 0 |
| | Opium | 855 0 0 | 1,175 14 2 | 988 0 0 | 1,100 3 0 |
| | Stamps | 9,242 13 0 | 7,044 12 0 | 7,219 7 6 | 6,868 1 0 |
| | Other items | 3,670 0 0 | 2,906 9 6 | 3,924 14 3 | 3,945 14 0 |
| | Total | 18,913 1 1 | 16,184 11 7 | 17,348 8 9 | 15,902 3 5 |
| 3 | Other items | 24,220 3 7 | 43,344 10 6 | 1,13,448 8 3 | 46,556 12 10 |
| 4 | Local Funds | 13,770 3 11 | 12,618 15 3 | 12,798 2 2 | 11,965 9 3 |
| 5 | Outstandings | 36,393 10 7 | 24,508 11 0 | 21,230 13 0 | 31,321 0 6 |
| | Total | 3,41,734 1 5 | 3,10,898 3 2 | 37,2204 10 9 | 3,06,225 8 2 |

The increase of Rs 34195-11-5 in Land Revenue is attributable to the sale of occupancy rights of Sheri and other lands.

The increase in other items is due to larger receipts on account of the favourableness of the season.

## Statement No. III.

| | Other items | 701 2 11 | 552 10 1 | 292 11 9 | 435 10 3 |
| | Total Sayar Revenue | 711 11 6 | 1,079 10 2 | 558 1 4 | 3,572 2 6 |
| 5 | Shibandi and Police | 17,494 4 0 | 15,687 15 3 | 14,174 3 6 | 14,927 4 7 |
| 6 | Other items | 89,457 3 1 | 84,024 1 5 | 1,35,132 12 3 | 58,202 2 7 |
| 7 | Local Funds | 10,551 10 1 | 11,291 13 5 | 11,689 7 3 | 11,130 0 11 |
| | Grand Total | 2,73,715 2 4 | 2,64,112 3 6 | 3,30,304 6 2 | 2,75,926 1 9 |

The increase of Rs. 9,602-14-10 in expenditure is mainly due to the following causes viz:—

1. The Survey operations newly commenced under the Superintendence of Mr. J. C. Whitcombe.

2. The increased expenditure on Public works.

3. The payment to Dada Saheb Pratinidhi of the arrears of his allowance which he had refused to take.

4. Allotment of a new allowance to my grandson, Nana Saheb, (Dada Sadeb's son) of Rs. 1,800 per annum.

70. The Kadim Hakdars complained to me that their Huks were not punctually paid by the Inamdars. In consequence of this orders were issued to collect them from Inam villages as a revenue demand and pay them from Taluka Treasuries according to the system in force in Government villages. This accounts for the decrease in alienations.

71. It is satisfactory to note that notwithstanding the increased expenditure on Public Works and the incidental expenses such as Survey Settlement &c. I have, without contracting any new debts, been able to pay off Rs. 27481-0-7 of the old debts which have now dwindled down to about Rs. 78000. As a set off against this debt I have an outstanding balance of Rs 43954-5-4. This balance is on account of the occupancy rights sold in the Gundal Mahal and is recoverable by instalments.

## LOCAL FUNDS.

### Receipts and Expenditure.

72. Appendix No. 17 ( B ) will show an increase of Rs. 795-5-6 in Local Funds receipts caused principally by the levy of Local Funds on the large amount of proceeds from the sale of the occupancy rights of sheri-lands.

73. The Local Fund Establishment salaries were paid in arrears last year and the absence of such a payment this year accounts for the decrease of expenditure.

74. The manufacture of earth-salt in the State has been suppressed and the monopoly to give licences for the sale of Country spirits has been made over to the British Government until the end of the year 1894.

## CHAPTER VI.

### *Vital Statistics and Medical Services.*

75. The two charitable institutions viz—the Dispensaries at Aundh

and Atpadi have been progressing favourably. The subjoined table will show the main particulars concerning the medical relief afforded to the patients.

TABLE I.

| Dispensary. | Number of patients treated. | | Result. | | | | Expenditure. | Daily Average. |
|---|---|---|---|---|---|---|---|---|
| | In-door. | Out-door. | Discharged. | Absented. | Died. | Remaining under treatment. | | |
| Aundh... | 7 | 4329 | 3581 | 710 | 15 | 30 | 801-15-6 | 38·6 |
| Atpadi... | 0 | 3519 | 2511 | 939 | 45 | 34 | 765-3-6 | 37·2 |
| | 7 | 7848 | | | | | 1,567-3-0 * | |

* This sum is more by Rs. 20 only than last years.

76. Compared with last year the number of patients treated this year in the Dispensaries at Aundh and Atpadi was smaller by 18 and 386 souls respectively. This is to be attributed to the healthiness of the season. Among the patients treated 2312 were British subjects.

77. The number of Major and Minor operations performed by both the Hospital Assistants will be seen from the following table.

| No. | Names. | Major operations. | Minor operations. | Total. |
|---|---|---|---|---|
| 1 | Rawaji Shivaram of Aundh....., | 3 | 180 | 183 |
| 2 | Abaji Balkrishna of Atpadi.., | 2 | 154 | 156 |

78. One native physician is located at Kundal and another at Kinhi and their services are availed of by those who do not like to take English medicines on religious scruples.

79. The medical department as described in paras 75 and 78 was maintained at a cost of Rupees 1842-1-9 against Rupees 1699-7-0 in the previous year. The increase of Rs. 142-10-9 is due to the supply of furniture to the Atpadi Dispensary.

*Births and Deaths.*

TABLE II.

80. The subjoined table will show the total number of births and deaths in the State during the year under review.

| | 1891-92 | 1892-93 | Increase | Decrease |
|---|---|---|---|---|
| Births ... ... .... ... | 2502 | 2602 | 100 | ... |
| Deaths ... ... ... ... | 1904 | 1755 | ... | 149 |

The birth rate per 1000 of the population is 39·9 and the death rate 26·9 against 29 of the previous year. The decrease in deaths is attributable to the healthiness of the season.

## SANITATION AND VACCINATION.

81. No separate establishment has been maintained for sanitation. The work is performed by order of the village and Taluka Officers under the direction of the Karbhari and the result is creditable to all concerned. Large masses of prickly-pear which hitherto infested almost every village have been cut down and burnt. The clearance of this noxious vegitation extinguished the shelter that was hitherto afforded to venomous reptiles which have been killed in large numbers.

82. The following table will show the progress of vaccination in the State during the year under review as compared with that in the previous year,

| Operation by whom performed, | | Number of persons vaccinated in | Number of persons vaccinated in | Result. | | | | |
|---|---|---|---|---|---|---|---|---|
| | | | | Successful | | Unsuccessful | | |
| | | 1891—92 | 1892—93 | 1891—92 | 1892—93 | 1891—92 | 1892—93 | |
| State Vaccinators. | Govind Nilkant Kashinath | 1494 | 1540 | 1465 | 1396 | 29 | 7 | 137 Unknown. |
| | Ramchandra | 699 | 831 | 684 | 808 | 15 | 23 | |
| Government. | Vaccinators of Satara, Koregaum and Khatav Talukas, | 221 | 300 | ..... | ..... | ..... | ..... | Unknown. |
| | Total.... | 2414 | 2671 | ..... | ..... | ..... | ..... | |

All the vaccinators performed their duties satisfactorily.

83. The cost of the Department was Rupees 525-5-7 against 542-1-10 in the preceding year. The slight decrease calls for no remark.

## CHAPTER. VII.

### *Instruction.*

84. There are 72 villages in the State. The number of schools during the year under report is 26 as per subjoined table.

| Number. | Description of schools. | Number of Pupils on the Roll on 31st March 1892. | Number of pupils on the Roll on the 31st March 1893. | Average daily attendance. |
|---|---|---|---|---|
| 22 | Primary Schools for boys ..... | 917 | 830 | 720 |
| 1 | Do for Mahars . | 19 | 19 | |
| 2 | Schools not conducted according to the Educational Standards ... | ... | 72 | |

85. The total number of boys under instruction is 921 which when contrasted with 936 in the previous year shows a decrease of 15 boys. This is due to the abolition of two schools for attendance below standard. The trading classes do not want instruction according to the Educational Department Standards, but simple reading, writing and arithmetic. They do not want History and Geography. To meet their wishes I have determined upon assisting two indigenous schools imparting such instruction at Atpadi.

86. My daughter and daughter-in-law used to attend the girls school, but as they ceased doing so owing to their having attained ages of maturity, other girls ceased attending also. This is to be regretted but it will be some time before I can set another example to induce the parents to send their daughters to school again. This principally accounts for the decrease in the number of girls.

87. The Educational Inspector of the State reports that the result of his examination was on the whole satisfactory.

## CHAPTER VIII.

*Miscellaneous.*

88. There are no wild animals infesting the State. Strenuous efforts have been made for the destruction of snakes by the extermination of prickly-pear.

89. There are no Telegraph offices in the State but only 4 Post offices, viz: 1 Aundh, 2 Kinhi, 3 Kundal, 4 Atpadi.

90. The State records are in good order.

91. There is a Printing Press in which all forms required by the Judicial, Magisterial and Revenue officers are printed.

92. There are reading rooms at Kinhi and Aundh which are partly supported by the State.

93. There are no taxes on trades and professions and no Toll-bars. A tax called 'Putalpatti' was abolished this year.

94. In short, after travelling from village to village for three months I have left nothing wanting as far as I could. There is a total suppression of serious offences, justice is speedily administered and in such a satisfactory manner that complaints to you have become a rarity. The Financial condition of the State is fast improving and the debt has been paid off to the extent of about one half the amount and useful Public Works have been constructed.

Government in declaring that my last year's Administration was creditable both to myself and to my Karbhari added that they trusted that:—

"Future reports will confirm the record then given," and I think that I have fulfilled the expectations of Government.

95. I cannot conclude this report without thanking you for your kind advice and cordial support and recording my high sense of the ability, energy and integrity displayed by my Karbhari, Rao Bahadur N. B. Jogalekar, a pensioned Deputy Collector of Government.

I have the honor to be,

Sir,

Your most obedient servant.

Karbhari Aundh State.

# ADMINISTRATION REPORT OF THE AUNDH STATE,

## IN THE SATARA COLLECTORATE,

## FOR 1303 FASLI, A. D. 1893—94.

From,

SHRINIWAS ROW PURASHRAM PUNDIT,
PUNT PRUTINIDHI,
Chief of the Aundh State.

To,

R. E. CANDY, Esquire,
Political Agent,
Satara.

*Kinhai, dated, 20th June 1894.*

Sir,

I have the honor to submit the Annual Administration Report of the Aundh State for the year 1303 Fasli ending with 5th June 1894.

2. The usual statements as per margin accompany together with two new supplements to Statement No. XVII—the one showing adjustments, and the other debts, as required by your Memo No. 236, dated 2nd May 1894.

I to IV and VI to XVII

As there is no Military Force in the State, Appendix No. V relating thereto, has not been forwarded.

## CHAPTER I.

### Political.

3. The State of Aundh has been in subsidiary alliance with the British Government, and the Government of Bombay exercises Political control over it. No tribute is paid to the Paramount Power.

4. In September 1893, I had the pleasure of an interview with His Excellency the Right Hon'ble Lord Harris, Governor of Bombay, and the Hon'ble Members of the Council. In July last, I had an interview with you at Satara; and you were pleased to visit my Head-quarter town of Kinhai in January last and two villages in the Atpadi Thana in the month preceding. I was glad to learn from you that the state of things in all the institutions inspected by you was satisfactory.

5. Mr. J. F. Fleet, Commissioner of the Central Division, visited Aundh in February last, and, so far as can be judged from his conversation, he was satisfied with the manner in which the Administration of the State was conducted.

6. I visited three of the six Thanas of my State and the rest were visited by my son Bhagwunt Row and the Karbhari.

## CHANGES IN THE ADMINISTRATION.

7. I have appointed my son Bhagwunt Row Shriniwas, under the designation of Sarsubhedar, for the duty of minutely examining the Village and Taluka Accounts and Ryats' receipt books of the whole State. With this exception changes made in 1891–92 are in tact.

## CHAPTER II.

### ADMINISTRATION OF LAND.

8. The subjoined table shows the amount of Survey work done and still remaining to be done in the State.

| No. | Name of Thana. | No. of villages in each. | No. of Villages in which survey operations including the introduction of rates have been completed. | No. of villages in which the measuring operations having been completed Survey assessment is to be introduced. | No. of villages in which the revised rates are to be introduced. | Remarks. |
|---|---|---|---|---|---|---|
| | | 1 | 2 | 3 | 4 | 5 |
| 1 | Atpadi..... | 32 | 32 | ... | ... | |
| 2 | Gundal..... | 17 | 17 | ... | ... | |
| 3 | Kundal..... | 18 | ... | 18 | ... | |
| 4 | Aundh..... | 3 | ... | 3 | ... | |
| 5 | Kinhai..... | 1 | ... | ... | 1 | |
| 6 | Mahuli..... | 1 | 1 | ... | ... | |
| | Total..... | 72 | 50 | 21 | 1 | |

9. The survey rates were introduced into the 17 villages of the Gundal Thana this year, by Mr. Whitcombe, Superintendent Native States Survey, in conjunction with the Karbhari and those in the Kundal Thana will be introduced next year.

I know that any enhancement of assessment above four annas in the Rupee *i. e.* 25 percent is not bearable by the cultivators and, therefore, I assented to an increase of 18 per cent only. The cultivators gladly accepted the new rates which effected an increase in the land revenue of Rs. 4312 yearly.

Assessment according to survey rates... 27238
Do. according to old rates ... 22926
Increase..... 4312

10. There are no special tenures in the State.

*Inam Settlement.*

11. The settlement of Inams has been effected according to the Rules approved of by Government Resolution No. 6,090, dated 11th October, 1893. All grants made by myself or by my father subsequent to the Treaty of 1820, have been subjected to Chauthai or quit rent at 4 annas in the Rupee according to the principles of the Summary Settlement Act No. II of 1863, while those of a date anterior thereto have been continued without any quit rent. District Hereditary Officers have been allowed to commute their liability to serve on payment of Chauthai on their service holdings as sanctioned by Government.

## WASTE LANDS.

12. The following table shows the extent of waste lands taken up for cultivation and still remaining waste.

| Extent of Cultivable area for. | | Taken up in. | | Waste remaining at the end of the year. | | Percentage of cultivable land lying waste in. | |
|---|---|---|---|---|---|---|---|
| 1893—94 | 1892—93 | 1893—94 | 1892—93 | 1893—84 | 1892—93 | 1893—94 | 1892—93 |
| A. G. | A. G. | A. G. | A. G. | A. G. | A. G. | | |
| 1301—15 | 2217—1 | 577—30 | 915—26 | 723—25 | 1301—15 | ·05 | ·07 |

The fact that waste land is being taken up for cultivation proves that the agricultural classes are prospering.

13. The Village, Taluka and Huzur Accounts, are kept up mostly according to Mr. Symonds' forms of accounts. A proper check over them by way of inspection is kept by the Karbhari and the Duftardar.

14. The Jumabundi Settlement of the Gundal Thana was made by Mr. Whitcombe and the Karbhari, and that of the Atpadi Thana by my son Bhagwunt Row. The remaining four Thanas were settled by me.

15. Boundary disputes :—None worth mentioning.

16. No estates belonging to Wards were under the management of the State.

## CHAPTER III.

### Protection.

(*a*) *Legislation.*—

17. My Administration Report for 1891-92 contains the numbers and names of the Acts and Regulations in force in my State. No new laws have been introduced this year.

(*b*) *Military.*

18. There is no Military force entertained in the State.

(*c*) *Police.*—

19. The Police force has done its duty efficiently. This is evident from the gradual decrease in the number of offences reported viz ;—

| Year. | No. of offences reported. |
|---|---|
| 1890—91. | 400 |
| 1891—92. | 285 |
| 1892—93. | 189 |
| 1893—94. | 158 |

There has been no dacoity and the single case of murder, committed in a fit of anger, has been detected and punished with transportation for life.

Strength 68 Cost 9784-6-7

20. The strength and cost of the stipendiary Police is as noted in the margin and detailed in Appendix No. VI.

There are, besides, 122 Shetsandis and 73 Ramoshis. Of these 114 are employed on Police duties. To make the Shetsandis, who hold service Inam lands of the value of Rs. 24 to 36 each more useful, I have supplemented the landed income of 18 of them by cash allowances of Rs. 12 each per annum.

21. In consequence of the transfer of my ancestral Head-Quarter town of Karad to the Baitish Goveanment in 1855, I had no work at Karad for the 95 Naik-Wadis, who enjoy in lieu of cash remuneration my Saranjam lands there and as they refused to serve elsewhere I was obliged to disband the whole body and employ 26 men at a cost of Rs. 1800 per annum. When Government wanted the town of Karad I specially objected to its transfer on the ground that the Naik-Wadis will fail to render service and I shall be powerless to enforce the same, but I was told that assistance to recover assessment from absentees will be given me and my objection was over-ruled. But owing to lapse of time much difficulty is experienced in getting the promised assistance except from your

office and hence the additional charge on the State. For instance the order to give assistance for the recovery of assessment from absentees for 1892–93, passed by the Mamlutdar of Karad has been suspended by the Assistant Collector on appeal, notwithstanding the fact that assistance for 37 years past *i. e.* since the transfer, has been given.

22. The proportion of the stipendiary Police together with the Shetsandis and Ramoshis to the population of the State according to the census of 1891 is 1 to 357 souls.

23. The conduct of the Police force was excellent. No one was fined or dismissed.

24. Out of the total number of 68 stipendiary Police men, 24 persons or 35 percent are able to read and write.

25. The Police men in my State are dressed like those in the service of the British Government. Those employed on the duty of guarding Treasuries are armed with the muskets lately supplied to me by the British Government and the rest with batons.

26. The value of property stolen and recovered together with the per centage of recovery is contrasted below:—

| Year. | Value of property Stolen. | Of which recovered. | Percentage of property recovered. |
|---|---|---|---|
| 1892—93 | 1583—9. | 1156—7. | 73 |
| 1893—94 | 1107—9. | 793-11-9 | 71·6. |

It will be seen that the value of property stolen throughout the State is very small, and therefore, the insignificant decrease of two per cent in the amount of property recovered is not worth notice.

27. In addition to the Police force mentioned above there is an irregular force called Shibandi in number 47. Out of these 44 are armed footmen and 3 Sowars. These men are generally employed in guarding Treasuries and supplying Escorts.

28. The total number of Police Patels is 72 at the rate of one for each village. None of them have been invested with the special powers under Sections 14 and 15 of the Village Police Act VIII of 1867, because they have not sufficient education. One Patel was dismissed for drunkenness and four fined for neglect of duty. With this exception the work of these village officers was on the whole good.

29. Thirteen accidental deaths occurred viz:—

| | 1893—94 | 1892—93 |
|---|---|---|
| By Snake bites ..... | 2 | 3 |
| „ Drowning in wells and rivers ..... | 9 | 12 |
| „ Gored by a bullock..... | 1 | 0 |
| „ Fire &c..... | 1 | 0 |
| Total ... | 13 | 15 |

(*d*) *Criminal justice.*—

30. The various Criminal Courts at work during the year are :—

| | Nos. |
|---|---|
| The Huzur Criminal Court presided over by myself... | 1 |
| The Karbhari and Distrct Magistrate ..... | 1 |
| The Sarsubhedar and Magistrate, First Class, Aundh... | 1 |
| Do. Do. Third Class Aundh State... | 1 |
| The Daftardar, Magistrate Second Class Aundh..... | 1 |
| Mamlutdars, Second Class Magistrates ..... | 3 |
| Sub-Judge, Third Clss Magistrate ..... | 1 |
| Thanedars, Third Class Magistrates ..... | 4 |
| | 13 |

It will be seen from statement No. X that I tried 10 criminal cases in my capacity of a Sessions Judge.

In his capacity of District Magistrate the Karbhari exercises efficient control over all the subordinate Magistrates. The number (11) of cases disposed of by him was smaller than the last year on account of dimunition of crime.

31. The total number of offences brought to trial before all the Courts was 154 against 238 in the previous year. The per centage of convictions to the number of accused brought to trial is 71.4 against 73.6. Taking into consideration the fact that the number of offences is smaller by 84 in this year, this decrease in the percentage is not worth notice.

32. No cases remained undisposed of at the end of the year.

## Appeals.

33. During the year under report the Huzur Appellate Court dealt with

6 appeals against 8 of the previous year with the following result.

| | | |
|---|---|---|
| Sentence | confirmed ..... | 4 |
| „ | Modified..... | 2 |
| „ | Reversed..... | 0 |
| | | 6 |

No appeals remained undisposed of.

REVISION.

34. As a court of revision I quashed the conviction and sentence passed in one case of criminal force by the third class Magistrate of Dhanurgi. Further finding on examination of the records that the 2nd class Magistrate of Gundal who is invested with Committal powers, had improperly discharged a person, inhabitant of Dhanurgi, near Bijapur, charged with the Commission of rape, I ordered his Commitment under Section 436 C. P. C. and deputed my Karbhari with authority to try the case on the spot. He did so and on the semi-confession of the accused supported by other evidence, found him guilty and sentenced him to undergo three years rigorous imprisonment and to pay a fine of Rs. 50 in default undergo further 6 months rigorous imprisonment. No. appeal has been made against this sentence.

(*e*) *Extradition.*—

35. During the year demands were made by the Political Agent, Satara, for the surrender of three accused persons and by this State for the surrender of a similar number of accused who had taken refuge in the British territory. There has been no want of reciprocity in the extradition of offenders on the part of neighbouring States.

(*f*) *Prisons.*—

36. The Jail building at Kinhai has been completed and has proved to be more suitable. It is sufficient to accommodate 50 prisoners but as their average number never exceeds 15, a portion of the building is utilized for a Printing press which is worked by prisoners.

37. There are four lock-ups at the Taluka stations. The short term prisoners are mostly confined therein. The medical officers employed at different places look after the health of the Jail population.

The convicts at the Huzur Jail and at the lock-ups enjoyed good health generally. No one died in Jail.

38. The Jail discipline is similar to that obtaining in Jails under the British Government. The convicts, save those employed on the printing press, work on roads.

39. The rates of rations in force in the Satara Sub-Jail have been introduced, with this modification that the untried prisoners are allowed the same rations as those given to tried prisoners and not less.

40. The expenditure incurred on account of the Jail Depatment amounts

to Rs. 2707-6-3 against Rs. 1947-15 in the previous year. This increase is mainly due to the sums paid into Government Treasury on account of the maintenance of the murderers sent to the Andaman Islands or kept in Lunatic Asylum.

41. The average period an accused is detained before trial is 3 days.

(*g*) *Civil Justice.*

42. The number and designation of the Civil Courts in the year under review was as shown below :—

1 The Huzur Civil Court presided over by myself.
3 Courts of the Second Class Subordinate Judges.

4

43. The number and value of suits will be seen from the subjoined statement.

| | Name of Court. | Suits for immoveable property. | | Money Suits. | | Suits for other rights. | |
|---|---|---|---|---|---|---|---|
| | | 1893—94 | 1892—93 | 1893—94 | 1892—93 | 1893—94 | 1892—93 |
| 1 | Second Class Sub-Judge Atpadi..... | 13 | 8 | 120 | 138 | 2 | 2 |
| 2 | Do Class Sub-Judge Kapil... | 12 | 19 | 78 | 114 | 11 | 19 |

| | | | | | | 30 | 31 |
| | | | | | | 206 | 263 |
| | | | | | Total Suits.... | 249 | 315 |

The value of the suits filed during the year amounts to Rs. 29264-13-5 against Rs. 31929-1-5 in the previous year.

44. There were only 22 suits remaining undisposed of against 40 in the preceding year.

The average duration of each suit is 2 months and 9 days against 2 months a nd 25 days in the previous year.

The speediness with which the civil work was disposed of by the Lower Courts is creditable to the Sub-judges. This average duration is the smallest that can possibly be achieved.

45 The following statement will show the work done by the Huzur Civil (appellate) Court :—

| Name of Court. | Opening balance. | Filed during. | Total. | Disposed of during. | Closing balance. | Value of appeals filed during. | How disposed of. | | | | | Average duration. | | | | | |

It is worthy of notice that although 45 appeals were disposed of by me still only 4 (*i. e.* 8 per cent) special appeals have been made against my decision to you.

## Execution.

46. Statement No. XIV will show that the Civil Courts had to dispose of 315 applications for the execution of decrees. Out of these 277 were disposed of leaving 38 pending at the close of the year.

## Suits under the Mamlutdars' Court Act III of 1876.

47 During the year under review the Mamlutdars had to dispose of 61 suits against 54 in the previous year. Out of these 60 were disposed of leaving only 1 filed at the close of the year pending. The work was done satisfactorily.

(*h*) *Registration*

48 The Huzur Registry office is kept at Aundh. The Daftardar has been invested with the functions of the District Registrar. The number of the Sub-Registry offices kept at Taluka stations is 6.

49. The subjoined table shows the description of the documents registered during the year as compared with those in the preceding year.

## MUNICIPAL ADMINISTRATION.

50 In the 52 para: of my Report of last year, I intimated that measures to introduce the Village Sanitation Act in two more villages were in progress and I have now the pleasure to state that, those measures, having become successful, have been carried out; consequently there are six instead of four Village Sanitation Committees. Their receipts and expenditure are as follow:—

| No. | Name of Municipality. | Balance on the 6th June 1893 | Receipts. during 1893–94 | Total | Expenditure during 1893–94 | Balance on 5th June 1894. |

| | Total... | 506 7 9 | 1973 15 10 | 2480 7 7 | 1104 14 9 | 1375 8 10 |

The expenditure has been solely on Sanitation such as sweeping streets, improving water-supply, lighting lamps, cutting down prickly-pear and improvement of roads.

## CHAPTER IV.

### Production and Distribution.

(*a*) *Agriculture, Weather and Crops.*

51 Agriculture is the chief occupation of a considerable portion of the

subjects of the State. The condition of the Agricultural classes is on the whole good. This is evident from the increase in their agricultural stock as under :—

| Year. | Bullocks. | Cows. | Shebuffa-lows. | Ploughs. | Remarks. |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1892-93 | 20787 | 13429 | 4713 | 2548 | |
| 1893-94 | 21393 | 14938 | 5937 | 2583 | |
| Increase. | 606 | 1509 | 1224 | 35 | |

52 The rainfall at the several stations was as follows :—

| Name of the Station. | 1893-94 | | 1892-93 | |
|---|---|---|---|---|
| | Inches. | Cents. | Inches. | Cents. |
| 1 Aundh. ... | 22 | 91 | 26 | 50 |
| 2 Kundal. ... | 26 | 74 | 38 | 49 |
| 3 Atpadi ... | 23 | 53 | 30 | 19 |
| 4 Gundal ... | 18 | 6 | 26 | 50 |

The fall of rain was seasonable and the crops yielded a good harvest. The fodder for cattle was plentiful.

(*b*) *Wages and labour* :—

53. The wages per diem for skilled and unskilled labour were as follow :—

Carpenter.....8 to 12 annas
Mason .....8 to 10 annas
Cooly.....3 to 4 annas
Cart of two bullocks .....12 annas to one Rupee.
Ponies .....10 annas to 12 annas

54. The prices of the staple food grains, at the time of the harvest in the Atpadi Thana, where 32 of my villages are situated together, were :—

Jowari.....43 pounds per Rupee
Bajri .....37 do. do
Tur-pulse .....27 do. do.
Gram.....37 do. do.
Wheat .....32 do. do.

(*c*) *Forests.*—

55. 9140 Acres are set apart for the growth of Forest. There is no separate Forest Establishment at present. The existing Revenue Establishment looks after it. When the Survey Settlement which is in progress in the State, shall have been completed more effective measures for forest conservancy will be adopted.

(*d*) *Trade and Manufactures* :—

56. There are no factories or other work-shops in the State.

57. The chief articles of export are Wheat, Cotton, Coarse-sugar, Ground-nuts, Jowari and Bajri. The chief articles of import are piece-goods, stationery, sugar, grocery, Kerocine oil &c. There is, however, no extensive traffic in these articles. The articles imported are mostly for local consumption. Every facility to commerce is afforded. No transit duties and town duties are levied and no Road-Toll-bars exist.

58. The following cesses were remitted during the year under report.

1 Anne Putti.
2 Putal Putti. } on traders at Aundh.
3 Pan Putti–tax on Betel leaves at Kinhai.
4 Lugun Putti-tax on marriages in some villages of the Gundal Mahal

(*e*) *Fairs.*

59. The important fairs in the State are those at Aundh, Boblad, Khursundi and Kinhai. They are held annually in the months of January, February, April and November respectively. The fairs at Aundh, Kinhai and Boblad were attended by about 5000 persons and that at Khursundi by upwards of 7000 persons. At the Khursundi fair a large cattle market is held and dealers in cloth and brass-pots come from long distances with their articles for sale. The pilgrim tax at half anna per man, which was levied at Aundh and Khursundi, was spent on sanitation at those localities.

(*f*) *Public Works* :—

60. The following statement will show the original works executed and repairs made to public buildings &c., in the State.

61 Last year Rs. 11342-8-9 were spent on Public Works and that expenditure was termed as generous by Government but this year the expenditure on the same account has gone up to the highest pitch i. e. Rs. 19761-4-9, a sum which the State will, it is feared, not be able to afford every year.

62. You have already seen and stopped in the Travellers Bungalow at Kinhai

and therefore, I leave it to you to record your opinion about it. The alterations and additions to the Travellers Bungalow at Aundh were effected agreeably to the wishes of the Commissioner C. D.

63. All the European gentlemen, residents of Satara, generally drive or ride to Mahuli in the rainy season to see the Krishna river, when full, and the temple of Vishweshwar built there by my fore-fathers. They were put to much inconvenience for want of shelter and, therefore, I constructed a Bungalow there on the verge of the bed of the river. It gives a grand view of the place and therefore will be much resorted to.

64. The newly built Kutcherry at Kinhai is made to accommodate the Village Officers, the Chief Constable and the Post Master, and being situated in the centre of the town, is most convenient to those resorting to those offices.

65. A Spacious school house has been built at Aundh at a cost of upwards of Rupees 3000, out of which, 2288 appear in this year's account.

## CHAPTER V.

*Revenue and Finance.*

66 The following statement will show the opening and the closing balance for the year under review as compared with the previous years.

* In addition to this cash balance in the Treasury there are Rupees 15000 desposited with a Banker, named Nurotumdas at Satara on interest at 4½ per cent. This sum will be required for expenditure in the months of November and December and taken back then. The actual cash balance of the State, therefore, amounts to Rupees 70,489-0-5 and proves thereby that the financial condition of the State is improving.

67. The subjoined statements will show the receipts and expenditure of the year under review as compared with those of the three previous years.

Last year the occupancy rights of Ryatawa lands and of my garden and Kuran lands were sold for the purpose of paying off the State debts, but owing to the absence of similar sales this year, a decrease in the land revenue receipts is apparent.

The decrease in Sayer revenue is due to the smaller realizations on account of the sale of Stamped Paper and that under Law and Justice is to be attributed to the small number of Civil Suits and Criminal Cases.

There has been an increased expenditure on account of the Survey Department and the Public Works, yet notwithstanding a sum of Rs. 22458 has been paid in liquidation of the debt, which has now dwindled down to Rs. 59742. I expect to receive in advance from Government Rs. 22500 on account of the Abkari rights and if this expectation be realized the debt will be nil in the course of next two years.

I have augmented the Salaries of some of the servants and that has caused an increase of Rs. 999-15--11.

## LOCAL FUNDS

### Receipts and Expenditure.

68. Appendix No. XVII shows a decrease of Rs. 677-8--8 in Local Funds receipts caused principally by the non-receipt of Local Funds on the large amount of proceeds from the sale of the occupancy rights of Ryatawa and Sheri lands which occurred last year.

69. The increase in expenditure is to be attributed to the increased expenditure on Public Works, Schools and Dispensaries.

70. The manufacture of earth-salt in the State has been suppressed and the monopoly to give licenses for the sale of country spirits has been made over to the British Government until the end of 31st July 1894.

## CHAPTER VI.

### *Vital statistics and Medical Services.*

71. The two charitable institutions viz. the Dispensaries at Aundh and Atpadi have been progressing favourably. The subjoined table will show the main particulars concerning the medical relief afforded to the patients.

Table I.

| Dispensary. | Number of patients treated. | | Result. | | | | Expenditure. | Daily average. |
|---|---|---|---|---|---|---|---|---|
| | In-door | Out door | Discharged. | Absented. | Died. | Remaining under treatment. | | |
| Aundh... | 1 | 5411 | 4482 | 874 | 8 | 48 | 845-9-3 | 43·8 |
| Atpadi... | 0 | 4068 | 2685 | 1121 | *251 | 11 | 1402-14-6 | 34·2 |
| | | 9480 | | | | 9248 | | |

* The Hospital Assistant Atpadi has committed a mistake in including in the number of patients treated by him all the cholera patients in the Atpadi Taluka to whom cholera Medicine was sent from his dispensary and therefore the number of deaths is large.

72. Compared with last year the number of patients treated this year in the Dispensaries at Aundh and Atpadi was larger by 1076 and 549 souls respectively. Among the patients treated 2758 were British subjects.

73. The number of major and minor operations performed by both the Hospital Assistants will be seen from the following table :—

| No | Names. | Majoroperations. | Minor operations. | Total. |
|---|---|---|---|---|
| 1 | Rawaji Shivaram of Aundh.... | 4 | 209 | 213 |
| 2 | Abaji Balkrishna of Atpadi..... | 1 | 149 | 150 |

One native physician is located at Kundal and another at Kinhai and their services are availed of by those who do not like to take English medicines.

74. The medical department is maintained at a cost of Rupees 2519-1-9 against Rupees 1842-1-9 in the previous year. The increase of Rs. 677 is due to the supply of furniture and surgical instruments to the Atpadi Dispensary.

## *Births and Deaths.*

### TABLE II.

75 The subjoined table will show the total number of births and deaths in the State during the year under review.

| | 1893—94 | 1892-93 | Increase. | Decrease. |
|---|---|---|---|---|
| Births ... ... ... ... | 2790 | 2602 | 188 | ... |
| Deaths ... ... ... ... | 2296 | 1755 | 541 | ... |

The birth rate per 1000 of the population is 42·8 and the death rate was 35.2 against 26.9 of the previous year. The increase in deaths is attributable to the Cholera epidemic.

## SANITATION AND VACCINATION.

76. No separate establishment has been maintained for sanitation. The work is performed by order of the village and Taluka Officers under the direction of the Karbhari and the result is creditable to all concerned. Large masses of prickly-pear which hitherto infested almost every village have been and are being cut down and burnt. The clearance of this noxious vegitation extinguished the shelter that was hitherto afforded to venomous reptiles which have been killed in large numbers. The construction of roads in all villages with the view of securing cleanliness and preventing encroachments has been ordered and places for the burial and burning of the dead are being appointed and notified.

77. The following table will show the progress of vaccination in the State during the year under review as compared with that in the previous year.

| Operation by whom performed. | Number of persons vaccinated in. | | Result. | | | | | |
|---|---|---|---|---|---|---|---|---|
| | | | Successful. | | Unsuccessful. | | unknown. | |

The vaccinator of Atpadi is obliged to visit Gundal Mahal near Bijapur. To induce him to do the journey willingly I have this year sanctioned the payment of travelling allowance to him.

78. The cost of the Department was Rupees 540-8-2 against Rs. 525-5-7 in the preceding year. This slight increase calls for no remark.

## CHAPTER VII.

*Instruction.*

79. There are 72 villages in the State. The number of schools during the year under report is 27 as per subjoined table.

| Number. | Description of schools. | Number of Pupils on the Roll on the 31st March 1893 | Number of pupils on the Roll on the 31st March 1894 | Average daily attendance. |
|---|---|---|---|---|
| 23 | Primary Schools for boys..... | 849 | 898 | 756 |
| 3 | Schools not conducted according to the Educational Standards | 72 | 109 | |
| | | 921 | 1007 | |
| 1 | Primary School for girls..... | 48 | 63 | 38 |
| | | 969 | 1070 | |

80. There has been an increase of 86 boys and 15 girls attending the different schools this year. This is due to the opening of two new schools and the greater pains taken by the School Masters in inducing parents to send their daughters to school. The trading classes do not want instruction according to the Educational standards, but simple reading, writing and arithmetic, and therefore three schools conducted according to the old system are maintained.

As the State is comprised of 72 villages only, the number of schools is ample.

81. Owing to the construction of a commodious school building for boys at Aundh at a cost of upwards Rs. 3,000 the boys old school building has been utilized for the girls school which was hitherto located in a temple. A new reading room is under construction at Kinhai like the one at Aundh.

82. The cost of the Educational Department is contrasted below :—

| Items | 1893—94 | 1892—93 |
|---|---|---|
| 1 Educational establishment and contingencies..... | 4040-9-1 | 3676-11-3 |
| 2 School Buildings..,... | 2964—5—0 | 49—9—3 |
| 3 Supply of maps and furniture ..... | 297—14—0 | 52—0—0 |
| | 7302-12-1 | 3778-4-6 |

It will be perceived that much has been done towards the furtherance of education this year and the want of furniture and maps noticed by you last year has been supplied.

83. The Educational Inspector of the State reports that the result of his examination of schools was on the whole satisfactory. His report is borne out by the following remarks of your-self and the Commissioner, noted on the visitor's books.

KINHAI 12-1-94.

"This is a mixed school of boys and girls. The building is excellent "and the new furniture and maps provided are suitable. Due atten- "tion is paid to education and I have strongly advised the use of the "play ground which is given."

(Sd.) R. E. CANDY.

AUNDH 27-2-94.

"Visited this afternoon and heard boys and girls read, sing, and "recite which they did satisfactorily."

(Sd.) J. F. FLEET.

## CHAPTER VIII

*Miscellaneous.*

84. There are no wild animals infesting the State. The number of snakes must have decreased owing to the extermination of prickly-pear.

85. There are no Telegraph offices in the State but only 4 Post offices, viz. 1 Aundh, 2 Kinhai, 3 Kundal, 4 Atpadi.

86. The State records are in good order. A large quantity of useless papers was destroyed in the presence of the Karbhari.

87. There is a Printing Press in which all forms required by the Judicial Magisterial and Revenue officers are printed.

88. There are reading rooms at Kinhai and Aundh for which two new suitable buildings are being erected.

89. There are no taxes on trades and no Toll-bars exist.

90. In short I am in a position to state that the reforms introduced during the last three years have, in my opinion, made the Administration of my State perfect. The efficiency of the Police has diminished crime considerably and made the non-detection of any serious offence an impossibility. The employment of better qualified Magistrates and Judges has made justice speedy and satisfactory so much so that appeals to you have become a rarity. The Survey Settlement is being introduced in all the Thanas for the benefit of the cultivators who are contented and happy. The Financial condition is fast improving and the debt has been paid off to the extent of two-thirds of the original amount without lessening expenditure on works of Public utility and after defraying the incidental expenses of the Survey Settlement.

91. I cannot conclude this Report without thanking you for your advice and cordial support.

I am sorry that you are going on a long furlough to your Native country for the benefit of your health but trust that you will let us have the pleasure of seeing you back again in this country after recruiting your health.

I have the honor to be,
Sir,
Your most obedient servant.

# ADMINISTRATION REPORT OF THE AUNDH STATE, IN THE SATARA COLLECTORATE, FOR 1304 FASLI, A. D. 1894–95.

From,

SHRINIVAS ROW PURASHRAM PUNDIT,

PUNT PRUTINIDHI,

Chief of the Aundh State.

To,

C. B. WINCHESTER, Esquire,

Political Agent,

Satara.

*Kinhai, dated, 10th July 1895.*

Sir,

I have the honor to submit the Annual Administration Report of the Aundh State for the year 1304 Fasli ending with 5th June 1895.

2. The usual statements as per margin accompany together with two new supplements to Statement No. XVII—the one showing adjustments, and the other debts, as required by your Memo No. 236, dated 2nd May 1894.

I to IV and VI to XVII.

As there is no Military Force in the State, Appendix No. V relating thereto, has not been forwarded.

## CHAPTER I.

### Political.

3. The State of Aundh has been in subsidiary alliance with the British Government, and the Government of Bombay exercises Political control over it. No tribute is paid to the Paramount Power.

4. I had the pleasure of an interview with His Excellency the Right Hon'ble Lord Harris, Governor of Bombay, in October 1894, and I paid my respects to all the four Political Agents Messers Candy, Loch, Rand and yourself at different times during the year. I was glad to learn from the first named two gentlemen that, so far as they could judge, they were satisfied with the Administration of my State.

5. I attended the Darbar held at Poona on the 25th of May last in Commemoration of the Birth day of Her Majesty the Queen Empress of India and visited three of the six Thanas of my State; but my son and Sarsubhedar Bhugwant Row and the Karbhari visited the whole of them for the purpose of ascertaining the wants of the people.

## CHANGES IN THE ADMINISTRATION.

6. There has been no change in the Administrative machinery this year.

## CHAPTER II.

### ADMINISTRATION OF LAND.

7. The Survey measurement and settlement of the only one remaining Thana Kundal of my State, has been satisfactorily completed by Mr. Whitcombe, Superintendent Native States Survey. To prevent any hardship to the cultivators and consequent complaints from them, I have given my assent to the moderate enhancement of the assessment by 13 percent on an average. This settlement will remain in force for thirty years from 1895-96. The introduction of revised rates in the village of Kinhai will also be effected before the close of this month. The survey and settlement of the whole of my Jahagir may now be considered as completed.

| | |
|---|---|
| Assessment according to survey rates..... | 42329 |
| Do. actually collected under the old system..... | 37238 |
| Increase... | 5091 |

8. There are no special tenures in the State.

## INAM SETTLEMENT.

9. The settlement of Inams has been effected according to the Rules approved of by Government Resolution No. 6,090, dated 11th October, 1893. All grants made by myself or by my father subsequent to the Treaty of 1820, have been subjected to Chauthai or quit rent at 4 annas in the Rupee according to the principles of the Summary Settlement Act No. II of 1863, while those of a date anterior thereto have been continued without any quit rent. District Hereditary Officers have been allowed to commute their liability to serve on payment of Chauthai on their service holdings as sanctioned by Government.

## WASTE LANDS.

10. The following table shows the extent of waste lands taken up for cultivation and still remaining waste.

| Extent of Cultivable area for. | | Taken up in. | | Waste remaining at the end of the year. | | Percentage of cultivable land lying waste in | |
|---|---|---|---|---|---|---|---|
| 1893—94 | 1894—95 | 1893—94 | 1894—95 | 1893—94 | 1894—95 | 1893—94 | 1894—95 |
| A. G. | A. G. | A. G. | A. G. | A. G. | A. G. | | |
| 1301—15 | 4814—7 | 577—30 | 978—30 | 723—25 | 3835—17 | .05 | .01 |

11. The reason why the waste land has increased from 723 acres and 25 guntas, to 4814 acres and 7 guntas, can be learnt from the Government Selection headed 'Introduction of the Survey rates into the Gundal Thana.' The land measure therein was heretofore Sher, Pav and Tak. Three-fourths of a Tak were supposed to equal one acre; 18 Taks equal to one Pav; and four Pavs equal to one Sher giving an acreage according to this calculation of 32812 acres; but according to actual survey measurement, it has come up to 53152 acres. The actual survey measurement having been brought to account this year, the extent of waste land has also increased.

No. 226 Paras 9 and 19.

12. The acreage according to survey measurement of the Kundal Thana, settled this year, will be brought to account next year and that will cause another and the last alteration in these figures. As the extent of waste land has not increased by the cultivators giving up their lands, and as the extent of land taken up for cultivation is nearly double when compared with last year, the condition of the agricultural classes must be considered as improving.

13. The Village, Taluka and Huzur Accounts, are kept up mostly according to Mr. Symonds' forms of accounts. A proper check over them by way of inspection is kept by the Karbhari and the Duftardar.

14. The Jumabundi Settlement of the Gundal and Atpadi Thanas was made by my son Bhugwant Row and that of the Aundh Thana by my other son Gangadhar Row. The remaining three Thanas were settled by myself.

15. Boundary disputes:—None worth mentioning.

16. No estates belonging to Wards were under the management of the State.

## CHAPTER III.

PROTECTION.

(*a*) *Legislation.*—

17. The following Acts and Regulations are in force in the State as far as practicable :—

### *Government of India Acts.*

No. XXXVI of 1858, Lunaties.
„ XIII of 1859 Breaches of contracts by artificers and workmen.

„ V of 1878, Abkari,
„ V of 1879, Land Revenue Code with Rules.
„ II of 1884 Municipal Act.
„ II of 1890, Salt.
„ IV of 1890, District Police.

The Mamlatdar's Court Act is in force subject to the reservation that appeals against the Mamlatdar's decisions would be entertained.

(*b*) *Military.*

18. There is no Military force entertained in the State.

(*c*) *Police.*—

19. The Police force has done its duty efficiently. This is evident from the gradual decrease in the number of offences reported viz:—.

| Year. | No. of offences reported. |
|---|---|
| 1890—91. | 400 |
| 1891—92. | 285 |
| 1892—93. | 189 |
| 1893—94. | 153 |
| 1894—95. | 153 |

There has been no dacoity and the single case of murder, committed in a fit of anger, has been detected and punished with transportation for life.

Strength Cost
~~93~~ ~~10,140-13-8~~
68 8172-..

20. The strength and cost of the stipendiary Police is as noted in the margin and detailed in Appendix No. VI.

| | | |
|---|---|---|
| 4 | Kundal for guarding Treasuries. | |
| 4 | Gundal | Do. Do. |
| 3 | Kotyal Police Post. | |
| 1 | Dhunargi | Do. |
| 1 | Gulgule | Do. |
| 1 | Hubnur | Do. |
| 14 | | |

There are besides, 122 Shetsandis and 73 Ramoshis. Of these 114 are employed on Police duties. To make the Shetsandis, who hold service Inam lands of the value of Rs. 24 to 36 each more useful, I have supplemented the landed income of 14 of them by cash allowances aggregating Rs. 324 per annum.

21. In addition to the above Policemen, there are 95 watchmen, called Naikowdis, who enjoy in lieu of cash remuneration, my Saranjami lands situated in villages transferred by me to the British Government; but as they refused to serve I have employed in their stead 25 paid men at a cost of Rs. 1800 per annum. This sum is recovered from the lands held by the absent or refractory Naikowdis agreeably to Government Resolution No. 1229, dated 13th February 1895, and Para 4 of the Rules passed under Schedule B Clause 10 of Act XI of 1852.

22. The proportion of the stipendiary Police together with the Shetsandis to the population of the State according to the census of 1891 is 1 to 314 souls.

23. The conduct of the Police force was on the whole good. Two Police peons were dismissed for misconduct and two were sentenced to imprisonment and fine for voluntarily causing hurt to an accused to obtain restoration of property.

24. Out of the total number of ~~93~~ 68 stipendiary Police men, 24 persons or 35 percent are able to read and write.

25. The Police men in my State are dressed like those in the service of the British Government. Those employed on the duty of guarding Treasuries are armed with the muskets lately supplied to me by the British Government and the rest with batons.

26. The value of property stolen and recovered together with the percentage of recovery is contrasted below :—

| Year. | Value of property stolen. | Of which recovered. | Percentage of property recovered |
|---|---|---|---|
| 1894—95 | 3719-8-6 | 2577-5-9 | 69.3 |
| 1893—94 | 1107-9-0 | 793-11-9 | 71.6 |

The value of Stolen property recovered is very large, and therefore, the insignificant decrease in the percentage is not worth notice.

27. In addition to the Police force mentioned above there is an irregular force called Shibandi in number 56. Out of these 39 are armed footmen and 7 Mankuries or Body guard Horsemen. These men are generally employed in guarding Treasuries and supplying Escorts.

28. The total number of Police Patels is 72 at the rate of one for each village. None of them have been invested with the special powers under Sections 14 and 15 of the Village Police Act VIII of 1867, because they have not sufficient education. One Patel was sentenced to five months rigorous imprisonment for abetting theft in a building and two were fined for neglect of duty. With this exception the work of these village officers was on the whole good.

29. Thirteen accidental deaths occurred viz:—

| —— | 1893—94 | 1894—95 |
|---|---|---|
| By Snake bites..... | 2 | 4 |
| „ Drowning in wells and rivers..... | 9 | 8 |
| „ Gored by a bullock..... | 1 | » |
| „ Fall from a tree..... | „ | 1 |
| „ Killed by lightening and fire..... | 1 | 1 |
| „ Suicide..... | „ | 2 |
| Total... | 13 | 16 |

It is to be regretted that not-withstanding the destruction of prickly-pear, four men died from snake-bite.

(*d*) *Criminal justice.*—

30. The various Criminal Courts at work during the year are :—

| | Nos. |
|---|---|
| The Huzur Criminal Court presided over by myself... | 1 |
| The Karbhari and District Magistrate..... | 1 |
| The Sursubhedar and Magistrate, First Class, Aundh... | 1 |
| Do. Do. Second Class Aundh State... | 1 |
| The Duftardar, Magistrate Second Class Aundh..... | 1 |
| Mamlatdars, Second Class Magistrates..... | 3 |
| Sub-Judge, Third Class Magistrate..... | 1 |
| Thanedars, Third Class Magistrates..... | 4 |
| | 13 |

It will be seen from statement No. X that I tried 6 criminal cases in my capacity of a Sessions Judge.

In his capacity of District Magistrate the Karbhari exercises efficient control over all the subordinate Magistrates. 14 cases were disposed of by him.

31. The total number of offences brought to trial before all the Courts was 147 against 154 in the previous year. The percentage of convictions to the number of accused brought to trial is 67·6 against 71·4. Taking into consideration the decrease in the number of offences, this decrease in the percentage is not worth notice.

32. No cases remained undisposed of at the end of the year.

## Appeals.

33. During the year under report the Huzur Appellate Court dealt with 3 appeals against 6 of the previous year with the following result.

| | | |
|---|---|---|
| Sentence confirmed..... | | 2 |
| „ | Modified..... ..... | 1 |
| „ | Reversed..... ..... | „ |
| | | 3 |

No appeals remained undisposed of.

## Revision.

34. As a court of revision I reduced by one half the sentence of fine passed in one case by the Second Class Magistrate of Atpadi. Further finding on examination of the records that the same Second Class Magistrate had passed a lighter sentence of imprisonment in a case of grievous hurt, I enhanced the same.

(*e*) *Extradition.*—

35. During the year demands were made by the Political Agent, Satara, for the surrender of one accused person and by this State for the surrender of two accused from the British territory. There has been no want of reciprocity in the extradition of offenders on the part of neighbouring States.

(*f*) *Prisons.*—

36. The Jail building at Kinhai is sufficient to accommodate 50 prisoners, but as their average number did not exceed 18, a portion of the building was utilized for a Printing press which is worked by prisoners.

37. There are four lock-ups at the Taluka stations. The short term prisoners are mostly confined therein. The medical officers employed at different places look after the health of the Jail population.

The convicts at the Huzur Jail and at the lock-ups enjoyed good health generally. Only one woman who was admitted into the Jail with heart disease died.

38. The Jail discipline is similar to that obtaining in Jails under the British Government. The convicts, save those employed on the printing press, work on roads.

39. The rates of ration in force in the Satara Sub-Jail have been introduced, with this modification that the untried prisoners are allowed the same ration as those given to tried prisoners and not less.

40. The expenditure incurred on account of the Jail Department amounts to Rs. 2309-4-5 against Rs. 2707-6-3 in the previous year. This

decrease is mainly due to the non-receipt of Bills on account of the maintenance of the murderers sent to the Andaman Islands or kept in Lunatic Asylum.

41. The average period an accused is detained before trial is 4 days except in the case of accused surrendered under the Extradition Act, wherein the process of asking for surrender and the bringing of witnesses from Regulation District has unavoidably taken a long time.

*(g) Civil Justice.*

42. The number and designation of the Civil Courts in the year under review was as shown below :—

| | |
|---|---|
| 1 | The Huzur Civil Court presided over by myself. |
| 3 | Courts of the Second Class Subordinate Judges. |
| 4 | |

43. The number and value of suits will be seen from the subjoined statement.

| | Name of Court. | Suits for immoveable property. | | Money Suits. | | Suits for other rights. | |
|---|---|---|---|---|---|---|---|
| | | 1893—94 | 1894—95 | 1893—94 | 1894—95 | 1893—94 | 1894—95 |
| 1 | Second Class Sub-Judge Atpadi..... | 13 | 16 | 120 | 148 | 2 | 2 |
| 2 | Do Class Sub-Judge Kapil... | 12 | 17 | 78 | 85 | 11 | 10 |
| 3 | Do „ Gundal ..... | 5 | 0 | 8 | 3 | 0 | 2 |
| | | 30 | 33 | 206 | 236 | 13 | 14 |
| | | | | | | 30 | 33 |
| | | | | | | 206 | 236 |
| | | | | | Total Suits... | 249 | 283 |

The value of the suits filed during the year amounts to Rs. 29677-11-3 against Rs. 29264-13-5 in the previous year.

44. There were only 14 suits remaining undisposed of against 22 in the preceding year.

The average duration of each suit is 2 months and 13 days against 2 months and 9 days in the previous year.

The speediness with which the civil work was disposed of by the Lower Courts is creditable to the Sub-judges. This average duration is the smallest that can possibly be achieved.

45. The following statement will show the work done by the Huzur Civil ( Appellate ) Court :—

| Name of Court. | Opening balance. | | Filed during. | | Total. | | Disposed of during. | | Closing balance. | | Value of appeals filed during. | | How disposed of. | | | | | Average duration. In 1893-94. | | | Average duration. In 1894-95. | | |

EXECUTION.

46. Statement No. XIV will show that the Civil Courts had to dispose of 267 applications for the execution of decrees. Out of these 224 were disposed of leaving 43 pending at the close of the year.

Suits under the Mamlatdar's Court Act III of 1876.

47. During the year under review the Mamlutdars had to dispose of 60 suits against 61 in the previous year. Out of these 58 were disposed of leaving only 2 filed at the close of the year pending. The work was done satisfactorily.

(*h*) *Registration.*

48. The Huzur Registry office is kept at Aundh. The Duftardar has been invested with the functions of the District Registrar. The number of the Sub-Registry offices kept at Taluka stations is 6.

49. The subjoined table shows the description of the documents registered during the year as compared with those in the preceding year.

Last year there were six Village Sanitation Committees. The Act having been introduced into one more village Kurguni this year their number is seven.

The expenditure has been solely on Sanitation such as sweeping streets, improving water-supply, lighting lamps, cutting down prickly-pear and improvement of roads.

## CHAPTER IV.

### Production and Distribution.

### (*a*) *Agriculture, Weather and Crops.*

51. Agriculture is the chief occupation of a considerable portion of the subjects of the State. The condition of the Agricultural classes is on the whole

good. This is evident from the increase in their agricultural stock as under :—

| Year. | Bullocks. | Cows. | Shebuffa-lows. | Ploughs. | Remarks. |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1894-95 | 21595 | 18670 | 6591 | 2557 | |
| 1893-94 | 21393 | 14938 | 5937 | 2583 | |
| Increase. | 202 | 3732 | 654 | ..... | |
| Decrease. | ..... | ..... | ..... | 26 | |

52. The rainfall at the several stations was as follows :—

| Name of the Station. | 1893-94. | | 1894-95. | |
|---|---|---|---|---|
| | Inches. | Cents. | Inches. | Cents. |
| 1 Aundh... ... ... | 22 | 91 | 15 | 37 |
| 2 Kundal ... ... | 26 | 74 | 18 | 31 |
| 3 Atpadi... ... ... | 23 | 53 | 16 | 92 |
| 4 Gundal... ... ... | 14 | 6 | 18 | 33 |

The fall of rain was not seasonable for Khurriff or monsoon crops, but the Rubee or cold weather crops yielded a good harvest. The price of fodder for cattle was rather high.

(*b*) *Wages and labour:*—

53. The wages per diem for skilled and unskilled labour were as follow :—

Carpenter..... 8 to 12 annas.
Mason ..... 8 to 10 annas.
Cooly ..... 3 to 4 annas.
Cart of two bullocks...12 annas to one Rupee.
Ponies.....10 annas to 12 annas.

54. The prices of the staple food grains, at the time of the harvest in the Atpadi Thana, where 32 of my villages are situated together, were :—

Jowari..... 43 pounds per Rupee.
Bajri ..... 37 do. do.
Tur-pulse..... 21 do. do.
Gram ..... 35 do. do.
Wheat..... 37 do. do.

(*c*) *Forests* :—

55. About 4300 Acres are set apart for the growth of Forest. There is no separate Forest Establishment. The existing Revenue Establishment looks after it.

(*d*) *Trade and Manufactures* :—

56. There are no factories or other work-shops in the State.

57. The chief articles of export are wheat, cotton, coarse-sugar, ground-nuts, Jowari and Bajri. The chief articles of import are piece-goods, stationery, sugar, grocery, Kerocine oil, &c. There is however, no extensive traffic in these articles. The articles imported are mostly for local consumption. Every facility to commerce is afforded. No transit duties and town duties are levied and no Road-Toll-bars exist.

58. The following cesses were remitted during the year under report on account of the introduction of Survey rates.

1 Metti–a cess levied by Village Officers from cultivators.
2 Nusbulutta–a tax on Mahars.
3 Sootchiwut–a tax on the yarn spun by cultivators.
4 Andodi–a tax on Mangs.

(*e*) *Fairs* :—

59. The important fairs in the State are those at Aundh, Boblad, Khursundi and Kinhai. They are held annually in the months of January, February, April and November respectively. The fair at Kinhai was attended by 2500 persons and that at Aundh and Boblad by about 5000 persons and that at Khursundi by upwards of 14000 persons. At the Khursundi fair a large cattle market is held and dealers in cloth and brass-pots come from long distances with their articles for sale. The pilgrim tax at half anna per man, which was levied at Khursundi, is being spent in opening the Khursundi-ghat for cart traffic.

(*f*) *Public Works* :—

60. The following statement will show the expenditure on public works and public buildings &c., in the State.

61. In para 109 of my Administration Report for 1891-92, I promised to construct suitable buildings for the Dispensaries at Aundh and Atpadi, and I have now much pleasure in stating that these buildings have almost been completed at a cost of about Rupees 2,600. The full expenditure on their account will appear in next year's report after the adjustments of the advances shall have been made.

62. Libraries are not useful to the agricultural classes in general and therefore, they have been mostly built from State funds and not from Local funds which have been applied to Roads, Dharmshallas, Chowdis and Ferry-boats.

The expenditure on public works has been ample.

63. In para 20 of his remarks on the last year's Administration report the Commissioner C. D., Mr. Fleet, stated that the road to Aundh was the worst that he ever traversed. I have already satisfied Government that the portion of the road lying within the Aundh State was in good condition and the piece found fault with was within Government limits in charge of Local Boards. However, at the request of Mr. Loch, the late Political Agent, I undertook the improvement thereof and carried it out at a cost of Rupees 518-10-0.

## CHAPTER V.

*Revenue and Finance.*

64. The following statement will show the opening and the closing balance for the year under review as compared with the previous years.

STATEMENT No. I.

| Years. | Opening balance. | Receipts. | Disbursement. | Closing balance. |

| 1893-94... | 56767 13 6 | 199967 12 11 | 201246 10 0 | 55489 0 5 |

Last year the receipts, expenditure and balances on account of Local Funds were separated from those of the State revenues, according to the wishes of the Commissioner C. D., and Government, and therefore, an alteration in figures took place. I have explained the alteration in detail in my letter to your address No. 143, dated the 4th December 1894, and therefore, refrain from writing any thing about it here.

65. The proceeds from the sale of the occupancy rights were greater last year than the current and hence the decrease in the receipts from land revenue. The decrease under the head Abkari is due to the non-receipt from Government of the amount due for the monopoly of manufacturing and selling liquor in the Aundh State made over to them, and that under the head other items is attributable to the abolition of objectionable cesses in the Gundal Mahal consequent on the introduction of Survey rates therein. The decrease under other heads is so small that it calls for no notice.

66. The sale proceeds of the occupancy right of private Sheri and Inam lands which were credited in the State accounts, were made over to the Khasgi Department and hence principally the increase in the expenditure under the head Khasgi.

The alienated villages attached to the temple of Yumai at Aundh were taken under direct management and cash payments substituted theirfor. This accounts for the increased expenditure under the head Dewusthans.

The Hakdars' dues in those villages which were paid by the alienees direct, having been now brought to account, explains the increase on that account.

Pay of the Revenue and the Police Establishment was increased by Rupees 759-7-5 and 356-7-1 respectively, and the increase under the head Shibundi is accounted for by that body having been supplied with new dress and muskets purchased from British Government.

Last year the amount paid in liquidation of debts was Rupees 22458 but this year Rs. 27600 were paid. In like manner deposits to the large amount of Rs. 4710-3-5 were repaid. The debt against the State has now been reduced to the small sum of Rupees 35608-13-6.

The principal decrease is under the head Survey Department, owing to the completion of the Survey operations. The decrease under other heads is not worth notice.

## LOCAL FUNDS.

### Receipts and Expenditure.

67. Appendix No. XVII shows an increase of Rs. 819-15-11 in Local Funds receipts caused principally by the imposition of Local cess on service lands and the increased receipts from school fees and fees for quarrying stones &c.

The decrease in expenditure is to be attributed to the smaller expenditure on Local Fund Public Works.

68. The manufacture of earth-salt in the State has been suppressed and the monopoly to give licenses for the sale of country spirits has been made over to the British Government until the end of 31st July 1904.

## CHAPTER VI.

## *Vital statistics and Medical Services.*

69. The two charitable institutions viz. the Dispensaries at Aundh and Atpadi have been progressing favourably. The subjoined table will show the main particulars concerning the medical relief afforded to the patients.

* The Hospital Assistant Atpadi has committed a mistake in including in the number of patients treated by him all the cholera patients in the Atpadi Taluka to whom Cholera medicine was sent from his dispensary and therefore, the number of deaths is large.

70. Compared with last year, the number of patients treated this year in the Dispensaries at Aundh and Atpadi was smaller by 413 and 495 souls respectively owing, no doubt, to the absence on leave of both the Assistants for one month each.

71. The number of major and minor operations performed by both the Hospital Assistants will be seen from the following table :—

| No. | Names. | Major operations. | Minor operations. | Total. |
|---|---|---|---|---|
| 1 | Rawaji Shivaram of Aundh ..... | 5 | 213 | 218 |
| 2 | Abaji Balkrishna of Atpadi ..... | 2 | 170 | 172 |

One native physician is located at Kundal and another at Kinhai and their services are availed of by those who do not like to take English medicines.

72. The medical Department is maintained at a cost of Rupees 1580–14–3 against Rupees 2519–1–9 in the previous year. The decrease of Rs. 938–3–6 is due to the absence of the supply of furniture and surgical instruments to the Atpadi Dispensary.

## *Births and Deaths.*

TABLE II.

73. The subjoined table will show the total number of births and deaths in the State during the year under review.

| —— | 1893–94 | 1894–95 | Increase. | Decrease. |
|---|---|---|---|---|
| Births ... ... ... ... ... | 2790 | 2846 | 56 | ... |
| Deaths... ... ... ... ... | 2296 | 2160 | ... | 136 |

The birth rate per 1000 of the population is 43·6 and the death rate was 33·2 against 42·8 and 35·2 of the previous year. The increase in the birth rate and the decrease in the death rate prove healthiness of the population generally.

## SANITATION AND VACCINATION.

74. No separate establishment has been maintained for sanitation. The work is performed by order of the Village and Taluka Officers under the direction of the Karbhari and the result is creditable to all concerned. Large masses of prickly-pear which hitherto infested almost every village have been cut down and burnt. The construction of roads in all villages with the view of securing cleanliness and preventing encroachments is going on and places for the burial and burning of the dead have been appointed and notified in half the villages of the State.

75. The following table will show the progress of vaccination in the State during the year under review as compared with that in the previous year.

| Operation by whom performed. | Number of persons vaccinated in. | | Result. | | | | | |
|---|---|---|---|---|---|---|---|---|
| | | | Successful. | | Unsucessful. | | Unknown. | |
| | 1893–94 | 1894–95 | 1893–94 | 1894–95 | 1893–94 | 1894–95 | 1893–94 | 1894–85 |

| Total..... | 2646 | 2826 | 2189 | 2321 | 18 | 18 | 439 | 487 |

The vaccinator of Kundal not having sufficient work in Kundal Taluka is obliged to visit Gundal Mahal near Bijapur and allowed travelling allowance.

76. The cost of the Department was Rupees 544-6-3 against Rs. 540-8-2 in the preceding year. This slight increase calls for no remark.

## CHAPTER VII.

### *Instruction.*

77. There are 72 villages in the State. The number of schools during the year under report is 27 as per subjoined table.

| Number. | Description of schools. | Number of Pupils on the Roll on the 31st March 1895. | Number of pupils on the Roll on the 31st March 1894. | Average daily attedance. |
|---|---|---|---|---|
| 23 | Primary Schools for boys.. | 943 | 898 | |
| 3 | Schools not conducted according to the Educational Standards..... | 100 | 109 | |
| | | 1043 | 1007 | 780 |
| 1 | Primary School for girls.., | 54 | 63 | 27 |
| | | 1097 | 1070 | |

78. There has been an increase of 36 boys and a decrease of 9 girls attending the different schools this year. The increase in the number of boys is due to the pains taken by the School Masters but they have failed in inducing parents to send their daughters to school. The trading classes do not want instruction according to the Educational standards, but simple reading, writing and arithmetic, and therefore, three schools conducted according to the old system are maintained.

79. As the State is comprised of 72 villages only, the number of schools is ample. The school masters at Aundh and Kinhai have been induced to instruct low caste boys whose number now is 13.

80. The cost of the Educational Department is contrasted below:—

| Items. | 1893—94 | | | 1894—95 | | |
|---|---|---|---|---|---|---|
| | Rs. | a. | p. | Rs. | a. | p. |
| 1 Educational establishment and contingencies..... | 4040 | 9 | 1 | 4064 | 4 | 3 |
| 2 School Buildings..... | 2964 | 5 | 0 | 504 | 8 | 6 |
| 3 Supply of maps and furniture ..... | 297 | 14 | 0 | 289 | 8 | 9 |
| | 7302 | 12 | 1 | 4858 | 5 | 6 |

The cost of the school establishment remains the same. The reduction in the expenditure on account of school buildings is due to the absence of any new building this year.

81. The Educational Inspector of the State reports that the result of his examination of schools was on the whole satisfactory. I visited a large number of schools during my tour and have personally satisfied myself about the correctness of the Inspector's report.

82. My second wife's youngest son Bhowan Row alias Bala Saheb, who is a graduate ( B. A. ) and who is now studying for the degree of L. L. B. at Bombay, arranged with the assistance of his elder brother Tatya Saheb, to have an Exhibition of the products of the State and cattle at Aundh during the school vacation in April last. Taking into consideration that this was the first Exhibition in the Aundh State it was fairly successful.

## CHAPTER VIII.

### *Miscellaneous.*

83. There are no wild animals infesting the State. The number of snakes must have decreased owing to the extermination of prickly-pear.

84. There are no Telegraph offices in the State but only 4 Post offices viz. 1 Aundh, 2 Kinhai, 3 Kundal, 4 Atpadi.

85. The State records are in good order. The destruction of useless papers is going on accordingly as the assortment proceeds.

86. There is a Printing Press in which all forms required by the Judicial, Magisterial and Revenue officers are printed.

87. There are reading rooms at Kinhai and Aundh for which two new suitable buildings have been erected.

88. There are no taxes on trades and no Toll-bars exist.

89. In short I am in a position to state that the reforms introduced during the last four years have, in my opinion, made the Administration of my State as satisfactory as possible. The efficiency of the Police has diminished

crime considerably and made the non-detection of any serious offence an impossibility. Justice is speedily and satisfactorily meted out in consequence of which appeals to you have become a rarity. The Survey Settlement has been introduced in all the Thanas for the benefit of the cultivators who are contented and happy. The Financial condition is fast improving and the debt has been paid off to the extent of three-fourths of the original amount without lessening expenditure on works of Public utility to any perceivable extent.

90. In conclusion I beg to express my thanks to all the four Political Agents who were at the head of the Agency during the year under Report for their cordial support.

I have the honor to be,

Sir,

Your most obedient servant,

( Sd ) SHRINIWAS ROW PURASHRAM,

Pundit Punt Prutinidhi,

Chief of the Aundh State.

# ADMINISTRATION REPORT OF THE AUNDH STATE, IN THE SATARA COLLECTORATE, FOR 1305 FASLI, A. D. 1895-96.

From,

SHRINIVAS ROW PURASHRAM PUNDIT,

PUNT PRUTINIDHI,

Chief of the Aundh State.

To,

C. B. WINCHESTER, Esquire,

Political Agent,

Satara.

*Kinhai, dated, 15th July 1896.*

Sir,

I have the honor to submit the Annual Administration Report of the Aundh State for the year 1305 Fasli ending with 5th June 1896.

2. The usual Statements as per margin accompany together with two new supplements to Statement No. XVII—the one showing adjustments, and the other debts, as required by your Memo No. 236, dated 2nd May 1894.

I to IV and VI to XVII.

As there is no Military Force in the State, Appendix No. V relating thereto, has not been forwarded.

3. In small States like mine, Annual Reports become formal, there being no new matter worth notice every year. It is, therefore, necessary to premise that this report is more or less a reprint of that of last year with a few necessary alterations in figures and remarks.

## CHAPTER I.

### Political.

4. The State of Aundh is in alliance with the British Government under the Treaty of 1820. No tribute is paid to the Paramount Power.

5. I had the pleasure of an interview with His Excellency the Right Honorable Lord Sandhurst, Governor of Bombay and the Honorable Members of Council on 21st June 1895 and with yourself on 19th July following. My object of visiting you all was solely the determination of my successor according to Hindu Law and custom of my Family.

In compliance with the wishes of Government as conveyed in para :10 of their Resolution quoted in the margin, I have left column 10 of Appendix No. II blank ; because as required in para : 2 of the same Resolution, I have already submitted a separate * representation to the address of His Excellency the Governor intimating once for all that according to the Hindu Law and custom of all the Brahmin families throughout India and the High Courts' decisions, my first-married wife's son is alone entitled to future succession, and received a reply thereto that the subject will be duly considered when the time comes.

G. R. No. 7229 Dated 20th November 1895 P. D.

* Vide letter No. 65 Dated 21st June 1895.

6. I visited five of the six Thanas of my State and made the Jamabundi thereof. The Jamabundi work of the remaining one Thana was made by the Karbhari.

## CHANGES IN THE ADMINISTRATION.

7. There has been no change in the Administrative machinery this year.

# CHAPTER II.

### Administration of Land.

8. The Survey Settlement of the whole of the Aundh State and the Revision settlement of the village of Kinhai were completed last year. The settlement of remuneration to Village officers according to what is called the 'Wingate's scale' is being made by an officer employed under the directions of Mr. Whitcombe, Survey Superintendent of Native States and will, it is hoped, be completed this year.

There are no special tenures in the State.

## INAM SETTLEMENT.

9. The Settlement of non-service inams was completed in the year preceding. During the year under report the Wadhawa or excess found by the Revenue Survey Department as existing in many service holdings of village hereditary servants, whose services are required by the State, was remitted with the object of increasing their emoluments.

## WASTE LANDS.

10. The following table shows the extent of waste lands taken up for cultivation and still remaining waste.

| Extent of Cultivable area for | | Taken up in. | | Waste remaining at the end of the year. | | Percentage of cultivable land lying waste in. | |
|---|---|---|---|---|---|---|---|
| 1895—96 | 1894—95 | 1895—96 | 1894—95 | 1895—96 | 1894—95 | 1895—96 | 1894—95 |
| A. G. | A. G. | A. G. | A. G. | A. G. | A. G. | | |
| 5980—2 | 4814—7 | 1804—19 | 978—30 | 4175-23 | 3835—17 | .01 | .01 |

The increase in the extent of waste land is attributable to the acreage of the Kundal Thana according to the Revenue Survey measurement having been brought to account this year and not to the cultivators giving up their lands, and as the extent of land taken up for cultivation is double that of last year, the condition of the agricultural classes must be considered as improving.

11. The Village, Taluka and Huzur Accounts are kept up mostly according to Mr. Symonds' forms of accounts. A proper check over them by way of inspection is kept by the Karbhari and the Duftardar. My son Bhugwant Row, Sursubhedar, also does the duty of examining the cash balances, stamps &c. throughout the Treasuries in the State.

12. Boundary disputes:—None.

13. No estates belonging to Wards were under the management of the State.

## CHAPTER III.

### Protection.

(α) Legislation.—

14 The following Acts and Regulations are in force in the State as far as practicable;—

*Government of India Acts.*

" II of 1890 Salt.
" IV of 1890, District Police.

The Mamlatdar's Court Act is in force subject to the reservation that appeals against the Mamlatdar's decisions are entertained.

( *b* ) Police,—

15. The Police force has done and is doing its duty effiiciently. This is evident from the gradual decrease in the number of offences as detailed in the margin and from the fact that there has not been a single case of murder, dacoity or robbery this year,

| Year | No of offences reported |
|---|---|
| 1890-91 | 400 |
| 1891-92 | 285 |
| 1892-93 | 189 |
| 1893-94 | 158 |
| 1894-95 | 153 |
| 1895-96 | 141 |

| Strength | Cost |
|---|---|
| 67 | 9002. |

16. The strength and cost of the stipendiary Police is as noted in the margin and detailed in Appendix No.VI,

| | | |
|---|---|---|
| 4 | Kundal for guarding Treasuries. | |
| 4 | Gundal | Do. Do. |
| 3 | Kotyal Police | Post. |
| 1 | Dhunargi | Do. |
| 1 | Gulgule | Do. |
| 1 | Hubnur | Do, |
| 14. | | |

There are besides 40 Shetsundis employed on Police duties. They each hold service 'inam lands of the value of from Rs. 24 to 50. I have supplemented the landed income of 14 of them, employed on regular Police duties, by cash allowances aggregating Rs. 324 per annum.

17. There are besides 95 watchmen, called Naikowdis, who enjoy in lieu of cash remuneration, my Saranjami lands situated in villages transferred by me to the British Government; but as they refused to serve, I have employed in their stead 25 paid men at a cost of Rs. 1800 per annum. This sum is recovered from the lands held by the absent or refractory Naikowdis agreeably to Government Resolution No. 1229, dated 13th February 1895, and para 4 of the Rules passed under Schedule B Clause 10 of Act XI of 1852.

The conduct of the Police force was good. Only one Police peon was suspended for two months for absence without leave.

18. In reference to para: 5 of your remarks on the last year's Administration Report, I beg to inform you that the Police Inspector's place was abolished in compliance with the Commissioner's opinion that for such a small Police force, no highly paid head ( such as Police Inspector ) was necessary.

In regard to your remarks about the salaries of the Chief Constables I beg to subjoin extract para 30 from my Report for 1891-92.

'Compared with the salaries enjoyed by the Chief Constables 'under the British Government, the salaries assigned by me to some 'of my Chief Constables would appear smaller, but when the territorial 'charges of both are taken into consideration, they would appear to be 'ample, and are equal to those paid in other Native States yielding re- 'venues larger than mine. Each Taluka under the British Govern- 'ment comprises from 150 to 200 villages and the Chief Constable in 'charge of it is paid Rs. 50 monthly. My whole jahagir consists of 72 villages 'only and for these in place of one I have five Chief Constables as under:—

| No. | Name of Station. | No. of villages comprising each station. |
|---|---|---|
| 1 | Aundh..... | 1 |
| 2 | Kinhai..... | 2 |
| 3 | Kundal ..... | 20 |
| 4 | Atpadi ..... | 32 |
| 5 | Gundal ..... | 17 |
| | Total..... | 72 |

'In short the position of the Chief Constables in my State is equal 'to that of Head Constables on Rs. 12 in charge of Police post 'under the British Government'.

From the above particulars you will, I trust, be convinced that the salaries given to the so called Chief Constables are ample. However, out of respect to your remarks I have given the Chief Constables of Atpadi, Gundal and Kundal an allowance of Rs. 5 and after striking off from the roll of Police force two Constables who were getting less than Rs. 6 a month, employed one more Constable on Rs 10-

Out of the total number of 67 stipendiary Police men 24 persons or 35 percent are able to read and write.

19. The Police men in my State are dressed like those in the service of the British Government. Those employed on the duty of guarding Treasuries are armed with the muskets lately supplied to me by the British Government and the rest with either batons or swords.

20. The value of property stolen and recovered together with the percentage of recovery is contrasted below:—

| Year. | Value of property stolen. | Of which recovered. | Percentage of property recovred |
|---|---|---|---|
| 1894-95 | 3719-8-6 | 2577-5-9 | 69.3 |
| 1895-96 | 3235-0-9 | 2086-3-4 | 64.4 |

The amount of property stolen during the year under report is less by Rs. 484-7-9 and therefore the slight decrease in the percentage is not worth notice. However, the reason given by the Police is that a theft of property worth about Rs. 343 which was committed about the end of the year is still under investigation.

21. In addition to the Police force m entioned above there is an irregular force called Shibandi in number 56. Out of these 39 are armed footmen and 7 Mankuries or Body guard Horsemen. These men are generally employed in guarding Treasuries and supplying Escorts.

22. The village Police consists of 72 Watandar Police Patels at the rate of one for each village and 78 Ramoshis or hereditary village watchmen. None of the Patels have been invested with the special powers under sections 14 and 15 of the Village Police Act VIII of 1867, because they have not sufficient education. One Patel was sentenced to one year's rigorous imprisonment and fine Rs. 100 for using criminal force to a woman with intent to outrage her modesty, and another was suspended for neglect of duty for two months.

23. Twenty eight accidental deaths occurred viz:—

| —— | 1895-96 | 1894-95 |
|---|---|---|
| By Snake bites..... | 7 | 4 |
| " Drowning in wells and rivers..... | 14 | 8 |
| " Fall from a tree & the fall of a house | 1 | 1 |
| " Killed by lightening and fire..... | 6 | 1 |
| Total..... | 28 | 14 |

The increase in the number of deaths by drowning is much to b regretted but it is not attributable to any want of precaution in fencing public wells but to two accidents in one of which a raft

capsized accidentally in a pond and caused the death of two women, and in another two boys lost their lives in trying to save a girl who had slipped into deep water while washing her clothes in a well.

Although prickly-pear has been cut down mostly still there has been an increase in the number of deaths from snake bites. It is stated by some that the snakes having lost their shelter in prickly-pear have taken refuge in the grass-huts of poor cultivators.

( c ) *Criminal justice:—*

24. The various Criminal Courts at work during the year are:—

| | Nos. |
|---|---|
| The Huzur Sessions Court presided over by myself..... | 1 |
| The Karbhari and District Magistrate..... | 1 |
| The Sursubhedar and Magistrate, First Class, Aundh... | 1 |
| Do. Do. Second Class Aundh State..... | I |
| The Duftardar, Magistrate Second Class Aundh ..... | 1 |
| Mamlatdars, Second Class Magistrates..... | 3 |
| Sub-Judge, Third Class Magistsate..... | 1 |
| Thanedars, Third Class Magistrates..... | 4 |
| | 13 |

It will be seen from Statement No. X that I tried 3 Sessions cases. In two the accused were convicted and in one the accused was acquitted.

In his capacity of District Magistrate the Karbhari exercises efficient control over all the subordinate Magistrates. 11 cases were disposed of by him.

25. The total number of offences brought to trial before all the Courts was 163 against 147 in the previous year. The percentage of convictions to the number of accused brought to trial is 71·9 against. 67·6. No cases remained undisposed of at the end of the year. The average duration of cases disposed of by the Karbhari was one day and that of cases tried by other Magistrates did not exceed three days

## APPEALS.

26. During the year under report the Huzur Appellate Court dealt with 11 appeals against 3 of the previous year with the following result.

| | |
|---|---|
| Appeal rejected..... | 1 |
| Sentence confirmed..... | 6 |
| " Modified..... | 2 |
| " Reversed..... | 1 |
| Proceedings quashed..... | 1 |
| | 11 |

## REVISION

As a court of revision I reversed the sentences passed by the second

class Magistrate of Atpadi in two cases of theft and house-trespass and remitted the fine in one case of rash-driving tried by the 3rd class Magistrate of Mahuli.

( *d* ) *Extradition.*—

27. During the year a demand was made by the Political Agent Satara for the surrender of one accused person and by this State for the surrender of one accused from the British territory. There has been no want of reciprocity in the extradition of offenders on the part of neighbouring States.

( *e* ) *Prisons.*—

28. The Jail building at Kinhai is sufficient to accommodate 50 prisoners, but as their average number did not exceed 14, a portion of the building is utilized for a printing press which is worked by prisoners.

29. There are four lock-ups at the Taluka stations. The short term prisoners are mostly confined therein. The medical officers employed at different places look after the health of the Jail population.

The convicts at the Huzur Jail and at the lock-ups enjoyed good health.

30. The Jail discipline is similar to that obtaining in Jails under the British Government. The convicts, save those employed on the printing press, work on roads.

31. The rates of ration in force in the Satara Sub-Jail have been introduced, with this modification that the untried prisoners are allowed the same rations as those given to tried prisoners and not less.

32. The expenditure incurred on account of the Jail Department amounts to Rs. 2658-11-4 against Rs. 2309-4-5 in the previous year. This increase is due to the payment of Bills on account of the maintenance of the murderers transported to the Andaman Islands.

( *f* ) *Civil justice.*

33. The nnmber and designation of the Civil Courts in the year under review was as shown below:—

1 The Huzur Civil Court presided over by myself.
3 Courts of the Second Class Subordinate Judges.

34. The number and value of suits will be seen from the subjoined Statement.

| | Name of Court. | Suits for immoveable property | | Money Suits. | | Suits for other rights. | |

| | | | | | | 62 | 33 |
| | | | | | | 249 | 236 |
| | Total Suits... | | | | | 320 | 283 |

The value of the suits filed during the year amounts to Rs. 30923-3-9 against Rs. 29677-11-3 in the previous year.

35. There were only 20 suits remaining undisposed of against 14 in the preceding year. This increase is attributable to the increase in the number of suits.

The average duration of each suit is 2 months and 7 days against 2 months and 13 days in the previous year.

The speediness with which the Civil work was disposed of by the Lower Courts is creditable to the Sub-Judges.

36. The following Statement will show the work done by the Huzur Civil ( Appellate ) Court.

EXECUTION.

37. Statement No. XIV will show that the Civil Courts had to dispose of 306 applications for the execution of decrees. Out of these 277 were disposed of leaving 29 pending at the close of the year.

Suits under the Mamlatdar's Court Act III of 1876.

38. During the year under review the Mamlutdars had to dispose of 38 suits against 60 in the previous year. Out of these 37 were disposed of leaving only 1 filed at the close of the year pending. The work was done satisfactorily.

( *g* ) *Registration.*

39. The Huzur Registry Office is kept at Aundh. The Duftardar has been invested with the functions of the District Registrar. The number of the Sub-Registry offices kept at Taluka stations is 6.

40. The subjoined table shows the description of the documents registered during the year as compared with those in the preceding year.

The income is partly derived from the house tax and partly by the local cesses hitherto levied by the State but now transferred to the Committees such as cattle pound, taxes on snuff and betel leaves &c.

The expenditure has been solely in employing Sweepers for the removal of filth and in improving water supply, roads and lighting lamps.

## CHAPTER IV

### Production and Distribution.

### (*a*) *Agriculture, Weather and Crops.*

42. Agriculture is the chief occupation of a considerable portion of the subjects of the State. The condition of the Agricultural classes is on the whole good. This is evident from the increase in their agricultural stock as shewn in Statement No. XVI.

43. The rainfall at the several stations was as follows :—

| Name of the Station. | 1895—96. | | 1894—95. | |
|---|---|---|---|---|
| | Inches. | Cents. | Inches. | Cents. |
| 1 Aundh... ... : | 31 | 82 | 15 | 37 |
| 2 Kundal... ... ... | 28 | 77 | 18 | 31 |
| 3 Atpadi... ... ... | 28 | 78 | 16 | 92 |
| 4 Gundal... ... ... | 17 | 47 | 18 | 33 |

The fall of rain was seasonable and the crops yielded a good harvest. The price of fodder for cattle was notwithstanding rather high.

( *b* ) *Wages and labour* :—

44. The wages per diem for skilled and unskilled labour were as follow :—

Carpenter..... 8 to 12 annas.
Mason..... 8 to 10 annas.
Cooly..... 3 to 4 annas.
Cart of two bullocks...12 annas to one Rupee.
Ponies.....10 annas to 12 annas.

45. The prices of the staple food grains, at the time of the harvest in the Atpadi Thana, where 32 of my villages are situated together, were :—

Jowari..... 43 pounds per Rupee.
Bajri..... 37 do. do.
Tur-pulse..... 27 do. do.
Gram ..... 35 do. do.
Wheat ..... 37 do. do.

( *c* ) *Forests* :—

46. About 4300 acres are set apart for the growth of Forest. There is no separate Forest Establishment. The existing Revenue Establishment looks after it.

( *d* ) *Trade and Manufactures* :—

47. There are no factories or other work-shops in the State.

48. The chief articles of export are wheat, cotton, coarse-sugar, ground-nut, Jowari, and Bajri. The chief articles of import are piece-goods, stationery, sugar, grocery, Kerocine oil, &c. There is however, no extensive traffic in these articles. The articles imported are mostly for local consumption. Every facility to commerce is afforded. No transit duties and town duties are levied and no Road-Toll-bars exist.

*( e ) Fairs :—*

49. The important fairs in the State are those at Aundh, Boblad, Khursundi and Kinhai. They are held annually in the months of January, February, April and November respectively. The fair at Kinhai was attended by 2500 persons, that at Aundh and Boblad by about 5000 persons and that at Khursundi by upwards of 12000 persons. At the Khursundi fair a large cattle market is held and dealers in cloth and brass-pots come from long distances with their articles for sale. The pilgrim tax at half anna per man, which is levied at Khursundi, is spent in opening the Khursundi-ghat for cart traffic.

*( f ) Public Works :—*

50. The following Statement will show the expenditure on public works and public buildings &c., in the State.

It will be seen from the above Statement that the expenditure on Public works from State Funds has been ample and is in excess of last year by Rs. 1782-1-10.

## CHAPTER V.

*Revenue and Finance*

51. The following Statement will show the opening and the closing balance for the year under review as compared with the previous years.

STATEMENT No. I.

| Years. | Opening balance. | | | Receipts. | | | Disbursement. | | | Closing balance. | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|

The proceeds from the sale of the occupancy rights were greater last year than the current and hence the decrease in the receipts under the heads, Land revenue and Khasgi,

The British Government acquired from me on ten year's lease the administration of the Abkari revenue in the Aundh State for an annual payment of Rs. 4500 and paid me in advance the amount for the first five years viz. Rs. 22,500. This accounts for the increase under the head Abkari revenue.

The increase in other items is due to greater receipts from the monopoly of selling betel leaves &c.

The decrease under the head Law and Justice is due to less litigation and less crime.

It will be seen from the above abstract and from a reference to Appendix No. XVII that there has been a decrease in all the principal heads of expenditure including Khasgi and Paga. This is satisfactory notwithstanding the celebration of the Munj or Thread-ceremony of my grandson.

The decrease in the payment of debts is to be deprecated. However, it will be observed from Supplement B to Statement No. XVII that the amount of debt has now dwindled down to Rs. 25608 only or in other words nearly equal to the sum due by Government to me on account of the remaining five years of the Abkari lease of the State taken by them. If Government be pleased to pay me the sum, even after deducting interest, the State will be free from debt. I have already addressed the Abkari Commissinoer on this subject and he has advised me to send the proposal through you.

The increased expenditure under the head Law and Justice was caused by my having to defend 24 law suits, 20 of which were instituted by the Naikowdis, who hold my Saranjami lands in lieu of service but who, owing to the transfer of Karad to the British Government and my consequent loss of Civil and Criminal jurisdiction therein, have been ill advised to bring suits with the object of enjoying my Saranjami lands gratis.

The expenditure on the construction of new and repair of old private buildings viz. Rs. 14439 is undoubtedly large but it could not be helped in the face of my growing family and the dilapidated state of my ancestral buildings.

The increase under the heads Jail and Public Works and the decrease under the head Survey have already been explained in their proper places.

54. In regard to the Khasgi expenditure I beg to state that although the expenditure was Rs. 48932 in 1891–92 still in the two years preceding viz. 1890-91 and 1889–90, it was Rs. 68605 and 70204 respectively. I find it difficult to manage my Khasgi expenditure within Rs. 48932 and Government will not think this strange when they compare my family with that of any other Chief enjoying a Jahagir similar to mine. Chiefs who have no families to maintain incur Khasgi expenditure from about Rs. 50000 upwards whereas with my four sons and four grandsons my Khasgi expenditure ranging between 60 and 70 thousand is not large.

It will not be out of place to mention here that the original grant to me of my Jahagir by the late Native Goyernment and confirmed by the Paramount British Government was solely for my maintenance alone and therefore neither contingent of horse nor tribute, were imposed on me. However, I shall try and reduce my Khasgi expenditure as far as practicable until the debt is paid off.

## LOCAL FUNDS.

### Receipts and Expenditure.

55. Appendix No. XVII shows an increase of Rs. 250–3–6 in Local Funds receipts caused by the increase of land revenue consequent on the introduction of Survey rates.

The expenditure from Local Funds is nearly the same as last year.

56. The manufacture of earth-salt in the State has been suppressed and the monopoly to give licenses for the sale of country spirits has been made over to the British Government until the end of 31st July 1904.

## CHAPTER VI.

## *Vital statistics and Medical Services.*

57. The two charitable institutions viz. the Dispensaries at Aundh and Atpadi have been progressing favourably under the Hospital Assistants Ravji Shivram and Abaji Balkrishna. The subjoined table will show the main particulars concerning the medical relief afforded to the patients.

TABLE I.

| Dispensary. | Number of patients treated. | | Results. | | | | Expenditure. | Daily average. |
|---|---|---|---|---|---|---|---|---|
| | In door. | Out door. | Discharged. | Absented. | Died. | Remaining under treatment. | | |
| Aundh..... | ... | 5464 | 4592 | 824 | 8 | 40 | 897-0-0 | 46 |
| Atpadi..... | .... | 3976 | 2860 | 981 | *108 | 27 | 867-8-0 | 35.4 |

* The number of persons attacked with Cholera in the Atpadi Thana was 238. Out of this number 108 died.

Compared with last year the number of patients treated this year in the two dispensaries was greater by 466 and 403 porsons respectively. Out of the number of persons who have got medical relief 2644 were from villages belonging to the British Government. The prevailing diseases were Fever, Cholera, and Bowel complaints &c. Six major operations were performed. There was one midwifery case.

One native physician is located at Kundal and another at Kinhai and their services are availed of by those who do not like to take English medicines.

The Medical Department is maintained at a cost of Rs. 1944-8-0 against Rs. 1580-14-3 in the previous year. The increase of Rs. 363-9-9 is due to the supply of surjical instruments.

## *Births and Deaths.*

TABLE II.

58. The subjoined table will show the total number of births and deaths in the State during the year under review.

| Description. | 1895-96 | 1894-95 | Increase. | Decrease. |
|---|---|---|---|---|
| Births ... ... | 2752 | 2846 | ... | 94 |
| Deaths ... ... | 2559 | 2160 | 399 | ... |

The increase in the number of deaths is due principally to the Cholera epidemic which raged in the Atpadi Thana.

## SANITATION AND VACCINATION.

59. No separate establishment has been maintained for sanitation. The work is performed by order of the Village and Taluka Officers under the direction of the Karbhari and the result is creditable to all concerned. Large masses of prickly-pear which hitherto infested almost every village have been cut down and burnt. The construction of roads in all villages with the view of securing cleanliness and preventing encroachments is going on and places for the burial and burning of the dead have been appointed and notified in three-fourths of the villages of the State.

60. The following table will show the progress of vaccination in the State during the year under review as compared with that in the previous year.

| Operation by whom performed. | Number of persons vaccinated in. | | Result. | | | | | |
|---|---|---|---|---|---|---|---|---|
| | | | Successful. | | Unsuccessful. | | Unknown. | |
| | 1895-96 | 1894-95 | 1895-96 | 1894-95 | 1895-96 | 1894-95 | 1895-96 | 1894-95 |
| *State Vaccinators.* | | | | | | | | |

| Total,, ... | 2439 | 2826 | 1876 | 2321 | 30 | 18 | 533 | 487 |

The vaccinator of Kundal not having sufficient work in Kundal Taluka is obliged to visit Gundal Mahal near Bijapur and allowed travelling allowance.

The cost of the Department was Rs. 541-6-0 against Rs. 544-6-3 in the preceding year. The slight decrease calls for no remark.

## CHAPTER VII.

### *Instruction.*

61. There are 72 villages in the State. and the number of schools (28) is ample as shewn in the subjoined table.

| Number. | Description of schools. | Number of Pupils on the Rollon 31st March 1895 | Number of pupils on the Rollon 31st March 1896 | Average daily attendance. |
|---|---|---|---|---|
| 23 | Primary Schools for boys.. | 943 | 954 | |
| 3 | Schools not conducted according to the Educational Standards..... | 100 | 104 | |
| | | 1043 | 1058 | 812 |
| 2 | Primary Schools for grils.. | 54 | 54 | 33 |
| | | 1097 | 1112 | |

62. There has been an increase of 15 boys attending the different schools this year. The trading classes do not want instruction according to the Educational standards, but simple reading, writing and arithmetic, and therefore three schools conducted according to the old system are maintained. There are 23 low caste boys receiving instruction.

The cost of the school establishment is Rs. 4409-5-5 from Local Funds and Rs. 247-10 from State Funds. A costly school house has been commenced at Kundal. It will be completed next year.

63. The Educational Inspector of the State reports that the result of his examination of schools was on the whole satisfactory. I visited a large number of schools during my tour and have personally satisfied myself about the correctness of the Inspector's report.

## CHAPTER VIII.

### *Miscellaneous.*

64. There are no wild animals infesting the State. The number of snakes must have decreased owing to the extermination of prickly-pear.

65. There are no Telegraph offices in the State but only 4 Post offices viz. Aundh, 2 Kinhai, 3 Kundal, 4 Atpadi.

66. The State records are in good order. The destruction of useless papers is going on accordingly as the assortment proceeds.

67. There is a Printi ng Press in which all forms required by the Judi cial, Magisterial and Revenue officers are printed.

68. There are reading rooms at Kinhai and Aundh for which two new suitable buildings have been erected.

69. There are no taxes on trades and no Toll-bars exist.

70. In short, I am in a position to state that the reforms which I have introduced during the last five years with the assistance of my Karbhari, Row Bahadur Joglekar have, in my opinion, placed the Administration of my State on a satisfactory footing. The efficiency of the Police has diminshed crime. Justice is speedily meted out in consequence of which complaints to you have become a rarity. The Survey Settlement has been introduced in all the Thanas for the benefit of the cultivators whose condition is on the whole good. The financial condition is fast improving and the debt has almost been paid off without lessening expenditure on works of public utility

71. In conclusion I beg to express my thanks to you for your cordial support.

I have the honor to be,
Sir,
Your most obedient servant,

(Sd.) SHRINIWAS ROW PURASHRAM,
Pundit Punt Prutinidhi,
Chief of the Aundh State.

# ADMINISTRATION REPORT OF THE AUNDH STATE, IN THE SATARA COLLECTORATE, FOR 1306 FASLI, A. D. 1896-97.

From,

SHRINIVAS ROW PURASHRAM PUNDIT,
PUNT PRUTINIDHI,
Chief of the Aundh State.

To,

C. B. WINCHESTER, Esquire,
Political Agent,
Satara.

*Aundh, dated, 10th July 1897.*

Sir,

I have the honor to submit the Annual Administration Report of the Aundh State for the year 1306 Fasli ending with 5th June 1897.

2. The usual Statements as per margin accompany together with two new supplements to Statement No. XVII—the one showing adjustments, and the other debts, as required by your Memo. No. 236, dated 2nd May 1894.

I to IV and VI to XVII

As there is no Military Force in the State, Appendix No. V relating thereto, has not been forwarded.

## CHAPTER I.

### Political.

3. The State of Aundh is in alliance with the British Government under the Treaty of 1820. No tribute is paid to the Paramount Power.

4. I had the pleasure of an interview with you at Satara in the middle of August last and you were pleased to visit both my Head-quarter Stations of Aundh and Kinhai during the year of report.

5. Owing to the lingering sickness of my elder wife Shrimunt Radhabai Saheb from Consumption which caused her death, on 27 April 1897, I was unable

to go to Poona, as usual, to have an interview with His Excellency the Right Honorable the Governor of Bombay and the Honorable Members of Council.

## CHANGES IN THE ADMINISTRATION.

6. None.

## CHAPTER II.

### Administration of Land.

7. The Survey settlement having been completed nothing now remains to be done.

There are no special tenures in the State.

## INAM SETTLEMENT.

8. The settlement of Inams has been completed and nothing remains to be done in respect thereof.

## WASTE LANDS.

9. The following table shows the extent of waste lands taken up for cultivation and still remaining waste :—

| Extent of Cultivable area for | | Taken up in | | Waste remaining at the end of the year. | | Percentage of cultivable land lying waste. | |
|---|---|---|---|---|---|---|---|
| 1895-96 | 1896-97 | 1895-96 | 1896-97 | 1895-96 | 1896-97 | 1895-96 | 1896-97 |
| A. G. | A. G. | A. G. | A. G. | A. G. | A. G. | | |
| 5980—2 | 4175—23 | 1804—19 | ..... | 4175—23 | 4240—34 | .01 | .01 |

The agricultural classes suffered more or less in consequence of the famine and scarcity which prevailed during the year of report and, therefore, instead of waste land being brought under cultivation, cultivated land measuring 65 acres and 11 gunthas was given up.

10. The Village, Taluka and Huzur Accounts are kept up mostly according to Mr. Symonds' forms of accounts. A proper check over them by way of inspection is kept by the Karbhari and the Duftardar. My son Bhugwant Row, Sursubhedar, also does the duty of examining the cash balances, stamps &c. throughout the Treasuries in the State.

11. Boundary disputes :—None

12. No estates belonging to Wards were under the management of the State.

## CHAPTER III.

„ II of 1890 Salt.
„ IV of 1890 District Police,

The Mamlatdar's Court Act is in force subject to the reservation that appeals against the Mamlatdar's decisions are entertained.

(*b*) Police.—

14. The Police force has maintained its character for efficiency. Although there was a famine and scarcity in some Talukas of the State, still there have been no murders nor plundering of grain Buzars, and stores. Mahars of some villages of the Bijapur Collectorate and the Jumkhandi State numbering 100 souls, committed a dacoity on the house of a cultivator of the village of Bolchikalgi of the Aundh State; because he was reported to possess grain in large quantities. These offenders were, however, skilfully traced by the State Police and the ring-leaders have been punished by me with rigorous imprisonment extending from two to three years.

15. The strength and cost of the stipendiary Police, enrolled under the Police Act, is as noted in the margin and detailed in Appendix No. VI.

Strength cost 68. 9319-8-2.

Fifteen new Police men have been employed as a temporary measure from December last in three Thanas where scarcity was severe. Their services will be dispensed with most probably in a month or two and, therefore, they have not been shewn in Appendix No. VI.

16. There are 40 Shetsundis or village watchmen employed on Police duties. They each hold service inam lands of the value of from Rs. 24 to 50. I have supplemented the landed income of 14 of them, employed on regular Police duties by cash allowances aggregating Rs. 324 per annum.

17. In addition to the Police force mentioned above there are sundry, armed men called Shibandi in number 84 who are employed in guarding Jails palaces, and offices &c. They have not been enrolled as regular Police men and consequently do not possess Police authority. However they are shown separately in Appendix No. VI. as required by you.

18. In the fourth para: of your remarks on the last years Administration report you suggested one or two changes in the constitution of the Police but concluded by expressing an opinion that:—

"The Police, as they are at present, seem to be fairly efficient and I have not "received any complaints against them either for slackness or corruption."

As the conduct of the Police force has been good during the year of report and as long as they maintain the character for efficiency, no change in their constitution is considered desirable.

19. The Police men in my State are dressed like those in the service of the British Government. Those employed on the duty of guarding Treasuries are armed with muskets, and the rest with either Latons or swords.

20. The value of property stolen and recovered together with the percentage of recovery is contrasted below:—

| Year. | Value of property stolen. | Of which recovered. | Percentage of property recovered. |
|---|---|---|---|
| 1895-96 | 3235-0-9 | 2086-3-4 | 64·4 |
| 1896 97 | 3069-0-7 | 1871-6-9 | 60 9 |

The amount of property stolen during the year under report is less by Rs. 166-0-2 and, therefore, the slight decrease in the percentage is not worth notice.

21. The village Police consists of 72 Watandar Police Patels at the rate of one for each village and 78 Ramoshis or hereditary village watchmen. None of the Patels have been invested with the special powers under sections 14 and 15 of the Village Police Act VIII of 1867, because they have not sufficient education. The conduct of the village Police was good.

22. Twenty three accidental deaths occurred viz:—

| | 1895-96 | 1896-97 |
|---|---|---|
| By Snake bites ..... | 7 | 5 |
| " Drowning in wells and rivers ... | 14 | 14 |
| " Fall from a tree & the fall of a house ..... | 1 | 2 |
| " Killed by lightening and fire..... | 6 | 1 |
| Gored by a bullock..... | ..... | 1 |
| Total..... | 28 | 23 |

The number of deaths by drowning is the same as last year but there has been a decrease in the number of deaths from snake bites and from fire.

(*c*) *Criminal justice*:—

23. The various Criminal Courts at work during the year are:—

| | Nos. |
|---|---|
| The Huzur Sessions Court presided over by myself..... | 1 |
| The Karbhari and District Magistrate ..... | 1 |
| The Sursubhedar and Magistrate, First Class, Aundh... | 1 |
| Do. Do. Second Class Aundh State ..... | 1 |
| The Duftardar, Magistrate, Second Class Aundh..... | 1 |
| Mamlatdars, Second Class Magistrates..... | 3 |
| Sub-Judge, Third Class Magistrate ..... | 1 |
| Thanedars, Third Class Magistrates ..... | 4 |
| | 13 |

It will be seen from Statement No. X that I tried 5 Sessions cases implicating 14 persons. Eleven of the accused were convicted and three acquitted.

In his capacity of District Magistrate the Karbhari exercises efficient control over all the subordinate Magistrates. 11 cases were disposed of by him.

24. The total number of offences brought to trial before all the Courts was 192 against 163 in the previous year. The percentage of convictions to the number of accused brought to trial is 67·9 against 71·9. No cases remained undisposed of at the end of the year. The average duration of cases disposed of by the Karbhari was one day and that of cases tried by other Magistrates did not exceed four days.

## APPEALS.

25. During the year under report the Huzur Appellate Court dealt with 16 appeals against 11 of the previous year with the following result:—

| | |
|---|---|
| Appeals rejected..... | ... |
| Sentences confirmed .... | 9 |
| „ Modified ..... | 6 |
| „ Reversed..... | 1 |
| Proceedings quashed ... | ... |
| | 16 |

## REVISION.

As a court of revision I reversed the convictions and sentences in two cases-one passed by the Second Class Magistrate of Kundal in a case of Criminal trespass under section 447 and the second by the 3rd Class Magistrate of the same Taluka in a case of hurt.

( *d* ) *Extradition.*--

26. During the year a demand was made by the Political Agent, Satara, for the surrender of two accused persons and by this State for the surrender of thirteen accused from the British territory. There has been no want of reciprocity in the extradition of offenders on the part of neighbouring States. Four offenders were received from the Miraj and Jumkhandi States and two were made over to the Kolhapur State.

( *e* ) *Prisons.*--

27. The Jail building at Kinhai which is well ventilated is sufficient to accommodate 50 prisoners. It is used as a central Jail.

28. There are four lock-ups at the Taluka stations. The short term prisoners are mostly confined therein. The medical officers employed at different places look after the health of the Jail population.

The convicts at the Huzur Jail and at the lock-ups enjoyed good health.

29. The Jail discipline is similar to that obtaining in Jails under the British Government. The convicts work on roads.

30. The rates of ration in force in the Satara Sub-Jail have been introduced, with this modification that the untried prisoners are allowed the same rations as those given to tried prisoners and not less.

31. The expenditure incurred on account of the Jail Department amounts to Rs. 2537-1-0 against Rs. 2658-11-4 in the previous year. The decrease is not worth notice.

( *f* ) *Civil justice.*--

32. The number and designation of the Civil Courts in the year under review was as shown below :—

1 The Huzur Civil Court presided over by myself.
3 Courts of the Second Class Subordinate Judges.

33. The number and value of suits will be seen from the subjoined Statement :—

| No. | Name of Court. | Suits for immoveable property | | Money Suits. | | Suits for other rights. | |
|---|---|---|---|---|---|---|---|
| | | 1895-96 | 1896-97 | 1895-96 | 1896-97 | 1895-96 | 1896-97 |
| 1 | Second Class Sub-Judge Atpadi ..... | 19 | 9 | 119 | 102 | I | 2 |
| 2 | Do Class Sub-Judge Kapil... | 43 | 67 | 124 | 58 | 7 | 4 |
| 3 | Do " Gundal..... .. | ... | 2 | 6 | 7 | 1 | ... |
| | | 62 | 78 | 249 | 167 | 9 | 6 |
| | | | | | | 62 | 78 |
| | | | | | | 249 | 167 |
| | | | | | Total Suits... | 320 | 251 |

The value of the suits filed during the year amounts to Rs. 32208-5-8 against Rs. 30923-3-9 in the previous year.

34. There were 54 suits remaining undisposed of against 20 in the preceding year. This increase is attributable to the closing of the Civil Court at Atpadi for a time on account of scarcity and the employment of the Sub-Judge on famine duty.

The average duration of each suit is 2 months and 10 days against 2 months and 7 days in the previous year.

The speediness with which the Civil work was disposed of by the Lower Courts is creditable to the Sub-Judges.

35. The following Statement will show the work done by the Huzur Civil ( Appellate ) Court.

| Name of Court. | Opening balance. | | Filed during. | | Total. | | Disposed of during. | | Closing balance. | | Value of appeals filed during. | | | How disposed of | | | | | Average duration. | | | | | | Remarks. |

EXECUTION.

36. Statement No. XIV will show that the Civil Courts had to dispose of 238 applications for the execution of decrees. Out of these 185 were disposed of leaving 53 pending at the close of the year. Having received several applications from Judgment debtors that their attached property could not fetch its proper price owing to Famine, I directed the Sub-Judges not to confirm the sales already effected and also not to execute the decrees until the famine was over. This accounts for the increase in the number of applications remaining undisposed of at the close of the year.

Suits under the Mamlatdar's Court Act III of 1876.

37. During the year under review the Mamlatdars had to dispose of 48 suits against 38 in the previous year. The whole of them were disposed of satisfactorily with two exceptions in which the decisions were reversed by me.

( *g* ).—*Registration.*

38. The Huzur Registry office is kept at Aundh. The Duftardar has been invested with the functions of the District Registrar. The number of the Sub-Registry offices kept at Taluka-stations is 6.

39. The subjoined table shows the description of the documents registered during the year as compared with those in the preceding year :—

| Description. | 1895-96 | | | | 1896-97 | | | | Remarks. |
|---|---|---|---|---|---|---|---|---|---|
| | Number of deeds. | Value of property. | | Fees realized. | Number of deeds. | Value of property. | | Fees realized. | |

| Miscellaneous ..... | 122 | 22,400 5 11 | | 216 15 6 | 111 | 14713 15 0 | | 187 13 9 | |
| Total ..... | 442 | 134248 3 11 | | 1067 5 6 | 424 | 121676 4 4 | | 980 6 6 | |

| Net profit... | ... | ..... | | 1058 5 6 | ... | ..... | | 971 6 6 | Decrease. 86 15 0 |

The registration work is done by the existing revenue establishment and therefore the expenditure is small. The decrease in recipts of Rs. 86-15 is to be attributed to famine in a portion of the State.

## MUNICIPAL ADMINISTRATION.

40. The receipts and expenditure of the Village Sanitation Committees will be seen from the sub joined table :—

| No. | Name of Municipality. | Balance on 5th June 1896. | | | Receipts during 1896-97. | | | Total. | | | Expenditure during 1896-97. | | | Balance on 5th June 1897. | | |

The income is partly derived from the house tax and partly by the local cesses hitherto levied by the State but now transferred to the Committees such as cattle pound, taxes on snuff and betel leaves &c.

The expenditure has been solely on the employment of Sweepers for the removal of filth and on improving water-supply, roads and lighting lamps.

## CHAPTER IV.

### Production and Distribution.

### (a) *Agriculture, Weather and Crops.*

41. Agriculture is the chief occupation of a considerable portion of the subjects of the State. The condition of the Agricultural classes in two Talukas affected by the famine is not satisfactory. This is evident from the decrease in the agricultural stock as shewn in Statement No. XVI.

42 The rainfall at the several stations was as follows :—

| Name of the Station. | 1895-66. | | 1896-97. | |
|---|---|---|---|---|
| | Inches. | Cents. | Inches. | Cents. |
| 1 Aundh..... | 31 | 82 | 28 | 96 |
| 2 Kundal..... | 28 | 77 | 25 | 83 |
| 3 Atpadi..... | 28 | 78 | 9 | 76 |
| 4 Gundal..... | 17 | 47 | 8 | 57 |

43. The Aundh State consists of 72 villages scattered from Satara to the west to Jumkhandi to the east—a distance of 120 miles and constituting three Talukas 1 Kundal, 2 Atpadi and 3 Gundal and three Petas. The first Kundal, together with three Petas comprising 23 villages, is situated near the Sayadri range of hills and is seldom liable to drought like the third comprising 17 villages situated near Jumkhandi. The second Taluka Atpadi consisting 32 Villages is situated between the two. The fall of rain in the three Talukas varied in proportion to their distance from the Sayadri range of hills as will be seen from the above table. The crops in Kundal yielded a harvest of from annas four to annas eight and those in Atpadi Taluka yielded a harvest of from annas two to annas four; but there was no crop raised in Gundal owing to want of rain save about 4,000 acres of land which are annually submerged under water by the rising of the Krishna river during the rainy season.

(*b*) *Wages and labour.*—

44. The wages per diem for skilled and unskilled labour have lowered on account of scarcity but the hire of the bullock carts and ponies has risen owing to increase in the price of fodder as will be seen from the following :—

Carpenter ..... 8 to 10 annas.
Mason ..... 5 to 8 annas.
Cooly..... 2 to 3 annas.
Cart of two bullocks... 1 Rupee to 1-8
Ponies..... 12 annas to 1 Rupee.

45. The prices of the staple food grains, at the time of the harvest in the Atpadi Thana, where 32 of my villages are situated together, were :—

Jowari..... 18 pounds per Rupee.
Bajri..... 16 do. do.
Tur-pulse..... 13 do. do.
Gram ..... 12 do. do.
Wheat..... 15 do. do.

The dearness of grain caused great hardship among poorer classes. To alleviate it, measures of relief were adopted as deascribed in para: 66.

*( c ) Forests* :—

46. About 4300 acres are set apart for the growth of Forest. There is no separate Forest Establishment. The existing Revenue Establishment looks after it.

*( d ) Trade and Manufactures* :—

47. There are no factories or other work-shops in the State.

48. The chief articles of export are wheat, cotton, coarse-sugar, ground-nut, Jowari, and Bajri. The chief articles of import are piece- goods, stationery, sugar, grocery, Kerosine oil, &c. There is however, no extensive traffic in these articles. The articles imported are mostly for local consumption. Every facility to commerce is afforded. No transit and town duties are levied and no Road-Toll-bars exist.

*( e ) Fairs* :—

49. No fairs worth mention were held this year owing to famine and the fear of Bubonic Plague.

*( f ) Public Works* :—

50. The following Statement will show the expenditure on public works and public buildidgs &c, in the State :—

Besides the above works the silt from the tank at Kotyal was removed for the purpose of improving the storage of water at a cost of about Rupees 800. This sum which is included in the amount of advances has not yet been finally debited to the work.

51. It will be seen from the above particulars that the expenditure on Public works from State Funds and Local Funds was the largest simply to give employ ment to famine stricken people. Some of the works such as Bungalows and school-houses and costly Dharmashalas cannot be classed as purely relief works; but they were commenced before and did give employment to some famine stricken people besides artisans.

52. Malharpeth and Pandharpur road, lying within the Atpadi Taluka, was in a worst state from mile 61 to mile 72. As the toll proceeds were received by the Satara District Local Board, it was incumbent on that Board to properly construct it; but as the Executive Engineer refused to do so for want of funds, I, to save dispute and to remove inconvenience to traffic, did the needful at a cost of Rs. 2,735-5-11. There is now no objection to the Executive Engineer keeping the Road in repair from toll funds. If he refuse to do so, I shall be obliged to establish a toll-bar at Dighunchi at half the rates.

53. The cross road from Dighunchi to Bhiwar-ghat which joins the Malharpeth and Pandharpur and Karad and Bijapur roads, is of much use to traffic.

The utility of other branch roads can be learnt from their description in column 2 of the above Statement.

## CHAPTER V.

*Revenue and Finance.*

54. The following Statement will show the opening and the closing balance for the year under review as compared with the previous year :—

STATEMENT No. I.

| 1895-96 ... | 39430 2 6 | 212357 6 6 | 208201 10 3 | 43585 14 9 |

The decrease in receipts and closing balance and the increase in expenditure is due mainly to famine.

( *a* ) Land Revenue amounting to Rupees 45,178-7-2 has remained uncollected or in other words its realization has been postponed on account of famine. This explains the decrease in Land Revenue.

( *b* ) Last year I took from Government a sum of Rs. 22,500 in advance on account of the Abkari revenue of the Aundh State taken in lease by them for ten years. Owing to the absence of that item this year and also to famine a decrease in Sayer revenue is apparent.

( *c* ) The increase of Rs. 10938-11-1 under the Head Khasgi is due to the sale of the right of occupancy on survey tenure of lands which were formerly let out for ten years.

| | Grand total | 212256 4 10 | 208201 10 3 | 228261 15 1 | 201246 10 0 |

( *a* ) It will be seen from the above abstract and from a reference to Appendix No. XVII that there has been a decrease of Rupees 4264-7-11 in Khasgi expenditure notwithstanding the incidental expense of Rs. 4500 in connection with the sickness and funeral obsequies &c. of my wife.

(*b*) Owing to the excessive dearness of fodder, there has been an increase of Rupees 506 10-0 under the head Paga (Stables .)

(*c*) Mr. Whitcombe, the Survey Superintendent of Native States, settled the cash remuneration of village officers—Patels and Kulkarnis according to Sir Wingate's scale and to this is attributable the increase under the head remuneration to Watandars.

(*d*) The cost of the substitutes employed in lieu of Naikowdis who have refused to serve, was hitherto debited under the head Police ; but as those men are not enrolled under the Police Act, they have been transferred from the head Police to that of Shibundi. This accounts for the decrease in former and the increase in the latter both being nominal.

(*e*) Owing to strict economy there is a decrease in other heads of expenditure; but the decrease under the head liquidation of debt is due to famine and consequent non-realization of land revenue in full. Last year Rs. 10,000 were paid in liquidation of debts but this year Rs. 18,287-13-0 have been borrowed instead to meet the exigencies of the State. The large expenditure on public and Famine relief works and the granting of Tagai and other advances to the extent of Rs. 15781-15-4 fully justifies the above measure.

| Advances.— | | | |
|---|---|---|---|
| Tagai | 11,135 | 0 | 0 |
| Other | 4,646 | 15 | 4 |
| | 15,781 | 15 | 4 |

(*f*) As remarks are always made in regard to the financial condition of my State, I think it necessary to show that it is not so unsatisfactory as to call for remark. Including new debts and the interest on former debt, brought to account this year, a total sum of Rs. 48554-1-0 is due by me at this date; but there is the sum of Rupees 60,960-6-6 due to me. This will show that the amount receivable by me exceeds the one payable by Rupees 12,406-5-6.

Vide supplement B to Appendix No XVII

| | | | |
|---|---|---|---|
| 45,178 | 7 | 2 | Land Revenue uncollected |
| 15,781 | 15 | 4 | Tagai and other advances |
| 60,960 | 6 | 6 | |
| 48,554 | 1 | 0 | Debts deducted |
| 12,406 | 5 | 6 | Surplus balance |

(*g*) On an examination of the financial condition in another way it will appear that there has been a decrease in the closing balance of Rupees 17,295-3-10 and a sum of Rupees 18,287-13-0 has been borrowed ; thus there has been a deficit of Rupees 35,583-0-10 ; but this is more than covered by the unrealized land revenue of Rs. 45178-7-2

(*h*) A sum of Rupees 30,000 is required to meet the expenses up to the next revenue collection in January 1898. As a set off against

this there is the surplus outstanding balance of Rs. 12406-5-6 mentioned in para 56 Clause f. and therefore the actual amount of debt will come up to Rs. 17,593-10-6, by January 1898. This can easily be paid off by the absence of excessive Public works expenditure in the next few years.

From the above particulars you will perceive that notwithstanding the large expenditure on account of famine, my State is not actually indebted at this date.

## LOCAL FUNDS.

57. Appendix No. XVII shows a decrease of Rs. 1095-3-10 in receipts but the expenditure is larger by Rs. 4,170-4-7. The cause of this is the Famine. Postponement of collection of revenue has caused a decrease in receipts while the undertaking of extensive Public works to give relief to the Famine stricken people has caused the increase in expenditure.

58. The manufacture of earth-salt in the State has been suppressed and the monopoly to give licenses for the sale of country spirits has been made over to the British Government until the end of 31st July 1904.

## CHAPTER VI.

### *Vital statistics and Medical Services*

59. The two charitable institutions viz. the Dispensaries at Aundh and Atpadi have been progressing favourably under the Hospital Assistants Ravji Shivram and Abaji Balkrishna. The subjoined table will show the main particulars concerning the medical relief afforded to the patients:—

* The number of persons attacked with Cholera in the Atpadi Thana was 194. Out of this number 89 died.

Compared with last year the number of patients treated this year in the Dispensary at Atpadi was greater by 249 persons and less by 380 in the Dispensary at Aundh. The decrease is to be attributed to the healthiness of the population round about Aundh. Out of the number of persons who have got medical relief 2342 were from villages belonging to the British Government. The prevailing diseases were Fever, Cholera, and Bowel complaints &c. 8 major operations were performed.

One native physician is located at Kundal and another at Kinhai and their services are availed of by those who do not like to take English medicines.

The Medical Department is maintained at a coast of Rs. 1918-5-0 against Rs. 1944-8-0 in the previous year. The decrease is not worth notice.

## *Births and Deaths.*

TABLE II.

60. The subjoined table will show the total number of births and deaths in the State during the year under review.

| Description. | 1895-96 | 1896-97. | Increase. | Decrease. |
|---|---|---|---|---|
| Births ... ... | 2752 | 2688 | ..... | 64 |
| Deaths ... ... | 2559 | 2156 | ..... | 403 |

The decrease in the number of deaths is due to a more healthy year.

## SANITATION AND VACCINATION.

61. No separate establishment has been maintained for sanitation. The work is performed by order of the Village and Taluka Officers under the direction of the Karbhari and the result is creditable to all concerned. Large masses of prickly-pear which hitherto infested almost every village have been cut down and burnt. The construction of roads in all villages with the view of securing cleanliness and preventing encroachments is going on and places for the burial and burning of the dead have been mostly appointed and notified.

62. It may be in your recollection that when you visited kinhai in the middle of December last, a case of imported Bubonic fever of the worst type

occurred there and the corpse of the woman who had died of it was taken by about a dozen persons to the cremation ground in your presence. At that time there were no rules nor orders regarding segregation and disinfection and yet the disease did not spread. Since then there were two other imported cases of Plague in two different villages apart from each other ; but the disease did not spread there also. Consequently there was no occasion to establish a quarantine against the affected District nor to enforce the segregation of the healthy.

63. The following table will show the progress of vaccination in the State during the year under review as compared with that in the previous year.

| Operation by whom performed. | Number of persons vaccinated in. | Number of persons vaccinated in | Result. | | | | | |
|---|---|---|---|---|---|---|---|---|
| | | | Successful. | | Unsuccessful. | | Unknown. | |

| Total ..... | 2439 | 2256 | 1876 | 1658 | 30 | 19 | 533 | 579 |

The Deputy Sanitary Commissioner, Central Division, superintends the work done by the State Vaccinators. It is stated that the decrease in the number of persons vaccinated is due to the migration of famine stricken people.

The cost of the Department was Rs. 545-0-10 against Rs. 541-6-0 in the preceding year. The slight increase calls for no remark.

## CHAPTER VII.

### *Instruction.*

64. There are 72 villages in the State and the number of schools ( 26 ) is ample as shown in the subjoined table.

| Number. | Description of schools. | Number of Pupils on the Rollson 31st March 1896. | Numberof pupils on the Rollson 31st March 1897 | Average daily attendance. |
|---|---|---|---|---|
| 22 | Primary Schools for boys. | 954 | 870 | 763 |
| 3 | Schools not conducted according to the Educational Standards ..... | 104 | 75 | |
| | | 1058 | 945 | |
| 1 | Primary Schools for girls. | 54 | 49 | 25 |
| | | 1112 | 994 | 788 |

There has been a decrease of two schools and 118 boys and girls. This is solely due to famine. Persons who hitherto were able to support their children in schools have this year been compelled to send them on relief works. There are 15 low caste boys receving instruction.

The cost of the school establishment is Rs. 4,605-11-9 from Local Funds; Six new school houses have been constructed at a cost of Rs. 6,263-14-3.

The Educational Inspector of the State reports that the result of his examination of schools was on the whole satisfactory.

## CHAPTER VIII.

### *Miscellaneous.*

#### Diamond Jubilee.

65. In commemoration of the completion of the sixtieth year of the reign of Her Most Gracious Majesty the Queen Empress of India, a Durbar was held by me on the 21st June 1897 at 5 P. M. This was attended by all the officials of

the State and the principal inhabitants of the town. There was also a large concourse of people in the open square in front of my palace. The elephants, the horses and all the Police and Shibundi force and Horsemen were drawn up in front of the palace headed by the band in honor of the occasion.

Mr. G. Monteath, Assistant Collector of Satara, who had been sent by you as your representative for the purpose of delivering over to me the Khalita from His Excellency the Right Honorable the Governor, was first brought in State from the suburbs of the town and on his coming to the Durbar he delivered to me the Khalita which was received with great acclamation by me and all my subjects present. By my order the Karbhari explained to the audience the object of the Durbar and read out to them the congratulatory address sent by me to Her Most Gracious Majesty the Empress of India. After this my son Gangadhar Row alias Tatyasaheb delivered an excellent speech in Mahrathi detailing the multifarious benefits which the State as well as the people of India in general enjoyed under Her Gracious Majesty's rule. Another son of mine Bhawan Row alias Bala Saheb, who is a Graduate of the Bombay University, delivered another speech in English in a most eloquent manner giving a graphic account of Her Majesty the Queen Victoria, Empress of India's life and motherly affection towards all Her subjects and narrating at length the advantages derived by the people of India from Her Majesty's rule—viz the spread of education, the Railways, Telegraphs, Canals and the elevation of Natives to higher administrative posts &c. These speeches were received by all present with loud applause.

In commemoration of the occasion I ordered the Karbhari :—

1stly—to discharge four convicts who had conducted themselves well during their imprisonment in the Jail.

2ndly—the Educational Inspector to distribute sweetmeat to the School-boys and other children that had assembled in front of the palace.

3rdly—the Duftardar to give gratis to the labourers, employed on relief works at Aundh itself, half a day's wages.

Pansupari, rose-water and flowers having been distributed as usual, I made a concluding speech stating in the first place my deep sense of gratitude to Her Most Gracious Majesty for the kind treatment which I myself had experienced from all the Governors and the Political Agents in Satara during the last 45 years of my own administration of my State and prayed to the Almighty God most fervently to give Her Gracious Majesty Queen Victoria Empress of India a very very long life and still greater prosperity.

At the time of prayers every one stood up and at the conclusion thereof there were great rejoicings. A salute was given by the band and there being no canon in the State to fire a salute, the Police and Shibundi force who were armed with Muskets, fired in lieu thereof three Volleys.

After nightfall the principal Peth or quarter of the town, the offices, temples and the palace were illuminated and there was a display of fire works. This concluded the Diamond Jubilee celebration at my Headquarters. But this was not all. My elder wife's son Bhagwant Row Shriniwas alias Aba Saheb who stops at Kinhai, another Head-quarter of mine, held a Durbar and observed similar rejoicings there, and the Thanedar of Sungum Mahuli close to Satara and the Mamlatdars of Kundal, Atpadi and Gundal did the same. It being an undisputed fact that my subjects are most happy under the protection of Her Most Gracious Majesty's rule, the rejoicings were spontaneous and hearty.

66. There was during the year famine in two of three Talukas of the Aundh State and, therefore, Relief Works and Public Works were sanctioned on the largest scale possible for the relief of the distressed people; and where ever there was a difficulty experienced by the people in obtaining grain, State granaries were established and in order that they should not interfere with the free trade, grain was issued therefrom on other than Buzar days to persons who complained that they were unable to get it elsewhere. Tagai was advanced for the digging of wells and compensation for the dearness of grain was given to lowly paid stipendiary servants as well as to a number of village Watchmen in the Gundal Taluka called Shetsundis. A circular was issued to the effect that the land revenue for the current year should be collected from all well-to-do cultivators and from others who had reaped some kind of crops and that postponement of assessment should be allowed to all those who had been unable on account of the deficiency of rain to sow and reap any kind of crop. I can safely say that by the measures adopted by me not a single person has died of starvation; but I am sorry to say that it was impossible to save a large number of cattle from starvation in consequence of want of fodder. At present numerous applications are received for Tagai advances for the purchase of bullocks and seed and they are being complied with as far as the resources of the State permit.

67. There are no wild animals infesting the State. The number of snakes decreased owing to the extermination of prickly-pear.

68. There are no Telegraph offices in the State but only 4 Post offices viz.-Aundh, 2 Kinhai, 3 Kundal, 4 Atpadi.

69. The State records are in good order. The destruction of useless papers is going on accordingly as the assortment proceeds.

70. There are reading rooms at Kinhai and Aundh for which two new suitable buildings have been erected.

71. There are no taxes on trades and no Toll-bars exist.

72. In conclusion I think you will concur with me in my opinion that the Police force acquitted itself admirably, that the administration of Civil and Criminal justice was satisfactory, that the expenditure on Public and Relief works is worth special notice, that the measures adopted for the relief of the famine stricken were timely and sufficient to avoid distress among the poorer classes and that in the face of all unforseen expenditures the financial condition of the State was good.

Thanking you for your kind attention and cordial support.

I have the honor to be,

Sir,

Your most obedient servant.

Chief of the Aundh State.
